**General information**

CompAM FUND (the "Fund") is an investment company organised as a "Société d'Investissement à Capital Variable" ("SICAV") under the laws of the Grand Duchy of Luxembourg.

The Fund incorporated on 28 February 2003 in Luxembourg for an unlimited period is governed by the amended Luxembourg Law of 10 August 1915 on commercial companies and by the Part I of the amended Law of 17 December 2010 on Undertakings for Collective Investment (the "2010 Law").

The management of the Fund has been delegated to MDO Management Company S.A., a *société anonyme*, incorporated and subject to the laws of the Grand-Duchy of Luxembourg and duly authorized by the CSSF as a management company within the meaning of Chapter 15 of the 2010 Law.

The Articles of Incorporation were published in the Mémorial C, Recueil des Sociétés et Associations (the "Mémorial") on 4 April 2003, were last modified on 25 November 2015, and published in the "Mémorial" on 26 November 2015.

As at 31 December 2016, the following Sub-Funds are open for subscription:

**General information (continued)**

For each Sub-Fund, the Fund is entitled to issue Shares of different classes, as described in more details in the current Prospectus. For the time being, thirteen classes of ordinary Shares are offered by the Fund, i.e. Class A Shares, Class B Shares, Class C Shares, Class D Shares, Class E Shares, Class I Shares, Class L Shares, Class M Shares, Class Q Shares, Class S Shares, Class S CHF hedged, Class Y Shares, Class Z Shares.

As at 31 December 2016, the classes of Shares offered by the different Sub-Funds are:

CompAM FUND - Active Emerging Credit	Class A, Class B, Class D, Class M, Class S, Class Y and Class Z
CompAM FUND - Active European Equity	Class A, Class B, Class M, Class Q, Class Y and Class Z
CompAM FUND - Active Liquid Strategy	Class A, Class B, Class D, Class M and Class Z
CompAM FUND - Active European Credit	Class A, Class B, Class D, Class M, Class Y and Class Z
CompAM FUND - Active Dollar Bond	Class A, Class E, Class M, Class Y and Class Z
CompAM FUND - Balanced Portfolio	Class A, Class B, Class M and Class S (CHF hedged)
CompAM FUND - Equity Africa & Middle East	Class A, Class B, and Class M and Class Z
CompAM FUND - Conservative Portfolio	Class A, Class B, Class M, Class Q and Class Z
CompAM FUND - SB Convex	Class B, Class D, Class I and Class Q
CompAM FUND - SB Equity	Class B, Class D, Class I, Class M and Class Q
CompAM FUND - SB Flexible	Class B, Class D, Class I, Class M and Class Q
CompAM FUND - SB Bond	Class B, Class D, Class I, Class M and Class Q
CompAM FUND - Active Bond Plus	Class B and Class I
CompAM FUND - Active Conservative Bond	Class A, Class M and Class Y
CompAM FUND - Global Diversified	Class A, Class B and Class M
CompAM FUND - Active Equity Selection	Class A, Class M, Class Q, Class Y and Class Z

## **CompAM FUND**

---

### **General information (continued)**

CompAM FUND - Global Equity Portfolio	Class A, Class M and Class Z
CompAM FUND - Active Market Neutral	Class A, Class M, Class Q, Class Y and Class Z
CompAM FUND - Flexible Bond	Class Q
CompAM FUND - Cadence Strategic Asia	Class A, Class C GBP, Class C USD, Class L USD, Class M, Class Y and Class Z

The difference between the different classes of ordinary Shares relates to the dividend payment, minimum investment, investment management fee, performance fee and the placing fee which is payable quarterly in arrears to the relevant Placing Agents and the non-base currency and hedging impact.

Certain classes of ordinary Shares may not be offered for subscription by the Fund's Placing Agents in certain countries where the Fund is registered for public distribution. In such case, the investors wishing to subscribe for a class of Shares which is not offered for subscription by the Placing Agent appointed in their country of residence may apply to the Sub-Registrar and Transfer Agent in Luxembourg in order to subscribe for the relevant class of Shares.

The Class C Shares requires the prior approval of the Board of Directors of the Fund.

The Class Q Shares is open to any type of investors, including retail investors, who purchase and sell shares through the ETF plus Market.

The Class Y Shares is reserved to other Sub-Funds of the Fund for cross Sub-Fund Investments.

The Class Z Shares is reserved to the Investment Manager, its employees and their relatives and requires the prior approval of the Board of Directors of the Fund.

The Fund's financial year begins on 1 January and ends on 31 December of the same year.

Copies of the agreements, the Articles of Incorporation of the Fund, the current Prospectus, the Key Investor Information Document (KIID), the schedule of each investment portfolio activity for the year, and the latest financial reports may be obtained free of charge during normal office hours at the registered office of the Fund in Luxembourg.

### **GLOBAL EXPOSURE (unaudited)**

As part of this risk management process, the global exposure of each Sub-Fund of the Fund is measured and controlled using the Commitment approach.

## REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Following our appointment by the annual general meeting of the Shareholders dated 11 May 2016, we have audited the accompanying financial statements of CompAM FUND (the "Fund") and of each of its sub-funds, which comprise the Statement of Net Assets and the Portfolio as at 31 December 2016 and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

### *Responsibility of the Board of Directors of the Fund for the financial statements*

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Responsibility of the Réviseur d'Entreprises Agréé*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the *Réviseur d'Entreprises Agréé's* judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the *Réviseur d'Entreprises Agréé* considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the Fund, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements give a true and fair view of the financial position of CompAM FUND and of each of its sub-funds as of 31 December 2016, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

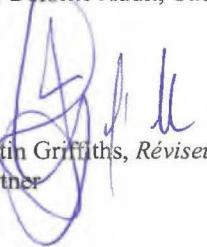

#### *Other information*

The Board of Directors of the CompAM FUND is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of *Réviseur d'Entreprises Agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

For Deloitte Audit, *Cabinet de Révision Agréé*

  
Justin Griffiths, *Réviseur d'Entreprises Agréé*  
Partner

## Report of the Board of Directors 2016

Year 2016 was characterized by a very negative start with most risky asset classes recording their lows during the first quarter. Since then, equity markets recovered the lost ground and closed the year in positive territory. This recovery was more pronounced in the final months of the year after the US elections at the beginning of November. 2016 will be remembered as a year full of political results against the odds and experts' predictions. Donald Trump's election was not the only event that took the market by surprise. We also had Brexit in June. However, what really took investors off-guard were the market reactions after these events materialized. Both seen as major disruptions and negative for equity returns, both translated in rallies with cyclicals outperforming the defensive sectors. Even the referendum in Italy in December proved to be a double-edged sword for investors. This time the results were in line with the polls but the reaction that followed left many investors shocked with financials performing extremely well notwithstanding an increased political instability in the country and a European widespread negative sentiment towards the Union and the single currency. These events, coupled with violent rotations, made the life of active investors very difficult. This year, passive instruments got, once again, the lion share of investment flows. The S&P ended the year with an impressive +11.95%. Europe and Japan, off by a wide margin at the beginning of the year, recovered all the lost ground and closed in the black: the DJ Stoxx600 +2.30% YTD and the Nikkei 225 +2.35% YTD. MSCI Emerging Markets consolidated the good 1H and then traded sideways. Despite this, it is recording one of the best years in recent times with +11.27% YTD in USD. In Emerging Markets (EM) land we had remarkable results from two of the most problematic areas in 2015: Russia and Brazil.

