General information

CompAM FUND (the "Fund") is an investment company organised as a "Société d'Investissement à Capital Variable" ("SICAV") under the laws of the Grand Duchy of Luxembourg.

The Fund incorporated on 28 February 2003 in Luxembourg for an unlimited period is governed by the amended Luxembourg Law of 10 August 1915 on commercial companies and by the Part I of the amended Law of 17 December 2010 on Undertakings for Collective Investment (the "2010 Law").

The management of the Fund has been delegated to MDO Management Company S.A., a *société anonyme*, incorporated and subject to the laws of the Grand-Duchy of Luxembourg and duly authorized by the CSSF as a management company within the meaning of Chapter 15 of the 2010 Law.

The Articles of Incorporation were published in the "Mémorial" on 4 April 2003, were last modified on 27 February 2004, and published in the "Mémorial" on 27 March 2004.

As at 31 December 2015, the following Sub-Funds are open for subscription:

CompAM FUND

General information (continued)

For each Sub-Fund, the Fund is entitled to issue Shares of different classes, as described in more details in the current Prospectus. For the time being, twenty classes of ordinary Shares are offered by the Fund, i.e. Class A Shares, Class A CHF hedged, Class B CHF hedged, Class D CHF hedged, Class I CHF hedged, Class M CHF hedged, Class Z CHF hedged, Class A USD hedged, Class B USD hedged, Class D USD hedged, Class I USD hedged, Class M USD hedged, Class Z USD hedged, Class B Shares, Class D Shares, Class E Shares, Class I Shares, Class L Shares, Class M Shares, Class S Shares, Class Y Shares, Class Z Shares.

As at 31 December 2015, the classes of Shares offered by the different Sub-Funds are:

CompAM FUND - Active Emerging Credit	Class A, Class B, Class D, Class I, Class M, Class S, Class Y and Class Z
CompAM FUND - Active European Equity	Class A, Class B, Class M, Class Q, Class S, Class Y and Class Z
CompAM FUND - Active Liquid Bond	Class A, Class B, Class D, Class I, Class M, Class Q, Class S CHF hedged, Class Y and Class Z
CompAM FUND - Active European Credit	Class A, Class B, Class D, Class I, Class M, Class S, Class Y and Class Z
CompAM FUND - Active Dollar Bond	Class A, Class B, Class D, Class E, Class I, Class M, Class S, Class Y and Class Z
CompAM FUND - Balanced Portfolio	Class A, Class A CHF hedged, Class B CHF hedged, Class D CHF hedged, Class I CHF hedged, Class M CHF hedged, Class S CHF hedged, Class Z CHF hedged, Class A USD hedged, Class B USD hedged, Class D USD hedged, Class I USD hedged, Class M USD hedged, Class Z USD hedged, Class B, Class D, Class I, Class M, Class Q and Class Z
CompAM FUND - Equity Africa & Middle East	Class A, Class B, Class M and Class Z
CompAM FUND - Conservative Portfolio	Class A, Class B, Class M, Class Q, Class S CHF hedged and Class Z
CompAM FUND - SB Equity	Class A, Class B, Class D, Class I, Class Q and Class M
CompAM FUND - SB Flexible	Class A, Class B, Class D, Class I, Class Q and Class M

CompAM FUND

General information (continued)

CompAM FUND - SB Bond	Class A, Class B, Class D, Class I, Class Q and Class M, Class S
CompAM FUND - Active Bond Plus	Class B and Class I
CompAM FUND - ML Opportunity	Class A, Class B and Class M
CompAM FUND - Global Diversified	Class A, Class B, Class M, Class Q and Class Z
CompAM FUND - Active Equity Selection	Class A, Class B, Class M, Class Q, Class S, Class Y and Class Z
CompAM FUND - Global Equity Portfolio	Class A, Class B, Class M, Class S and Class Z
CompAM FUND - Active Market Neutral	Class A, Class B, Class M, Class Q, Class S, Class Y and Class Z
CompAM FUND - Cadence Strategic Asia	Class A, Class B, Class C, Class I, Class L, Class M, Class Y and Class Z

The difference between the different classes of ordinary Shares relates to the dividend payment, minimum investment, investment management fee, performance fee and the placing fee which is payable quarterly in arrears to the relevant Placing Agents and the non-base currency and hedging impact.

Certain classes of ordinary Shares may not be offered for subscription by the Fund's Placing Agents in certain countries where the Fund is registered for public distribution. In such case, the investors wishing to subscribe for a class of Shares which is not offered for subscription by the Placing Agent appointed in their country of residence may apply to the Sub-Registrar and Transfer Agent in Luxembourg in order to subscribe for the relevant class of Shares.

The Class C Shares requires the prior approval of the Board of Directors of the Fund.

The Class Q Shares is open to any type of investors, including retail investors, who purchase and sell shares through the ETF plus Market.

The Class Y Shares is reserved to other Sub-Funds of the Fund for cross Sub-Fund Investments.

The Class Z Shares is reserved to the Investment Manager, its employees and their relatives and requires the prior approval of the Board of Directors of the Fund.

The Fund's financial year begins on 1 January and ends on 31 December of the same year.

General information (continued)

Copies of the agreements, the Articles of Incorporation of the Fund, the current Prospectus, the Key Investor Information Document, the schedule of each investment portfolio activity for the year, and the latest financial reports may be obtained free of charge during normal office hours at the registered office of the Fund in Luxembourg.

