The difference between the different classes of ordinary Shares relates to the dividend payment, minimum investment, investment management fee, performance fee and the placing fee which is payable quarterly in arrears to the relevant Placing Agents and the non-base currency and hedging impact.

Certain classes of ordinary Shares may not be offered for subscription by the Fund's Placing Agents in certain countries where the Fund is registered for public distribution. In such case, the investors wishing to subscribe for a class of Shares which is not offered for subscription by the Placing Agent appointed in their country of residence may apply to the Sub-Registrar and Transfer Agent in Luxembourg in order to subscribe for the relevant class of Shares.

The Class C Shares requires the prior approval of the Board of Directors of the Fund.

The Class Q Shares is open to any type of investors, including retail investors, who purchase and sell shares through the ETF plus Market.

The Class Y Shares is reserved to other Sub-Funds of the Fund for cross Sub-Fund Investments.

The Class Z Shares is reserved to the Investment Manager, its employees and their relatives and requires the prior approval of the Board of Directors of the Fund.

The Fund's financial year begins on 1 January and ends on 31 December of the same year.

Copies of the agreements, the Articles of Incorporation of the Fund, the current Prospectus, the Key Investor Information Document, the schedule of each investment portfolio activity for the year, and the latest financial reports may be obtained free of charge during normal office hours at the registered office of the Fund in Luxembourg.

GLOBAL EXPOSURE

As part of this risk management process, the global exposure of each Sub-Fund of the Fund is measured and controlled using the Commitment approach.

Notes to the financial statements

Note 1 - Accounting Policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment ("UCIs") and generally accepted accounting principles.

b) Valuation of securities

- The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.
- The value of assets dealt in on any Regulated Market is based on the last available price.
- In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.
- The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other Regulated Markets is based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures or forward foreign exchange contracts are traded by the Fund; provided that if a futures or forward foreign exchange contracts could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.
- Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.
- All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.
- The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

c) Conversion of the acquisition cost of securities in the portfolio

For securities expressed in currencies other than the reference currency of the Sub-Fund, the conversion of the acquisition cost is calculated based on the closing exchange rates of the day of purchase.

Note 1 - Accounting Policies (continued)

d) Investment income

A dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes.

Interest income is recorded on an accrual basis.

e) Conversion of foreign currencies

Cash at banks, other net assets and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing as at 30 June 2016. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of Operations and Changes in Net Assets.

f) Combined financial statements

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of Net Assets is presented in euros ("EUR").

The combined statements correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at 30 June 2016. The differences of exchange rates are recorded in Statement of Operations and Changes in Net Assets under « Conversion difference ».

The exchange rate prevailing as at 30 June 2016 is the following:

1 EUR = 1.110949 USD US DOLLAR

The Sub-Funds CompAM FUND – Conservative Portfolio, CompAM FUND – Balanced Portfolio and CompAM FUND - SB Bond held investments in various sub-funds of CompAM Funds at period end.

As at 30 June 2016, the total of cross sub-fund investments amounted to EUR 21 547 726,35 and therefore the combined net asset value at the level of the SICAV at period-end without cross-investments would amount to EUR 428 475 296,03.

g) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contract. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on forward foreign exchange contracts are recorded in the Statement of Net Assets and in the Statement of Operations and Changes in Net Assets.

Note 1 - Accounting Policies (continued)

h) Future contracts

Future contracts are valued at their last known traded price on the stock exchanges or regulated markets on which they are traded. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on future contracts are recorded in the Statement of Net Assets and in the Statement of Operations and Changes in Net Assets.

i) Contracts for difference (CFD)

In a contract for difference, two parties commit to exchange payments, which replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference are valued at the closing price of the underlying instrument less the financing costs attributable to the relevant contract. When a contract for difference is concluded, the Sub-Fund may be required to deposit an amount ("initial margin") that corresponds to a pre-agreed percentage of the contract price in cash and/or other assets with the broker. The unrealised profit/loss is reported in the Statement of Net Assets. Realised profit / (loss) and changes in unrealised appreciation / (depreciation) are presented in the Statements of Operations and Changes in Net Assets.

j) Option contracts

Options quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market. Realised and unrealised gain or loss on option contracts are recorded in the statement of changes in net assets.

Note 2 - Investment Management fees

In remuneration for its services, the Investment Manager is entitled to receive an annual management fee payable monthly and calculated on the average net assets of each Sub-Fund during the relevant month.
