**Notes to the financial statements**

**Note 1 - Accounting Policies**

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment ("UCIs") and generally accepted accounting principles in Luxembourg.

b) Valuation of securities

- The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.

- The value of assets dealt in on any regulated market is based on the last available price.

- In the event that any assets are not listed or dealt in on any stock exchange or on any other regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or other regulated market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.

- The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other regulated markets is based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular future or forward foreign exchange contracts are traded by the Fund; provided that if a future or forward foreign exchange contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.

- Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.

- The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

- The value of any cash on hand or deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true thereof.

- All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.