GLOBAL EXPOSURE

As part of this risk management process, the global exposure of each Sub-Fund of the Fund is measured and controlled using the Commitment approach.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Following our appointment by the annual general meeting of the Shareholders dated 13 May 2015, we have audited the accompanying financial statements of CompAM FUND (the "Fund") and of each of its sub-funds, which comprise the Statement of Net Assets and the Portfolio as at 31 December 2015 and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the Fund, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

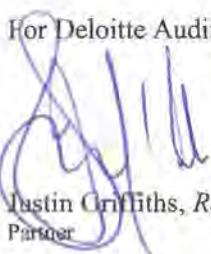

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of CompAM FUND and of each of its sub-funds as of 31 December 2015, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

For Deloitte Audit, *Cabinet de révision agréé*

Justin Griffiths, *Réviseur d'entreprises agréé*
Partner

8 April, 2016

Report of the Board of Directors 2015

Year 2015 was characterized by a very positive first half for financial markets followed by a very volatile and negative second half which, depending on the asset class, has either completely or substantially erased the returns for the year.

Moreover year 2015 has seen a great dispersion of returns among and within different asset classes. Commodities were the asset class which suffered the most: the Bloomberg Commodity Index has lost almost 25%, dragged down by its main component, Oil, which lost 36% in the year. This sharp move in commodities was mainly due to an excess supply rather than a weak demand, and it is therefore different in nature from the previous sharp move in commodities, which happened just after the Lehman bankruptcy in 2008 and which was quickly reversed during 2009. This time around, we will have to wait for a reduction or destruction of supply in order to rebalance the market and to witness at least a partial recovery in commodities prices. Thus we are probably headed for a prolonged period of low commodities prices.

The debacle in commodities has lead to winners and losers and therefore to the big dispersion of returns in financial markets. Broadly speaking, whatever was closer to the producing cycle side of commodities, such as oil and mining companies and their supply chain and the commodities exporting countries was penalized in 2015. The MSCI Emerging Markets, where oil and mining companies represent an important share of the index, lost 16,96% and the FTSE 100, where such companies also have a heavy weight, declined 4,93%. This stands in stark contrast with the returns of equity indexes in countries which are mainly commodities importers: in Europe, the Stoxx 600 index gained 6,79%, in Italy the S&P Mib index did even better delivering a positive 11,96% return while in Japan the NIKKEI 225 gained 9,07%.

As far as fixed income markets are concerned, 2015 was overall an uneventful year. Government bonds in Europe, supported by BCE action which started its own QE at the beginning of the year, rallied, especially in so called “peripheral” countries such as Italy and Spain. Owing a 10 year Bund at a gross yield of 0,63% or a 10 year Italian BTP at a gross yield of 1,6%, their respective closing levels as of the 31st of December, does not look as a particularly exciting investment proposition. Things look a bit better in US, where the FED in December eventually managed to deliver its first rate hike since year 2004. 10 year Treasuries ended the year at 2,27%, substantially unchanged compared to previous year (2,17%) and at least offering a decent gross rate of return.

Turning to credit markets, both the emerging markets and European High Yield, notwithstanding the widening of spreads, managed to post slightly positive returns thanks to their generous carry. The main underperformer was the US High Yield, which was dragged down by its heavy oil component, and ended the year in negative territory.

Index	Performance	Currency	Description

CompAM Fund

Société d'Investissement à Capital Variable
49, Avenue J.F. Kennedy
L-1855 Luxembourg

Two new sub-funds were launched: Active Market Neutral and Cadence Strategic Asia with effective date respectively 5 May 2015 and 17 April 2015.

Active Liquid Bond

The Active Liquid Bond Sub-Fund invests in corporate and government bonds with the constraint of having at least 40% of its net assets in government or AAA bonds, not more than 20% in sub-investment grade or not rated bonds. With a recommended investment time horizon of 1 to 2Y, the purpose of the Sub-Fund is to achieve average yearly returns in excess of Euro money market rates.

During the year 2015 the Sub-Fund's Class M Shares gained 0,02%.

During the year, following the announcement in January by the ECB of the beginning of a QE program involving European sovereign bonds, benchmark government bond yields declined both in core countries and in peripheral ones. The short end of the sovereign yield curve experienced for the first time negative nominal rates throughout the Monetary Union.

2Y Bond yield in Germany decreased by 24 basis points ending the year in negative territory at -0,35%, while 10Y Bond yield moved up by 9 basis points to 0,63%. In US, 2Y Treasury yield climbed for a third consecutive year by 39 basis points, from 0,66% to 1,05%, while the 10Y Treasury yield moved up by 10 basis points, from 2,17% to 2,27%.

Government bonds in peripheral European countries, like Spain and Italy, saw their spread versus Bonds broadly unchanged to 114 and 97 basis points respectively at the end of 2015.

As far as European credit markets are concerned, notwithstanding the widening of spreads, they managed to post slightly positive returns thanks to their generous carry. The HE00 index, a Merrill Lynch index that tracks the performance of a basket of European corporate sub-investment grade issues, gained 0,75%.

Against this backdrop, we held a very prudent approach as, throughout the year, a substantial portion of the portfolio of the Sub-fund was invested in short dated core European sovereign and supranational bonds (German Bubills and EFSF notes), which at year end represented more than 60% of total fund assets.

On the interest rate side, we kept duration below 2 years and as such the Sub-fund was unable to greatly benefit from the descent in benchmark government bond yields.

During the first half of the year we dynamically participated to an effervescent primary market which enabled us to slightly enhance the Sub-fund returns for the year. The Sub-fund also benefitted from a long position on CHF which we took on the forward market against the Euro as a hedge against turbulence in Greece and a widespread rise in geopolitical risks. We closed the position at a profit following the BNS decision to abandon the EUR/CHF 1,2 floor in January 2015.

The first chart below, drawn from data gathered by Compass Asset Management S.A., shows the portfolio composition during the year between the various types of investments (Cash, AAA, Investment Grade Credits, Sub Investment Grade Credits).

The second chart shows the evolution of the portfolio average Duration and Yield to Maturity (net of hedging costs) during 2015.