It was an eventful year in fixed income too. Central Banks in Europe and Japan continued their quantitative easing while the Fed proved more dovish than expected at the beginning of the year with only a 25 basis points increase in December. This environment pushed yields to historical lows during the summer. This pressure on yields mitigated towards the year end thanks also to a more benign outlook for growth and inflation in developed markets. Performance wise, we had stellar results in fixed income too. Admittedly, most of the performance was concentrated in the first half of the year. However, the end of the year numbers are solid with the Barclays Global Agg Corp in EUR at +4.59% YTD, the Bofa ML Euro High Yield at +9.07% YTD and an impressive result from US HY credits with Bofa ML US Corp HY at +17.13%. We observed a similar trend in EM fixed income with the Bofa ML USD EM Sov Plus at +9.48% and the Bofa ML USD EM Corp Bond at +9.56%. The movement in the bond indices in 2016 somewhat reflected the widening of the fixed income benchmarks since mid-summer. The 10 year Treasury ended the year at a yield of 2.445% (monthly low of a yield of 1.454% in July) while the 10y Bund closed at 0.208% (monthly low of -0.13% in June).

After a weak 2015, commodities rebounded. The Bloomberg Commodity Index gained 11.40%, helped by its main component, Oil, which was +8.81% in the year. In spite of a weaker second half, Gold had a decent year too with a performance of +8.56% in USD.

Within this context, we managed to deliver inline and satisfactory returns within the asset classes of reference of each Sub-Fund.

During the year two new Sub-Fund were launched: CompAM Fund-SB Convex in September and CompAM Fund-Flexible Bond (previously CompAM Fund-Multimanager Dynamic Selection) in November, while CompAM Fund-Active Liquid Bond changed its name in CompAM Fund-Active Liquid

## Active Conservative Bond

The Active Conservative Bond Sub-Fund invests in bonds or fixed income transferable securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB).

The Sub-Fund will invest at least 50% of its assets in government or supranational bonds or AAA rated bonds and no more than 15% in non-investment grade or bonds without a rating.

With a recommended investment time horizon of 1 to 2Y, the purpose of the Sub-Fund is to achieve average yearly returns in line with Euro money market rates.

Since the above strategy started to be implemented in October 2016, the Sub-Fund's Class M Share lost 0.42%.

This negative return is entirely attributable to the mostly prevailing negative yields among short term dated government and highly rated corporate bonds in Europe.

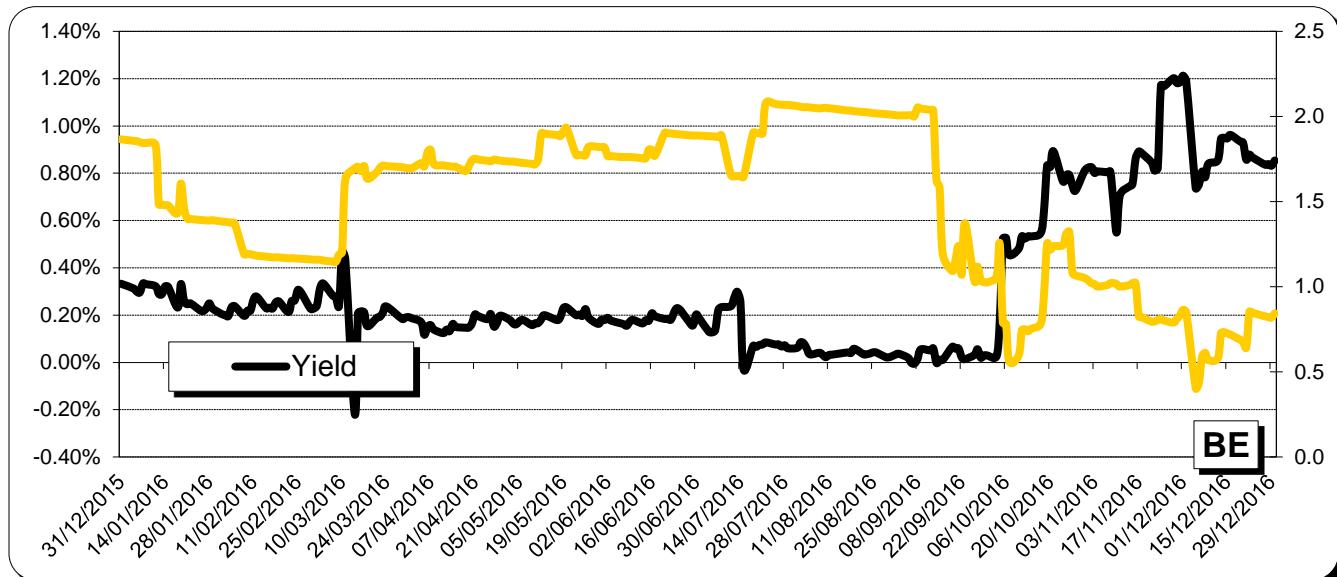

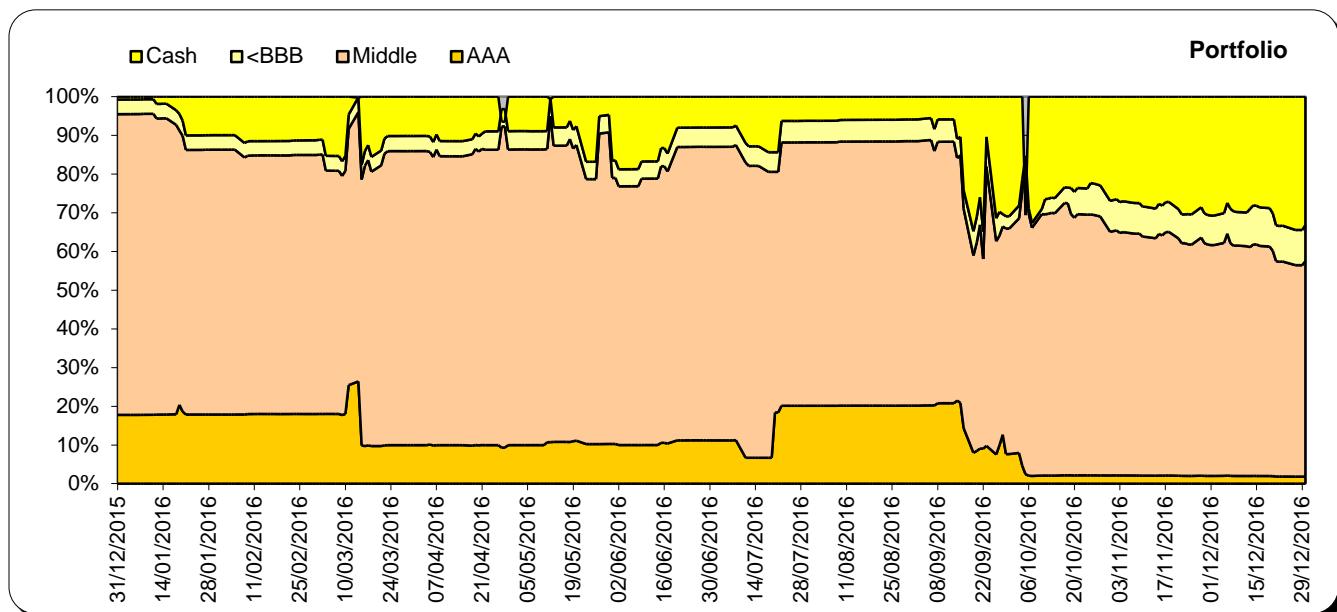

The first chart below, drawn from data gathered by Compass Asset Management S.A., shows the portfolio composition during the year between the various types of investments (Cash, AAA, Investment Grade Credits, Sub Investment Grade Credits).

