Notes to the financial statements (continued)**Notes to the financial statements****Note1- Accounting Policies****a) Presentation of the financial statements**

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment ("UCIs") and generally accepted accounting principles in Luxembourg.

b) Valuation of securities

- The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.

- The value of assets dealt in on any regulated market is based on the last available price.

- In the event that any assets are not listed or dealt in on any stock exchange or on any other regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or other regulated market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.

- The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other regulated markets is based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular future or forward foreign exchange contracts are traded by the Fund; provided that if a future or forward foreign exchange contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.

- Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.

- The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

- The value of any cash on hand or deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true thereof.

- All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.

c) Conversion of the acquisition cost of securities in the portfolio

For securities expressed in currencies other than the reference currency of the Sub-Fund, the conversion of the acquisition cost is calculated based on the closing exchange rates of the day of purchase.

Note1- Accounting Policies (continued)

d) Net realised profit/(loss) on sale of investments

Net realised profits or losses made on the sales of investments are calculated according to the average cost method.

e) Investment income

A dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes.
Interest income is recorded on an accrual basis.

f) Conversion of foreign currencies

Cash at banks, other net assets and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing as at 30 June 2020. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of Operations and Changes in Net Assets under the heading net realised profit/(loss) on currencies.

g) Combined financial statements

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of Net Assets is presented in euros ("EUR").

The combined statements correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at 30 June 2020. The differences of exchange rates between 31/12/2019 and 30/06/2020 are recorded in Statement of Operations and Changes in Net Assets under the caption Conversion difference.