L-1855 Luxembourg

Active European Credit

The Active European Credit Sub-Fund is an unconstrained and concentrated portfolio, investing primarily in European High yield securities and targeting higher net returns to investors with respect to the Bond Euro Sub-Fund, albeit with a longer time horizon and higher volatility of returns.

During the year 2015, the Sub-Fund's Class M Shares gained 3,38%.

As far as European credit markets are concerned, notwithstanding the widening of spreads, they managed to post slightly positive returns thanks to their generous carry. The HE00 index, a Merrill Lynch index that tracks the performance of a basket of European corporate sub-investment grade issues, gained 0,75%.

The European High Yield market had a slightly positive performance in 2015, as testified by the HE00 index which returned 0,75%. This result was possible only thanks to the carry since the index spread moved back over 500bp mark and left it 25% wider at the end of 2015.

Against this backdrop, the Sub-fund posted a solid positive performance and managed to outperform the HE00 index by over 2,5%. This positive result was a consequence of several factors. First we benefitted from a long position on CHF which we took on the forward market against the Euro as a hedge against turbulence in Greece and a widespread rise in geopolitical risks. We closed the position at a profit following the BNS decision to abandon the EUR/CHF 1,2 floor in January 2015. Secondly our prudent approach throughout the year as well as the credit selection paid off. Lastly, during the first half of the year we kept a very opportunistic attitude towards the primary market, by participating to several new issues and selling them back in the secondary markets few days or few weeks later. Thanks to this trading activity we managed to enhance the Sub-Fund performance.

The first chart below, drawn from data gathered by Compass Asset Management S.A., shows the portfolio composition during the year between the various types of investments (Cash, AAA, Investment Grade Credits, Sub Investment Grade Credits). It can be clearly seen that we have been heavily exposed throughout the year to sub-investment grade bonds.

The second chart shows the evolution of the portfolio average Duration and Yield to Maturity (net of hedging costs) during 2015.