# CompAM Fund

Société d'Investissement à Capital Variable  
49, Avenue J.F. Kennedy  
L-1855 Luxembourg

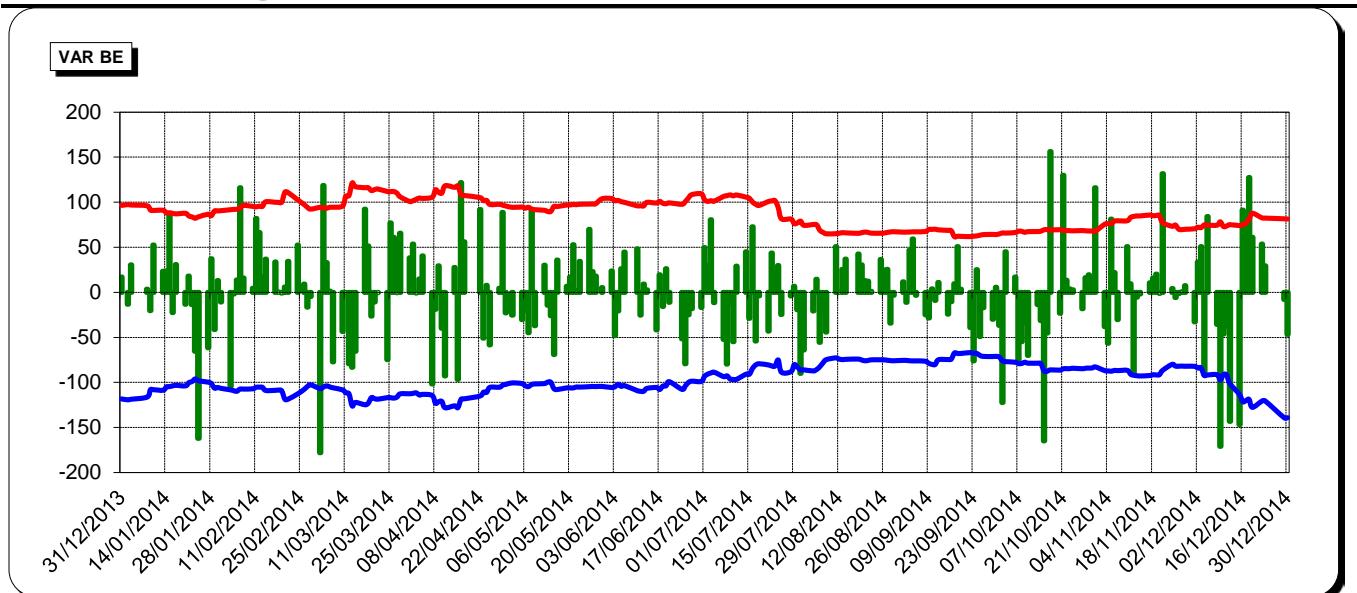

The second chart shows the evolution of the portfolio average Duration and Yield to Maturity (net of hedging costs) during 2016.

The third chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

## CompAM Fund

Société d'Investissement à Capital Variable  
49, Avenue J.F. Kennedy  
L-1855 Luxembourg

## Active European Credit

The Active European Credit Sub-Fund is an unconstrained and concentrated portfolio, investing primarily in European High yield securities and targeting higher net returns to investors with respect to the Conservative Bond Sub-Fund, albeit with a longer time horizon and higher volatility of returns.

In year 2016 the Sub-Fund Class M Share gained 3.98%.

Central Banks in Europe and Japan continued their quantitative easing while the Federal Reserve (Fed) proved more dovish than expected at the beginning of the year with only a 25 basis points increase in December. This environment pushed yields to historical lows during the summer. This pressure on yields mitigated towards the year end thanks also to a more benign outlook for growth and inflation in developed markets. Performance wise it was a very good year for fixed income markets. Admittedly, most of the performance was concentrated in the first half of the year. However, the end of the year numbers are solid with the Barclays Global Agg Corp in EUR at +4.59% YTD, the Bofa ML Euro High Yield at +9.07% YTD. The movement in the bond indices in the latter part of 2016 somewhat reflected the widening of the fixed income benchmarks since mid-summer. The 10 year Treasury ended the year at a yield of 2.445% (monthly low of a yield of 1.454% in July) while the 10y Bund closed at 0.208% (monthly low of -0.13% in June).

Against this backdrop, the Sub-fund posted a solid positive performance even though it did not match the performance of the HE00 index. The underperformance compared to HY indexes is entirely due to the prudent approach we had throughout the year. Almost half of the Sub-fund assets were kept in cash and cash equivalent securities and only the balance was deployed towards credits where we thought there was a good combination of risks and rewards. This barbell approach to credit risk rewarded the Sub-fund with stable and growing returns during the year.

## Active Emerging Credit

Active Emerging Credit Sub-Fund is an unconstrained and well diversified portfolio which invests primarily in fixed income securities issued by corporate based and operating in emerging economies. The Sub-Fund can also invest in emerging market government bonds, as local currency government and corporate bonds and local currency denominated supranational (such us World Bank and European Investment Bank) issues.

In year 2016 the Sub-Fund Class M Share gained 8.23%.

Central Banks in Europe and Japan continued their quantitative easing while the Fed proved more dovish than expected at the beginning of the year with only a 25 basis points increase in December. This environment pushed yields to historical lows during the summer. This pressure on yields mitigated towards the year end thanks also to a more benign outlook for growth and inflation in developed markets. Performance wise it was a very good year for fixed income markets. Admittedly, most of the performance was concentrated in the first half of the year. However, the end of the year numbers are solid with the Barclays Global Agg Corp in EUR at +4.59% YTD, the Bofa ML Euro High Yield at +9.07% YTD and an impressive result from US HY credits with Bofa ML US Corp HY at +17.13%. We observed a similar trend in EM fixed income with the Bofa ML USD EM Sov Plus at +9.48% and the Bofa ML USD EM Corp Bond at +9.56%. The movement in the bond indices in the last quarter of 2016 somewhat reflected the widening of the fixed income benchmarks since mid-summer. The 10 year Treasury ended the year at 2.445 (monthly low of 1.454 in July) while the 10y Bund closed at 0.208% (monthly low of -0.13% in June).

Against this benevolent backdrop, the Sub-fund managed to slightly outperform Bofa ML USD EM Corp Bond Index when fully hedged back into EUR. This good performance was mainly achieved thanks to a heavy exposure towards Latin American credits, mainly Argentina Brazil and Mexico.

The first chart below, drawn from data gathered by Compass Asset Management S.A., shows the portfolio composition during the year between the various types of investments (Cash, AAA, Investment Grade Credits, Sub-Investment Grade Credits).

The second chart shows the evolution of the portfolio average Duration and Yield to Maturity (net of hedging costs) during 2016.