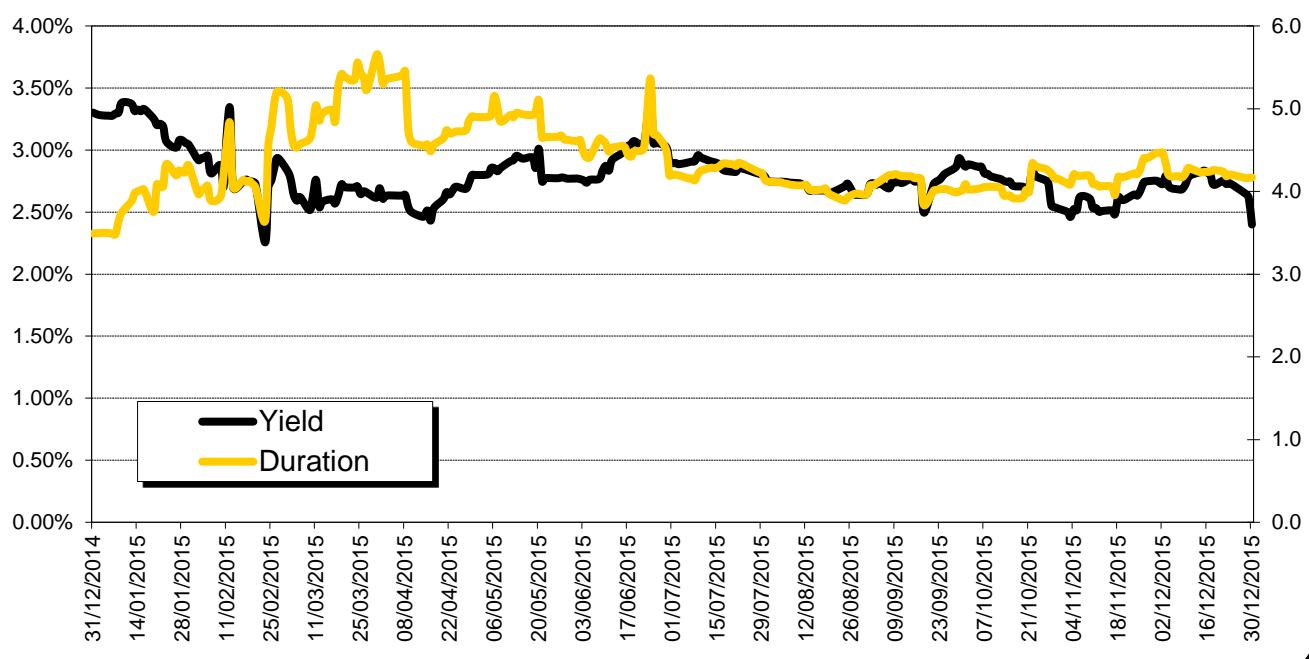

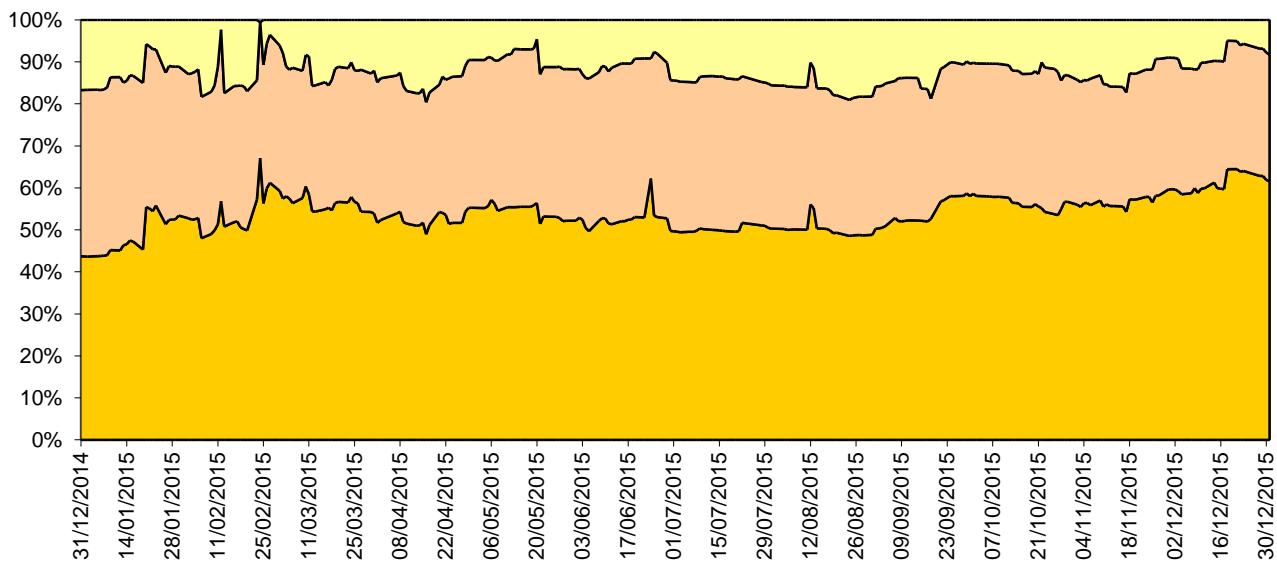

The third chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

Active Emerging Credit

Active Emerging Credit Sub-Fund is an unconstrained and well diversified portfolio which invests primarily in fixed income securities issued by corporate based and operating in emerging economies. The Sub-Fund can also invest in emerging market government bonds, as local currency government and corporate bonds and local currency denominated supranational (such us World Bank and European Investment Bank) issues.

During the year 2015, the Sub-Fund's Class M Shares gained 1,26%.

It was a particularly difficult year for emerging market debt, especially at the corporate level. Brazil was the major underperformer following the political impasse and the unraveling of the Car Wash scandal which affected many Brazilian corporate issuers starting from Petrobras. During the year the EMCB Index (corporate debt) spread to the sovereign widened 28 basis points to 445, while the IGOV Index (sovereign debt) spread widened 74 basis points to 445. Nevertheless both indexes managed to post a positive performance in 2015 returning 1,1% and 0,63% respectively only thanks to the carry.

Against this mixed backdrop, the Sub-fund managed to slightly outperform the above mentioned indexes mainly thanks to a long position on CHF which we took on the forward market against the Euro as a hedge against turbulence in Greece and a widespread rise in geopolitical risks and which we closed at a profit following the BNS decision to abandon the EUR/CHF 1,2 floor in January 2015.

Moreover during the year the Investment Manager kept a very opportunistic attitude towards the primary market, by participating to several new issues and selling them back in the secondary markets few days or few weeks later. With this trading activity the Investment Manager managed to enhance the Sub-Fund performance.

VAR

Active European Equity

The Active European Equity Sub-Fund invests primarily in equities listed or issued in the European Union with a bottom-up approach to stock selection and a portfolio risk management carried out with a discretionary hedging. The purpose of this Sub-Fund is to achieve returns similar to the long run returns available in the equity markets, with reasonable volatility and a limited drawdown risk. A portfolio of carefully selected Equities can be partially hedged with futures and options on equity indexes.

During the year 2015, the Sub-fund's class M Shares delivered a net return of 5,40%.

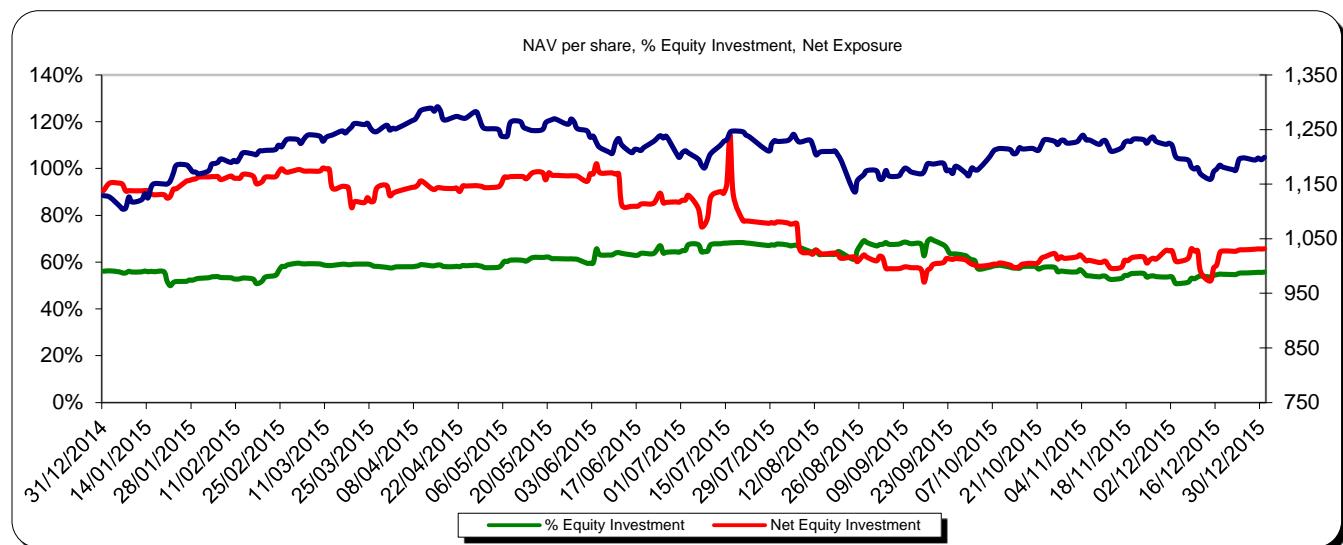

Since the beginning of the year, Assets Under Management (AUM) declined by -3,50% with 30,54 million EUR at the end of 2015.

The Sub-Fund has been actively managed throughout the year. We started the year with a conservative exposure. Then, after the QE announcement by the ECB, we significantly increased the risk exposure. During the summer we started decreasing the market exposure again. After a volatile summer driven by fears of a China hard landing, during the Autumn European markets started a rebound on the hope of a more benign monetary policy from Mario Draghi. However, most of the gains were lost in the final months of the year. We maintained a cautious approach until year end. We hope investors appreciate our efforts and commitment to deliver consistent risk adjusted returns. Getting a reasonable share of market upside while being focused on reducing the impact of potential negative moves still remains our main goal going for the year 2016.

The first chart below, drawn from data gathered by Compass Asset Management SA, shows the portfolio net exposure during the year.

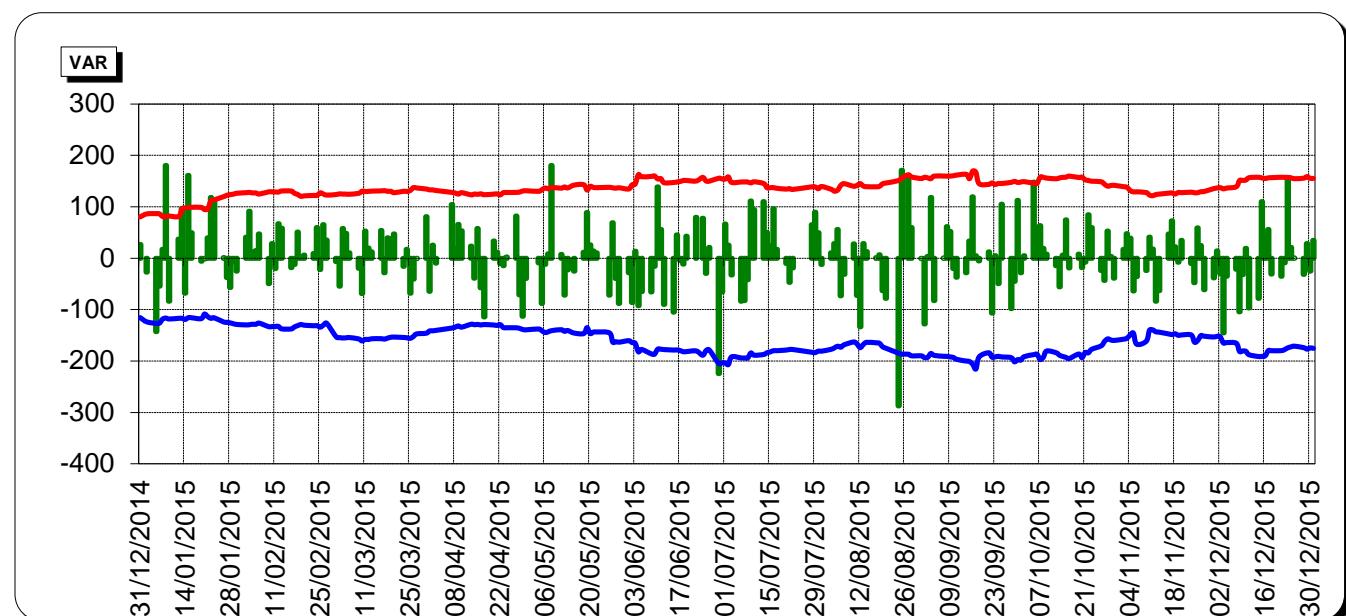

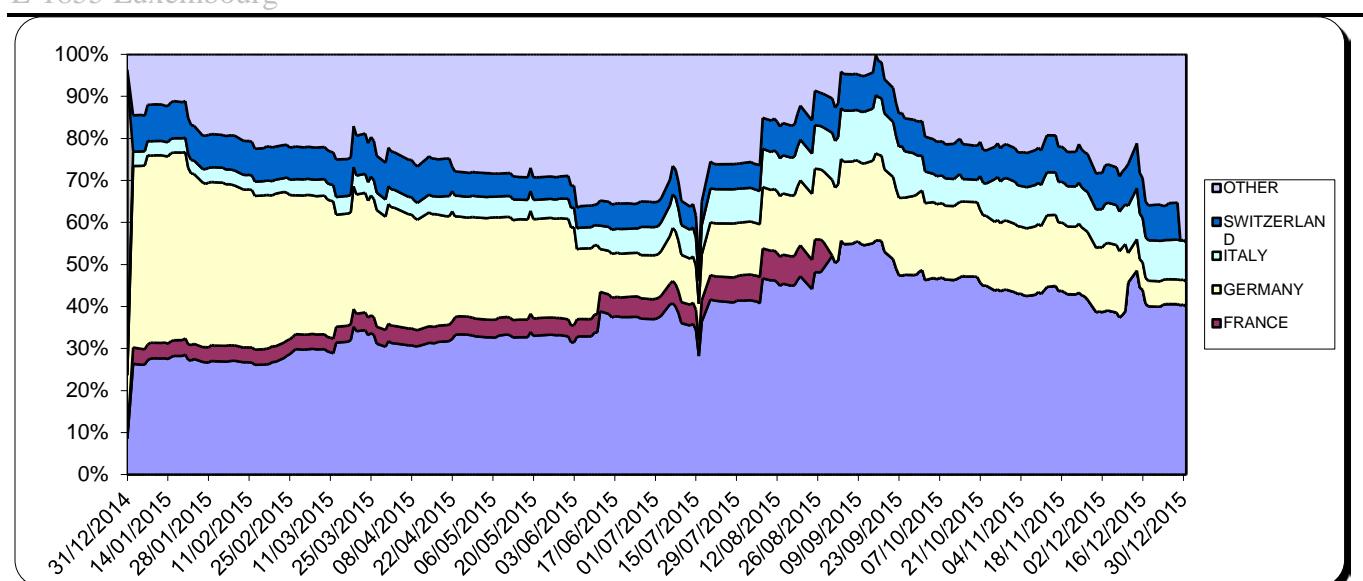

The second chart shows the evolution of the country exposure of the portfolio and the falling weight of Italy and Spain after the first quarter of the year.