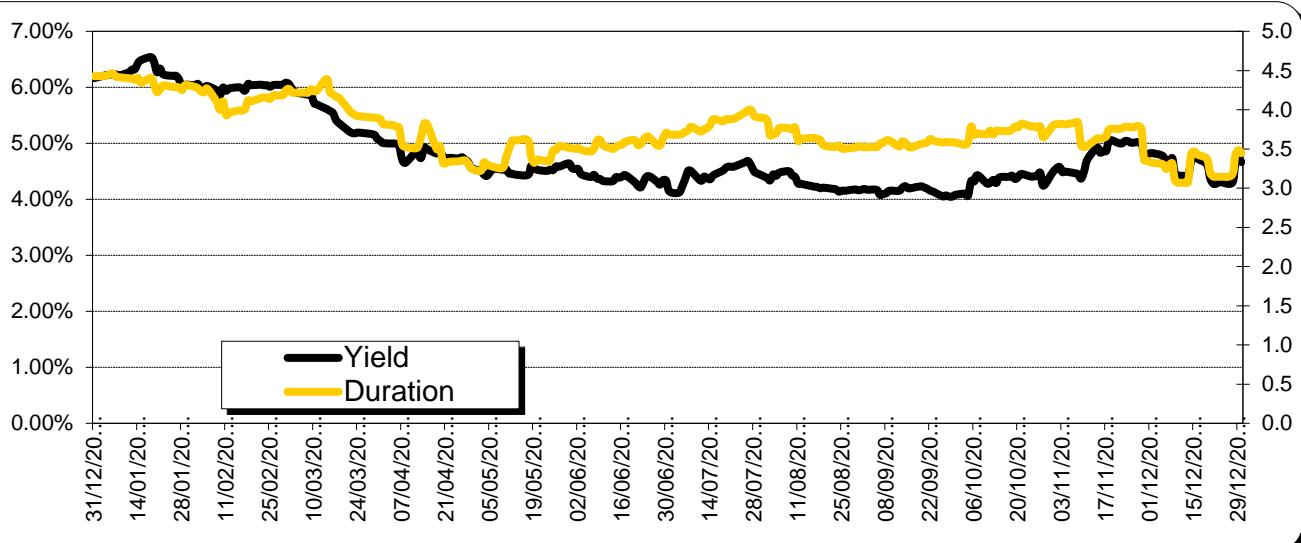

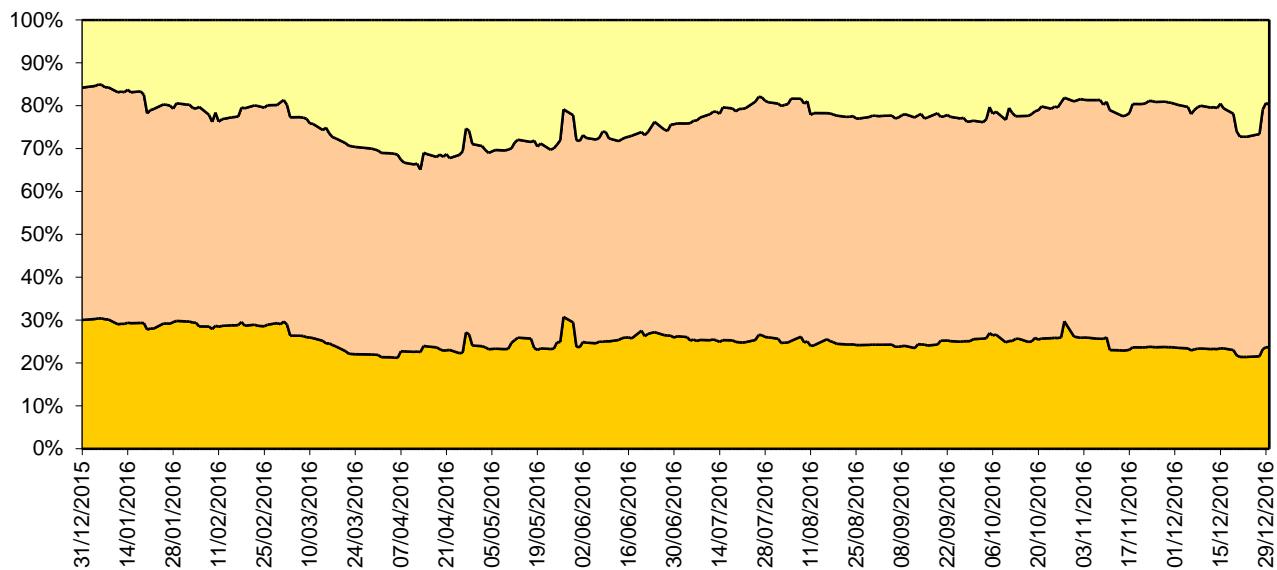

The third chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

# Active European Equity

The Active European Equity Sub-Fund invests primarily in equities listed or issued in the European Union with a bottom-up approach to stock selection and a portfolio risk management carried out with a discretionary hedging. The purpose of this Sub-Fund is to achieve returns similar to the long run returns available in the equity markets, with reasonable volatility and a limited drawdown risk. A portfolio of carefully selected Equities can be partially hedged with futures and options on equity indexes.

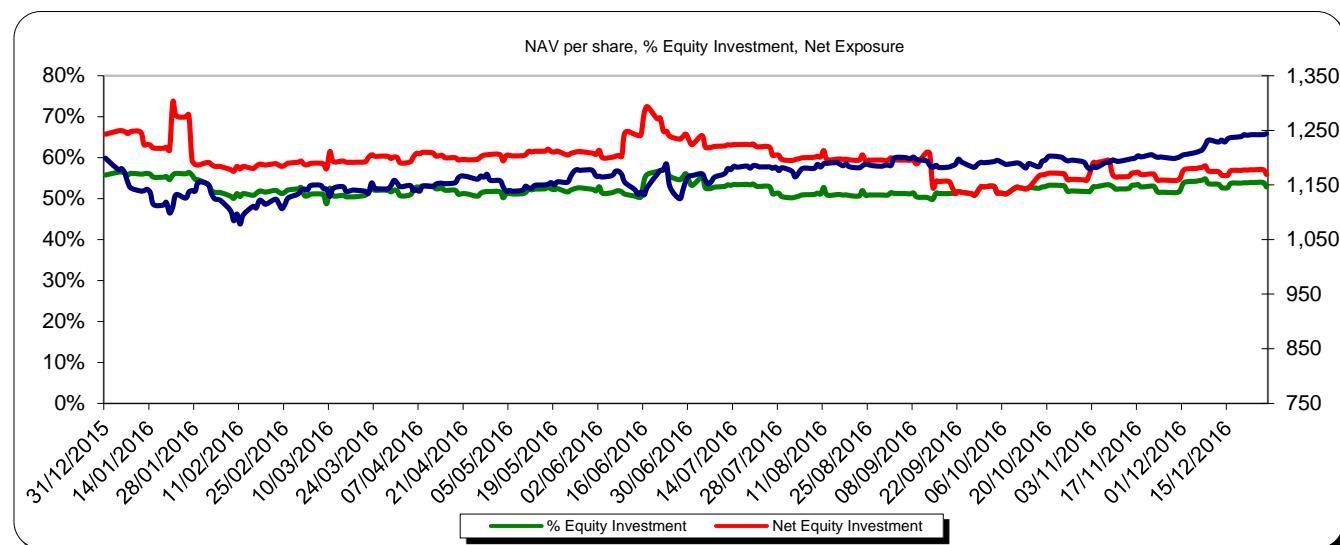

In 2016 the Sub-Fund's Class M Share delivered a net return of 3.58%.

Since the beginning of the year, assets under management increased by 14.51% reaching a total Net Asset Value equal to 34.95mln Eur at the end of 2016.

The Sub-Fund has been actively managed throughout the year. We started the year with a conservative exposure. We maintained this conservative stance through the several political events that characterized the year just passed. Our stock selection proved of value in a year where active investors struggled producing decent returns. After the rally in the final months equity indices in Europe finished in the black. We lost some of the outperformance accumulated until the summer months but managed to close the year with a satisfactory return for investors and volatility under control. We hope investors appreciate our efforts and commitment to deliver consistent risk adjusted returns. Getting a reasonable share of market upside while being focused on reducing the impact of potential negative moves still remains our main goal going into 2017.

The first chart below, drawn from data gathered by Compass Asset Management S.A., shows the portfolio net exposure during the year.

The second chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

## **Active Equity Selection**

The Active Equity Selection Sub-Fund invests primarily in financial derivatives and a concentrated number of equities listed or issued in the European Union with a bottom-up approach to stock selection.