Finally, the third chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

Active Equity Selection

The Active Equity Selection Sub-Fund invests primarily in financial derivatives and a concentrated number of equities listed or issued in the European Union with a bottom-up approach to stock selection. The Active Equity Selection Sub-Fund will seek to have an exposure to the above mentioned European equities or equity-related securities that will range between 75% and 100% of its net assets by using mainly, although not exclusively, financial derivative instruments. Financial derivatives instruments used for such purposes will mainly, but not exclusively, consist of futures on Eurostoxx 50, futures on Eurostoxx 600, ETFs replicating the performance of Eurostoxx 50 and Eurostoxx 600. The fund does not hedge currency risk for equities denominated in currencies other than the Euro

During the year 2015, the Sub-fund's Class M Shares delivered a net return of 6.63%.

In September 2015, the Sub-Fund changed its investment strategy. Since then, the Sub-Fund returned 5,01%, outperforming its benchmark, the EURO STOXX 50 Net Return EUR, by 96 basis points. Since the beginning the year, Assets Under Management (AUM) increased by 20,88% with 23,83 million EUR at the end of 2015.

Active Market Neutral

As at May 5, 2015 we launched a new Sub-Fund with a market neutral strategy. The Active Market Neutral Sub-Fund invests primarily in equities listed or issued in the European Union actively managing directional exposure to the equity market via portfolio risk management techniques carried out with discretionary hedging. The purpose of this Sub-Fund is to achieve returns similar to the long run returns available in the equity markets, with reasonable volatility and a limited drawdown risk.

Since inception, the Sub-Fund's Class M Shares delivered a net return of -0,73% with limited volatility thus achieving its result of managing drawdowns in difficult markets (EURO STOXX 50 down -11,11% in the period).

Assets Under Management at the end of 2015 stood at 12,06 million EUR.

Active Dollar Bond

The portfolio, denominated in dollars, has been invested mainly in corporate bonds, predominantly in emerging markets and residually in European high yield.

During the year 2015, the Sub-Fund's Class M Shares lost 1,56%.

The year 2015 proved to be a very tough one for dollar denominated credits following the substantial widening of spreads both in emerging markets and the high yield market. Even though during the year the Investment Manager kept a very opportunistic attitude towards the primary market, by participating to several new issues and selling them back in the secondary markets few days or few weeks later enhancing

CompAM Fund

Société d'Investissement à Capital Variable
49, Avenue J.F. Kennedy
L-1855 Luxembourg

the Sub-Fund returns, this was not enough to prevent the Sub-Fund from posting an overall negative performance in 2015.

The portfolio composition remained mostly unchanged compared to 2014, with most of the Sub-Fund exposure concentrated in BBB and BB emerging market credits and European high yield credits.

Active Bond Plus

The Active Bond Plus Sub-Fund mainly invests (directly or indirectly) in debt securities of any country of issuance even low rated and invests up to 20% of its net assets in listed equities worldwide. The Sub-Fund may also use, for the purpose of efficient portfolio management and proxy hedging, currency forwards and options, as well as listed futures (and related options) on government bonds, equities, interest rates and currencies.

During the year 2015, the Sub-Fund's Class I Shares gained 2,93%.

The bond portion of the Sub-Fund portfolio contributed a positive 50 basis points to the 2015 performance, while the equity portion of it delivered a positive contribution of 540 basis points while expenses detracted 297 basis points.

Conservative Portfolio

The Conservative Portfolio Sub-Fund (formerly Multimanager Target Alpha) has been launched in July 2008 targeting the investment of the majority of the portfolio into absolute return funds and other similar eligible assets according to the UCIT regulations. Notwithstanding a decent track record the Sub-Fund has always had trouble in reaching an efficient size; therefore during 2015 the Sub-Fund was repositioned with a different investment strategy, aiming to deliver a single fund solution for investors looking for a conservative allocation.

Under the new investment strategy the portfolio allocation entails on average across time a 20% investment in equities, 20% in alternative strategies, 40% in cash or highly safe bond investments and the balance in European or Emerging credits. Currency diversification away from EURO is targeted at 15%.

Net return in 2015 was 1,35% (Class M Shares) and AUM rose to 13,8 million as of year end.

Balanced Portfolio

The Balanced Porfolio Sub-Fund (formerly Multimanager Balanced) has been launched in July 2008 for the benefit of the investors who want a balanced profile, with a manager diversification in one single fund.

During the year 2015, the Sub-Fund portfolio has been invested according to a well diversified strategy and generated a return of 3,16% (Class M Shares).

Class Y Share of the single manager Sub-Fund within CompAM Fund are widely used in order to avoid management fee duplication for the market segments covered by other Sub-Funds of CompAM Fund. ETFs and low cost active managers are utilized for the global equity allocation, while a selection of long/short UCITS managers are used to create an alternative bucket in the portfolio.

CompAM Fund

Société d'Investissement à Capital Variable
49, Avenue J.F. Kennedy
L-1855 Luxembourg

In terms of portfolio allocation, roughly 35% was invested in equities, 20% in alternative strategies, 20% in cash or highly safe bond investments and the balance in European or Emerging Credits. Currency exposure was on average 75% EUR and 25% USD. The investment manager plans to keep a similar type of allocation going forward.

Global Equity Portfolio

The Global Equity Portfolio Sub-Fund (formerly Multimanager Global Equity) has been launched in April 2014 to invest in a selection of Long Only Equity Managers and ETFs targeting an exposure centered around 85% to the world equity markets.

The Sub-Fund delivered a net performance of 7,18% in 2015 (Class M Shares) that is satisfactory when compared to the MSCI world in local currency (0,56% total return) and in Euro terms (11,52% total return); as explained last year, the objective is to keep the USD exposure somewhere in between the local currency exposure and the hedged exposure, which will result in the Sub-Fund trailing the MSCI word in Euro terms when the USD appreciates relative to the Euro and vice versa.

By using futures and options the Investment Manager achieved a decent risk reduction during the drawdowns that equity markets suffered in August and September (first half), although this strategy had an overall negative impact during the year.

AUM rose to 45,41 million EUR as of year end.

SB Bond

The SB Bond Sub-Fund mainly invests in debt securities of any country of issuance even low rated and may also invest up to 10% of its net assets in listed equities worldwide. The policy is realized mainly by investments in other UCITS.

During the year 2015, the Sub-Fund's Class I Shares returned a negative performance of -1%.

The Sub-Fund performance was affected by the exposure in emerging currencies denominated debt and by the widening of spreads across all different asset classes in credit.

The Investment Manager avails itself of Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as an Investment Adviser for the management of the Sub-Fund.

SB Flexible

The SB Flexible Sub-Fund mainly invests in listed equities worldwide (such assets shall represent, under normal market conditions, between 25% and 60% of the Sub-Fund's net assets) as well as in other eligible assets such as, but not limited to, debt or debt securities, Money Market Instruments and deposits, without any geographical or economic restriction. The policy is realized mainly by investments in other UCITS.

During the year 2015, the Sub-fund's Class I Shares returned a negative performance of -0,02%.

CompAM Fund

Société d'Investissement à Capital Variable
49, Avenue J.F. Kennedy
L-1855 Luxembourg

The Sub-Fund performance was positively affected by its investments in credit and equity funds. The bond component erased all the above mentioned gains leaving the Sub-Fund performance flat for the year.

The Investment Manager avails itself of Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as an Investment Adviser for the management of the Sub-Fund.

SB Equity

The SB Equity Sub-Fund mainly invests in listed equities worldwide (such assets shall represent, under normal market conditions, between 30% and 100% of the Sub-Fund's net assets) as well as in other eligible assets such as, but not limited to, debt or debt securities, Money Market Instruments and deposits, without any geographical or economic restriction. The policy is realized mainly by investments in other UCITS.

During the year 2015, the Sub-fund's Class I Shares returned a positive performance of 4,28%.

The Sub-Fund performance was positively affected by substantial holdings in investment funds and ETFs exposed to the European and Japanese equity market.

Assets Under Management increased by 28,56% closing the year at 15,57 million EUR.

The Investment Manager avails itself of Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as an Investment Adviser for the management of the Sub-Fund.

ML Opportunity

The ML Opportunity Sub-Fund invests mainly in debt securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB) with no constraint on the rating of the bonds it is investing in and the flexibility to invest up to 50% of its assets in Undertakings for Collective Investment on Transferable Securities ("UCITS") and/or other Undertakings for Collective Investments ("UCIs") with up to 40% of its net assets in listed equities or equities related securities worldwide.

The Sub-Fund's investments in emerging market currencies, bonds and stocks have generated negative contributions that have only in part been offset by exposure to developed market equities, resulting in an overall loss of 3,56% (Class M Shares) also due to the fact that the Sub-Fund failed to attract enough investors to bring it to an efficient size.

Equity Africa & Middle East

The Equity Africa & Middle East Sub-Fund (formerly Multimanager Equity Africa & Middle East) mainly invests directly in companies listed or getting the majority of their revenues from Middle Eastern and African countries. The Sub-Fund may invest up to 30% of its net assets in UCITS and/or other UCIs focused on Middle Eastern and African countries as well as certificates representative of companies listed in Middle Eastern and African countries or getting the majority of their revenues from Middle Eastern and African countries.

CompAM Fund

Société d'Investissement à Capital Variable
49, Avenue J.F. Kennedy
L-1855 Luxembourg

The Equity Africa & Middle East Sub-Fund is able to invest in Middle Eastern and African Transferable Securities, equity related funds, other equity related eligible assets and/or other eligible assets (Debt Securities, Money Market Instruments, Deposits etc.) other than equity or equity related.

During the year 2015 the Sub-Fund's Class M Shares lost -16,55%, with the largest negative contributions coming from an underlying fund and several smaller positions in African equities.

Notwithstanding the negative performance, assets under management during the year were stable and the Sub-Fund closed 2015 at 6,69 million EUR.

Global Diversified

The Sub-Fund invests a percentage between 20% and 100% of its assets in debt securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB) of any country of issuance even Emerging Markets, even low and not rated. More specifically, the Global Diversified Sub-Fund may invest up to 10% of its assets in not rated bonds. The investment of the Global Diversified Sub-Fund in not rated together with low rated bonds will in no case exceed 30% of its assets. In addition the Global Diversified Sub-Fund may invest up to 40% in UCITS and/or other UCIs. The Global Diversified Sub-Fund may also invest up to 50% of its net assets in listed equities or equities related securities worldwide (such as certificates representative of equities or equity indices). The Global Diversified Sub-Fund may, on an exceptional and temporary basis hold up to 100% of its assets in cash and cash equivalents.

During the year 2015, the Sub-Fund returned a positive performance of 8,46% for the Class M Shares.

The major contribution to the Sub-Fund performance comes from exposure to the technology sector in US via ETFs and to single lines in Italian listed equities.

During the year, Assets Under Management almost doubled reaching 39,65 million EUR at year end.