The Active Equity Selection Sub-Fund will seek to have an exposure to the above mentioned European equities or equity-related securities that will range between 75% and 100% of its net assets by using mainly, although not exclusively, financial derivative instruments. Financial derivatives instruments used for such purposes will mainly, but not exclusively, consist of futures on Eurostoxx 50, futures on Eurostoxx 600, ETFs replicating the performance of Eurostoxx 50 and Eurostoxx 600. The Sub-Fund does not hedge currency risk for equities denominated in currencies other than the Euro

In 2016 the Sub-Fund's Class M Share delivered a net return of 4.74%. It was the first full year with the current investment strategy. The Sub-Fund outperformed its benchmark, the EURO STOXX 50 Net Return EUR, by 102 basis points.

Since the beginning the year, assets under management declined by -23.41% reaching a total Net Asset Value equal to 18.25mln Eur at the end of 2016.

## **Active Market Neutral**

2016 was the first full-year of activity for our market neutral strategy. The Active Market Neutral Sub-Fund invests primarily in equities listed or issued in the European Union actively managing directional exposure to the equity market via portfolio risk management techniques carried out with discretionary hedging. The purpose of this Sub-Fund is to achieve returns similar to the long run returns available in the equity markets, with reasonable volatility and a limited drawdown risk.

During the year the Sub-Fund delivered -4.71% (Class M Share) in an environment that proved to be challenging for active investors, especially long/short and market neutral strategies across the developed markets.

Assets under management at the end of 2016 stood at 20.82mln EUR.

## **Active Dollar Bond**

The portfolio, denominated in dollars, has been invested mainly in corporate bonds, predominantly in emerging markets and in European high yield.

In year 2016 the Sub-Fund Class M Share gained 9.12%.

Central Banks in Europe and Japan continued their quantitative easing while the Fed proved more dovish than expected at the beginning of the year with only a 25 basis points increase in December. This environment pushed yields to historical lows during the summer. This pressure on yields mitigated towards the year end thanks also to a more benign outlook for growth and inflation in developed markets. Performance wise it was a very good year for fixed income markets. Admittedly, most of the performance was concentrated in the first half of the year. However, the end of the year numbers are solid with the Barclays Global Agg Corp in EUR at +4.59% YTD, the Bofa ML Euro High Yield at +9.07% YTD and an impressive result from US HY credits with Bofa ML US Corp HY at +17.13%. We observed a similar trend in EM fixed income with the Bofa ML USD EM Sov Plus at +9.48% and the Bofa ML USD EM

## **CompAM Fund**

*Société d'Investissement à Capital Variable*  
49, Avenue J.F. Kennedy  
L-1855 Luxembourg

---

Corp Bond at +9.56%. The movement in the bond indices in the last quarter of 2016 somewhat reflected the widening of the fixed income benchmarks since mid-summer. The 10 year Treasury ended the year at 2.445 (monthly low of 1.454 in July) while the 10y Bund closed at 0.208% (monthly low of -0.13% in June).

The Sub-fund good performance was mainly achieved thanks to a selective exposure to Emerging sovereign and corporate bonds and to a restricted number of European financial and corporate issues.

## **Active Bond Plus**

The Active Bond Plus Sub-Fund mainly invests (directly or indirectly) in debt securities of any country of issuance even low rated and invests up to 20% of its net assets in listed equities worldwide. The Sub-Fund may also use, for the purpose of efficient portfolio management and proxy hedging, currency forwards and options, as well as listed futures (and related options) on government bonds, equities, interest rates and currencies.

In year 2016 the Sub-Fund Class I Share gained 3.11%.

The bond portion of the Sub-Fund contributed approximately 80% to the 2016 performance, while the equity portion of it delivered the remaining 20%.

## **Active Liquid Strategy**

The Sub-Fund aims to seek a consistent absolute return while placing emphasis on the preservation of capital in the medium term.

The allocation of the portfolio between the different asset classes (equities, convertible bonds, other corporate bonds, government bonds and money market instruments) may vary according to the Investment Manager's expectations.

Furthermore the Sub-Fund may make considerable use of derivative financial instruments (derivatives), for hedging purposes, in the interests of efficient portfolio management and as an active investment in securities and money market instruments and for currency hedging purposes. The range of possible derivatives includes both exchange-traded and OTC instruments and in particular call and put options, futures, forwards, warrants, contracts for difference and swaps (such as total return swaps, credit default swaps, credit spread swaps, interest-rate swaps, index swaps ) on securities, interest rates and currencies as well as on other derivative financial instruments and financial indices.

The Sub-Fund's total risk exposure (including the risk exposure through using financial derivatives) amounts to a maximum of 200%.

The Sub-Fund will seek to have an exposure to equities up to 105%

The Sub-Fund started to implement the above mentioned strategy in October 2016 and has achieved a return of 5.34%, for the Class M Share, in the last four months of the year.

## **CompAM Fund**

*Société d'Investissement à Capital Variable*  
49, Avenue J.F. Kennedy  
L-1855 Luxembourg

---

## **Conservative Portfolio**

The Conservative Portfolio Sub-Fund has been launched in July 2008 targeting the investment of the majority of the portfolio into absolute return funds and other similar eligible assets according to the UCIT regulations. During 2016 the Sub-Fund was repositioned with a different investment strategy, aiming to deliver a single fund solution for investors looking for a conservative allocation.

Under the new investment strategy the portfolio allocation entails on average across time a 20% investment in equities, 20% in alternative strategies, 40% in cash or highly safe bond investments and the balance in European or Emerging credits. Currency diversification away from EURO is targeted at 15%.

The results of 2016, the first full year for the Sub-Fund under the new strategy, were disappointing (-2.63% for the Class M Share) as in order to protect the downside of the portfolio the equity portion of the portfolio was hedged throughout the year, the alternative component was a large detractor to performance (it has been sizably reduced during the year), highly safe bonds have negative yields and the credit component of the portfolio was too small to offset all this.

Asset Under Management (AUM) declined to 11.2 million Euro as of year end.

## **Balanced Portfolio**

The Balanced Porfolio Sub-Fund (formerly Multimanager Balanced) has been launched in July 2008 for the benefit of the investors who want a balanced profile, with a manager diversification in one single fund. 2016 was a disappointing year for the Sub-Fund that closed with -1.57% performance (Class M Share). The alternative component of the portfolio was a sizable detractor to the Sub-Fund's performance and has been sizably reduced during the year. Hedging of the equity component also detracted from performance and currency allocation did not contribute much, having the US dollar exposure been cut too early. AUM at year end stood at 32.5 million Euro.

## **Global Equity Portfolio**

The Global Equity Portfolio Sub-Fund has been launched in April 2014 to invest in a selection of Long Only Equity Managers and ETFs targeting an exposure centered around 85% to the world equity markets. The objective is to keep the USD exposure somewhere in between the local currency exposure and the hedged exposure, which will result in the fund trailing the MSCI World in Euro terms when the USD appreciates relative to the Euro and vice versa.

During 2016 the Sub-Fund delivered a net performance of -3.49% (Class M Shares) simply disastrous when compared to the MSCI World in local currency (11.68% total return) and in Euro terms (13.88% total return). The portfolio manager's view that equity markets were too expensive to further increase in the context of rising geopolitical uncertainty was clearly wrong, notably with regards to US equities that were used as hedging instrument almost all year. Notably this massive underperformance happened all in the second half of the year: up until end of June the strategy had delivered returns in line with the MSCI World index, but with much smaller drawdowns (notably up until end of February and with Brexit). AUM stood at 40.5 million Euro as of year end.

## **CompAM Fund**

*Société d'Investissement à Capital Variable*  
49, Avenue J.F. Kennedy  
L-1855 Luxembourg

---

## **SB Bond**

The SB Bond Sub-Fund mainly invests in debt securities of any country of issuance even low rated and may also invest up to 10% of its net assets in listed equities worldwide. The policy is realized mainly by investments in other UCITS.

In year 2016 the Sub-Fund had a positive performance of 3% (Class I Share).

The Sub-Fund performance was achieved thanks to a blended exposure to both local currency and hard currency denominated emerging market funds, European credits and third parties fixed income funds.

The Investment Manager relies on Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as Investment Adviser for the management of the Sub-Fund.

## **SB Flexible**

The SB Flexible Sub-Fund mainly invests in listed equities worldwide (such assets shall represent, under normal market conditions, between 15% and 60% of the Sub-Fund's net assets) as well as in other eligible assets such as, but not limited to, debt or debt securities, Money Market Instruments and deposits, without any geographical or economic restriction. The policy is realized mainly by investments in other UCITS.

In year 2016 the Sub-Fund returned a positive performance of 1.20% (Class I Share).

The Sub-Fund performance was positively affected by its investments in fixed income. The third party fund component was marginally negative overall. Notwithstanding this, the sub-fund managed to deliver positive returns in an environment that proved challenging for active investors.

The Investment Manager relies on Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as Investment Adviser for the management of this Sub-Fund.

## **SB Equity**

The SB Equity Sub-Fund mainly invests in listed equities worldwide (such assets shall represent, under normal market conditions, between 30% and 100% of the Sub-Fund's net assets) as well as in other eligible assets such as, but not limited to, debt or debt securities, Money Market Instruments and deposits, without any geographical or economic restriction. The policy is realized mainly by investments in other UCITS.

In 2016 the Sub-Fund returned a positive performance of 4.26% (Class I Share).

The Sub-Fund performance was positively affected by substantial holdings in investment funds and ETFs exposed to the equity market in developed markets.

The Investment Manager relies on Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as Investment Adviser for the management of this Sub-Fund.

## **CompAM Fund**

*Société d'Investissement à Capital Variable*  
49, Avenue J.F. Kennedy  
L-1855 Luxembourg

---

## **SB Convex**

The SB Convex Sub-Fund invests its assets in listed equities worldwide, debt securities, money markets instruments and deposits. Moreover the Sub-Fund may invest up to 20% of its net assets in eligible assets with underlying gold such as but not limited thereto physically-backed exchange traded notes, physically-backed exchange traded commodity.

The Sub-fund was launched in October 2016 and in the last four months of the year has achieved a negative return of -7.24% for Class I Share. The negative performance is entirely attributable to its investment in eligible assets with underlying gold, due the very poor performance of the commodity in the last quarter of the year.

The Investment Manager relies on Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as Investment Adviser for the management of this Sub-Fund.

## **Equity Africa & Middle East**

The Equity Africa & Middle East Sub-Fund will mainly invest directly in companies listed or getting the majority of their revenues from Middle Eastern and African countries. The Sub-Fund may invest up to 35% of its net assets in UCITS and/or other UCIs focused on Middle Eastern and African countries as well as certificates representative of companies listed in Middle Eastern and African countries or getting the majority of their revenues from Middle Eastern and African countries.

The Equity Africa & Middle East Sub-Fund will be able to invest in Middle Eastern and African Transferable Securities, equity related funds, other equity related eligible assets and/or other eligible assets (Debt Securities, Money Market Instruments, Deposits etc.) other than equity or equity related.

In 2016 the Sub-Fund Class M Share lost -3.25%, with negative contributions coming from single stocks positions in African equities.

Notwithstanding the outperformance of relevant indices in the region, assets under management during the year fell -18.87% and the Sub-Fund closed 2016 at 5.46 million Euro.

## **Global Diversified**

The Sub-Fund invests a percentage between 20% and 100% of its assets in debt securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB) of any country of issuance even Emerging Markets, even low and not rated. More specifically, the Global Diversified Sub-Fund may invest up to 10% of its assets in not rated bonds. The investment of the Global Diversified Sub-Fund in not rated together with low rated bonds will in no case exceed 30% of its assets. In addition the Global Diversified Sub-Fund may invest up to 40% in UCITS and/or other UCIs. The Global Diversified Sub-Fund may also invest up to 50% of its net assets in listed equities or equities related securities worldwide (such as certificates representative of equities or equity indices). The Global Diversified Sub-Fund may, on an exceptional and temporary basis hold up to 100% of its assets in cash and cash equivalents.

In the year 2016 the Sub-Fund returned a negative performance of -2.154% for the Class M Share.

## **CompAM Fund**

*Société d'Investissement à Capital Variable*  
49, Avenue J.F. Kennedy  
L-1855 Luxembourg

---

During the year, assets under management were stable being at 38.2million Euro at year end.

## **Cadence Strategic Asia**

2016 was the first full year of activity for our strategy dedicated to Asian equities. The Sub-Fund's objective is to target returns in excess of nominal Asian GDP growth (gross domestic product) over the medium to long term. It will do so by investing in a concentrated portfolio of companies capable of sustaining high economic returns and which are undervalued in relation to their future cash generating ability. The Sub-Fund's investment strategy is unconstrained by any benchmark index and is focused on achieving absolute returns over the longer term. The unconstrained and concentrated nature of the Sub-Fund means that over shorter time periods, its returns are likely to diverge meaningfully from the performance of conventional benchmark indices.

In 2016, the Sub-Fund returned a positive performance of 3.96% (Class M Share).

Assets under management at the end of 2016 stood at 47.27million Euro.

The Investment Manager relies on Cadence Investment Partners LPP, Edinburgh, acting as Investment Adviser for the management of this Sub-Fund.

---

## Report of the Board of Directors - Outlook for 2017

In hindsight, 2016 was a year characterized by positive returns for most risky asset classes. However, these positive results might not give a true picture of the challenges active investors had to face. During the year we navigated through several political events and surprising outcomes. These could present themselves again in 2017. The current year has a full political agenda in Europe with elections in Netherlands, France, Germany and probably Italy. In the US, we will witness the evolution of the Trump's administration on relevant topics such as tax reform, deregulation and capital repatriation. At the same time we should have monetary authorities taking divergent paths with the Fed in a hawkish attitude (2-3 rate hikes expected) while the ECB and the Bank of Japan should continue their balance sheet expansion through quantitative easing.

It is worth highlighting that in 2016, Developed Market (DM) corporate earnings once again undershot the analysts expectation at the beginning of the year and that, as a consequence, DM stock indexes performance was mainly attributable to a re-pricing of P/E multiples. For 2017, analysts forecast rising earnings again. These expectations are based on an outlook of mildly rising inflation and lower corporate taxes in the US.

Such a re-pricing did not take place within EM, whose P/E multiples have actually remained stable or marginally declined. This led to a substantial valuation and performance gap between DM and EM equities. The relative cheapness of EM, especially Asia, compared to DM makes us feel more constructive on EM equities for the coming year, especially should the commodities prices stabilize at current levels and the USD strength settles down. Nevertheless, the mounting geopolitical issues make differentiation essential when investing in EM. Concerning DM equities, we feel that, the expensive valuations, especially in US, and political uncertainty in Europe, on one side, and the still ultra accommodative monetary policies, with the notable exception of US, and the lack of investment alternatives, on the other side, will keep the asset class very volatile in 2017.

Turning to fixed income assets, as mentioned, government bonds delivered positive returns and it is therefore difficult to envision similar returns in the coming years, especially when rates are negative at the short end of the European government bond yield curve and the FED kick started an interest rate hike cycle. At the time of writing, deflationary forces at play around the world seem abating. After over 30 years bull market in rates, we feel that in 2017 the risks in fixed income are skewed on the downside. We believe that shortening duration is a valid strategy in the current environment.

As far as credit markets are concerned we are cautious on the European and US high yield market and keep being constructive on the emerging market debt, although selectively, mainly based on valuations, which look decently attractive to us in certain geographic areas, Latam in particular.

While we are looking forward to continue our efforts in 2017, we wish to thank here all the personnel at Compass Asset Management SA, State Street Luxembourg S.C.O, MDO Management Company S.A., Deloitte Audit, Arendt & Medernach and, of course, all the distributors and investors in the Fund for their support and cooperation.

The accompanying notes form an integral part of these financial statements.

**Notes to the financial statements**

**Note 1 - Accounting Policies**

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment ("UCIs") and generally accepted accounting principles.

b) Valuation of securities

- The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.
  - The value of assets dealt in on any Regulated Market is based on the last available price.
  - In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.
  - The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other Regulated Markets is based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures or forward foreign exchange contracts are traded by the Fund; provided that if a futures or forward foreign exchange contracts could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.
  - Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.
  - All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.
  - The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.
- c) Conversion of the acquisition cost of securities in the portfolio

For securities expressed in currencies other than the reference currency of the Sub-Fund, the conversion of the acquisition cost is calculated based on the closing exchange rates of the day of purchase.

**Note 1 - Accounting Policies (continued)**

- d) Net realised profit/(loss) on sale of investments

Net realised profits or losses made on the sales of investments are calculated according to the average cost.

- e) Investment income

A dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes.

Interest income is recorded on an accrual basis.

- f) Conversion of foreign currencies

Cash at banks, other net assets and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing as at 31 December 2016. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of Operations and Changes in Net Assets.

- g) Combined financial statements

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of Net Assets is presented in euros ("EUR").

The combined statements correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at 31 December 2016. The differences of exchange rates between 31/12/2015 and 31/12/2016 are recorded in Statement of Operations and Changes in Net Assets under « Conversion difference ».

The exchange rate prevailing as at 31 December 2016 is the following:

1 EUR = 1.071995 CHF  
1 EUR = 0.853599 GBP  
1 EUR = 1.054750 USD

The Sub-Funds CompAM FUND - SB Bond, CompAM FUND - Conservative Portfolio, CompAM FUND - Global Equity Portfolio and CompAM FUND - Balanced Portfolio held investments in various sub-funds of CompAM Fund at year-end.

As at 31 December 2016, the total of cross sub-fund investments amounted to EUR 30 780 418,60 and therefore the combined net asset value at the level of the SICAV at year-end without cross-investments would amount to EUR 498 899 941,26.

**Note 1 - Accounting Policies (continued)**

h) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contract. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on forward foreign exchange contracts are recorded in the Statement of Operations and Changes in Net Assets. The unrealised profit/loss are recorded in the Statement of Net Assets.

i) Future contracts

Future contracts are valued at their last known traded price on the stock exchanges or regulated markets on which they are traded. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on future contracts are recorded in the Statement of Operations and Changes in Net Assets. The unrealised profit/loss are recorded in the Statement of Net Assets.

j) Contracts for difference (CFD)

In a contract for difference, two parties commit to exchange payments, which replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference are valued at the closing price of the underlying instrument less the financing costs attributable to the relevant contract. When a contract for difference is concluded, the Sub-Fund may be required to deposit an amount ("initial margin") that corresponds to a pre-agreed percentage of the contract price in cash and/or other assets with the broker. The unrealised profit/loss is reported in the Statement of Net Assets. Net realised profit / (loss) and changes in unrealised appreciation / (depreciation) are presented in the Statements of Operations and Changes in Net Assets.

k) Option contracts

Options contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on option contracts are recorded in the Statement of Operations and Changes in Net Assets.

**Note 2 - Investment Management fees**

In remuneration for its services, the Investment Manager is entitled to receive an annual management fee payable monthly and calculated on the average net assets of each Sub-Fund during the relevant month.

Annual rates as at 31 December 2016 are described below:

	Class A shares	Class B shares	Class C shares	Class D shares	Class E shares	Class I shares	Class L shares	Class M shares	Class Q shares

With regards to Sub-Funds investing a substantial proportion of their assets in investment funds, the Investment Manager shall ensure that in respect of the Fund investment in UCITS and/or other UCIs, the total management fee (excluding any performance fee, if any) charged to the Fund and each of the UCITS and/or other UCIs in which it invests, shall not exceed the following percentages of the relevant net assets under management, as per Art. 46(3) of the amended Law of December 17, 2010 relating to Undertakings for Collective Investment:

Sub-Fund	Percentage of the NAV
CompAM FUND - Balanced Portfolio	4,025%
CompAM FUND - Conservative Portfolio	4,250%
CompAM FUND - SB Convex	4,900%
CompAM FUND - SB Equity	5,000%
CompAM FUND - SB Flexible	4,600%
CompAM FUND - SB Bond	4,100%
CompAM FUND - Global Equity Portfolio	4,100%
CompAM FUND - Active Market Neutral	2,500%

A shareholder service fee of up to 0.30% per annum is payable to the Investment Manager in compensation for the services related to addressing shareholders' queries regarding the investment strategy and other information related to the CompAM FUND - Active Liquid Strategy Sub-Fund.

A services agreement in relation to the services provided by the Investment Manager to the CompAM FUND - Active Liquid Strategy Sub-Fund shall be available for inspection at the registered office of the Fund and the Investment Manager during usual business hours.

Total amount of any rebates of the management commissions applied on underlying UCITS or UCI managed by third companies are transferred to the Sub-Fund on a quarterly basis and registered in the Statement of Operations and Changes in Net Assets under the heading "Other income".

With regard to the investments within the same umbrella structure, there is no duplication of management/subscription or repurchase fees.

As a remuneration for its advisory services, the Investment Adviser is paid an investment advisory fee out of the investment management fee received by the Investment Manager.

### Note 3 - Management Company fees

The Management Company is entitled to receive an annual Management Company fee payable quarterly and calculated on the quarterly average Net Assets of the previous quarter as follows:

- 0,07% per year for Total Net Assets up to €250 million;
- 0,06% per year for Total Net Assets between €250 million and €500 million;
- 0,05% per year for Total Net Assets between €500 million and €1 billion;
- 0,04% per year for Total Net Assets above €1 billion.

The Management Company will be entitled to a minimum fee of €120,000 per year.

### Note 4 - Performance fees

The Investment Manager is entitled to receive an annual performance fee, calculated on a daily basis and representing per share the below mentioned rate of the annual performance of the Net Asset Value per share of the relevant Sub-Fund:

Sub-Funds	Share classes
CompAM FUND - Active Emerging Credit	Classes A, B, D, I, M, S and Y: 10% Class Z: none
CompAM FUND - Active European Equity	Classes A, B, M, Q, S and Y: 10% Class Z: none

CompAM FUND - Active Equity Selection	Class A,B, M, Q, S and Y : 20% Class Z: none

**Note 4 - Performance fees (continued)**

Sub-Funds	Share classes
CompAM FUND - Global Equity Portfolio	Class A, B, M, and S: 5% Class Z: none
CompAM FUND - Active Market Neutral	Class A, B, M, S, Q and Y : 10% Class Z: none
CompAM FUND - Flexible Bond	None
CompAM FUND - Cadence Strategic Asia	Class A, B, M and Y : 10% Class I, C, L and Z: none

The detailed calculation method of the performance fee is described in the current Prospectus.

**Note 5 - Subscription Tax (« Taxe d'abonnement »)**

The Fund is governed by Luxembourg Laws.

Pursuant to the 2010 Law, the Fund is subject to an annual subscription tax ("taxe d'abonnement") of 0,05% which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

A reduced tax rate of 0,01% per annum of the net assets is applicable to classes of Shares which are only sold to and held by Institutional Investors as well as to certain Sub-Funds investing exclusively in money market instruments which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

Pursuant to Article 175 (a) of the amended Law of 17 December 2010, the Net Assets invested in Undertakings for Collective Investment already subject to the "taxe d'abonnement" are exempt from this tax.

**Note 6 - Transaction Costs**

For the year ended 31 December 2016, the Fund incurred transaction costs which are included in the acquisition cost (composed of broker fees and stamp duties) relating to purchases or sales of investment securities and/or other eligible assets. Custodian transaction fees are recorded in the Statement of Operations and Changes in Net Assets under the caption "Custodian transaction fees".

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange contracts and other derivative contracts, transaction costs are included in the purchase or sales price and are not separately disclosed.

The transaction costs recorded by the Fund for the financial year from 1 January 2016 until 31 December 2016 amount to the following:

Sub-Fund	Currency	Custodian transaction fees	Brokerage charges	Total transaction costs
CompAM FUND - Active Emerging Credit	EUR	23 679,37	114 792,65	138 472,02
CompAM FUND - Active European Equity	EUR	34 046,30	30 480,51	64 526,81

The counterparty on open positions for contracts for difference is Societe Generale Newedge UK Limited.

**Note 10 - Changes in the securities portfolio**

A copy of the changes in the securities portfolio for the year ended 31 December 2016 is available free of charge at the registered office of the Fund.

**Note 11 - Other expenses**

The caption “Other charges and taxes” is mainly composed of Administration fees, Legal fees, Miscellaneous fees and other professional fees.

**Note 12 - Events occurred during the year**

Following a decision of the Board of Directors of the Fund and approved by the CSSF on 16 August 2016, names of the following Sub-Funds have been amended as follows:

<b>From</b>	<b>To</b>
CompAM FUND - Active Liquid Bond	CompAM FUND - Active Liquid Strategy
CompAM FUND - ML Opportunity	CompAM FUND - Active Conservative Bond
CompAM FUND - Multimanager Dynamic Selection	CompAM FUND - Flexible Bond

Following a decision of the Board of Directors of the Fund on 31 January 2016 and approved by the CSSF, for the year ended 31 December 2016, following Sub-Funds were launched:

<b>Fund Name</b>	<b>Date</b>
CompAM FUND - SB Convex	2 September 2016
CompAM FUND - Flexible Bond	4 November 2016

**Note 13 - Remuneration Policy (unaudited)**

## a) Introduction

MDO Management Company S.A. (hereafter “MDO”) is a management company (hereafter “ManCo”) pursuant to Chapter 15 of the Law dated 17 December 2010 relating to undertakings for collective investment and is also an alternative investment fund manager (hereafter “AIFM”) pursuant to Chapter 2 of the Law dated 12 July 2013 relating to AIFMs.

**Note 13 - Remuneration Policy (unaudited) (continued)****a) Introduction (continued)**

This remuneration policy, in line with the Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 amending 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities, applies to MDO and to its appointed investment managers and advisors (the Delegates) in the context of managing UCITS and alternative investment funds (AIFs) (jointly hereafter referred to as collective investment schemes or “CIS”), and sets out principles applicable to the remunerations of the senior management, all staff members having a material impact on the risk profile of the financial undertakings as well as all staff members carrying out independent control functions.

**b) Background**

This policy aims to:

- ensure that remuneration is in line with the business strategy, objectives, values and interests of MDO and the CIS it manages or the investors of such CIS;
- not encourage risk-taking which is inconsistent with the risk profiles, rules or articles of incorporation or management regulations of the CIS MDO manages;
- ensure consistency with and promotion of sound and effective risk management to avoid excessive risk taking;
- avoid or manage conflicts of interest.

The ESMA guidelines on sound remuneration policies under AIFMD as well as the recital 66 of the CRD IV maintains the principle of proportionality: *“The provisions of this Directive on remuneration should reflect differences between different types of institutions in a proportionate manner, taking into account their size, internal organization and the nature, scope and complexity of their activities. In particular it would not be proportionate to require certain investment firms to comply with all of those principles”.*

**c) Variable elements of remuneration at MDO**

The variable component of remuneration should at all times be reasonable compared to the fixed component of the remuneration. Remunerations to be applied shall always provide for appropriate balance between fixed and variable remuneration elements and should be in line with the business strategy, objective, value and interest of MDO. The maximum limit of the variable component of the remuneration does in principle not exceed 100 % of the annual gross salary of the employee. Exceptions may be possible for employees subject to the approval of the Remuneration Committee.

The total amount of remuneration is based on a combination of the assessment of the performance of the individual, the business unit concerned and the overall results of MDO.

MDO may perform an “ex-post risk adjustment” of the variable remuneration, in presence of certain factors (such as for example but not limited to, evidence of misbehavior or serious error by the person in scope; significant downturn in the financial performance or a significant failure of risk management in MDO or in its relevant business unit;

**Note 13 - Remuneration Policy (unaudited) (continued)**

c) Variable elements of remuneration at MDO (continued)

significant change in MDO's financial situation and in general when the bonuses have been based on fraudulent data) which may lead to the reimbursement (clawback) or the total or partial cancellation (malus) of bonuses awarded to the person in scope.

Bonus shall not be offered if they cause conflicts of interest, specifically regarding the ability of MDO to have sound risk management and clients' and investors 'protection principles in place.

d) Appointed portfolio managers of AIFs and investment managers of UCITS

Any appointed portfolio manager and investment manager (if and to the extent required by applicable laws and regulations), must demonstrate that he/she is subject by law to an equivalent remuneration policy as defined either (i) in Annex II of the EU Directive 2011/61/EU on Alternative Investment Fund Managers for portfolio managers of AIFs or (ii) in article 1 (1) of the EU Directive 2014/91/EU.

If an appointed portfolio manager or investment manager is not subject by law to an equivalent remuneration policy, the Executive Committee will assess the remuneration policy and make proposals to align the remuneration policies with the relevant regulations, guidelines and other applicable laws and regulations.

e) MDO Remuneration Committee

The Remuneration Committee is a standing committee of the Board of MDO. The purpose of the Remuneration Committee is to exercise competent and independent judgment on the remuneration policy and practices and the incentives created for managing risk, capital and liquidity. When preparing such decisions, the Remuneration Committee shall take into account:

- the long-term interests of MDO's investors;
- applicable legal requirements, in particular the AIFMD Delegation Regulation (EU) 231/2013, the Regulation (EU) 575/2013 on prudential requirements for credit institutions and investment firms (CRR) and the EU Directive 2013/36/EU;
- ESMA guidelines on sound remuneration policies under AIFMD and UCITS (Consultation Paper "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" 2015/ESMA/1172);
- ESMA guidelines on remuneration policies and practices (MiFID).

The final decisions are taken by the Board of MDO. The Chair and the members of the Remuneration Committee shall be members of the management body who do not perform any executive function in MDO.

**Note 13 - Remuneration Policy (unaudited) (continued)**

e) MDO Remuneration Committee (continued)

The following persons have been appointed:

- Géry Daeninck, Chair
- Garry Pieters, member
- John Li, member

The Remuneration Committee shall be responsible for the preparation of decisions regarding remuneration. The decisions are taken by the Board of MDO in its supervisory function. The Remuneration Committee shall in particular:

- develop a remuneration policy and principles that are proportionate to size, internal organisation and the nature, scope and complexity of MDO and its activities, in line with generally accepted market practices;
- define the financial and non-financial criteria, i.e. the parameters to assess the performance of an individual in scope of the remuneration policy;
- perform the performance assessment of the Chief Executive Officer and such individuals whose variable remuneration exceeds 100% of its fixed remuneration;
- assess whether or not variable remuneration is not paid through vehicles or methods that facilitate the avoidance of the principles of this policy;
- assess the efficiency of the remuneration policy and propose changes if and when required.

f) Monitoring and review of the policy

This remuneration policy shall be subject, at least on an annual basis, review by the Remuneration Committee. The Remuneration Committee shall report on the outcome of this review to the board of directors.