Cadence Strategic Asia

As at 17 April 2015, we launched a new Sub-Fund with exposure to Asian equities. The Sub-Fund's objective is to target returns in excess of nominal Asian GDP growth (gross domestic product) over the medium to long term. It will do so by investing in a concentrated portfolio of companies capable of sustaining high economic returns and which are undervalued in relation to their future cash generating ability. The Sub-Fund's investment strategy will be unconstrained by any benchmark index and it will be focused on achieving absolute returns over the longer term. The unconstrained and concentrated nature of the Sub-Fund means that over shorter time periods, its returns are likely to diverge meaningfully from the performance of conventional benchmark indices.

Since inception, the Sub-Fund returned a negative performance -12,85% (Class M Shares).

Assets Under Management at the end of 2015 stood at 15,39 million EUR.

Report of the Board of Directors - Outlook for 2016

2015 was a year characterized by a wide dispersion of returns both among and within different asset classes.

Within equity markets we witnessed negative returns in all emerging countries which are commodities exporters with the notable exception of Russia which, after the debacle in 2014 following the introduction of sanctions, posted a small positive return in USD (and an even higher one in local currency). In developed markets, Europe and Japan, both major beneficiaries of the commodities debacle, posted very good results while US was substantially flat.

It is worth highlighting that both DM and EM corporate earnings once again undershot the analysts expectation at the beginning of the year and that, as a consequence, DM stock indexes performance was mainly attributable to a re-pricing of P/E multiples. Such a re-pricing did not take place within EM, whose P/E multiples have actually remained stable or marginally declined. This led to a substantial valuation and performance gap between DM and EM equities. The relative cheapness of EM compared to DM makes us feel more constructive on EM equities for the coming year, especially should the commodities prices stabilize or rebound from the current very depressed levels. Nevertheless, the mounting geopolitical issues make differentiation essential when investing in EM. Concerning DM equities, we feel that, the expensive valuations, especially in US, and poor companies' earnings, on one side, and the still ultra accommodative monetary policies, with the notable exception of US, and the lack of investment alternatives, on the other side, will keep the asset class very volatile in 2016.

Turning to fixed income assets, as mentioned, DM government bonds delivered small positive returns and it is therefore difficult to envision similar returns in the coming years, especially when rates are negative at the short end of the European government bond yield curve and the FED kick started a timid interest rate hike cycle at the end of 2015. Nevertheless, the deflationary forces at play around the world will probably keep government bond yields depressed for the foreseeable future.

As far as credit markets are concerned we are cautious on the European high yield market and keep being constructive on the emerging market debt mainly based on valuations, which look decently attractive to us.

While we are looking forward to continue our efforts in 2016, we wish to thank here all the personnel at Compass Asset Management S.A., State Street Luxembourg S.C.A., MDO Management Company S.A., Deloitte Audit, Arendt & Medernach and, of course, all the distributors and investors in the Fund for their support and cooperation.

The accompanying notes form an integral part of these financial statements.

Notes to the financial statements

Note 1 - Accounting Policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment ("UCIs") and generally accepted accounting principles.

b) Valuation of securities

- The value of assets which are listed or dealt in on any stock exchange is based on the last available price on the stock exchange which is normally the principal market for such assets.
- The value of assets dealt in on any Regulated Market is based on the last available price.
- In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.
- The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other Regulated Markets is based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures or forward foreign exchange contracts are traded by the Fund; provided that if a futures or forward foreign exchange contracts could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.
- Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.
- All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.
- The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

c) Conversion of the acquisition cost of securities in the portfolio

For securities expressed in currencies other than the reference currency of the Sub-Fund, the conversion of the acquisition cost is calculated based on the closing exchange rates of the day of purchase.

Note 1 - Accounting Policies (continued)

d) Investment income

A dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes.

Interest income is recorded on an accrual basis.

e) Conversion of foreign currencies

Cash at banks, other net assets and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing as at 31 December 2015. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of Operations and Changes in Net Assets.

f) Combined financial statements

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of Net Assets is presented in euros (“EUR”).

The combined statements correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at 31 December 2015. The differences of exchange rates are recorded in Statement of Operations and Changes in Net Assets under « Conversion difference ».

The exchange rate prevailing as at 31 December 2015 is the following:

1 EUR ≈ 1.086300 USD

The Sub-Funds CompAM FUND - Multimanager Balanced, CompAM FUND - Multimanager Target Alpha, CompAM FUND - SB Flexible and CompAM FUND - SB Bond held investments in various sub-funds of CompAM Funds at period end.

As at 31 December 2015, the total of cross sub-fund investments amounted to EUR 23 540 054.40 and therefore the combined net asset value at the level of the SICAV at year-end without cross-investments would amount to EUR 432 030 465,71.

g) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contract. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on forward foreign exchange contracts are recorded in the Statement of Net Assets and in the Statement of Operations and Changes in Net Assets.

Note 1 - Accounting Policies (continued)

h) Future contracts

Future contracts are valued at their last known traded price on the stock exchanges or regulated markets on which they are traded. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on future contracts are recorded in the Statement of Net Assets and in the Statement of Operations and Changes in Net Assets.

i) Contracts for difference (CFD)

In a contract for difference, two parties commit to exchange payments which replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference are valued at the closing price of the underlying instrument less the financing costs attributable to the relevant contract. When a contract for difference is concluded, the Sub-Fund may be required to deposit an amount ("initial margin") that corresponds to a pre-agreed percentage of the contract price in cash and/or other assets with the broker. The unrealised profit/loss is reported in the Statement of Net Assets. Realised profit / (loss) and changes in unrealised appreciation / (depreciation) are presented in the Statements of Operations and Changes in Net Assets.

Note 2 - Investment Management fees

In remuneration for its services, the Investment Manager is entitled to receive an annual management fee payable monthly and calculated on the average net assets of each Sub-Fund during the relevant month.

Annual rates as at 31 December 2015 are described below:

With regards to Sub-Funds investing a substantial proportion of their assets in investment funds, the Investment Manager shall ensure that in respect of the Fund investment in UCITS and/or other UCIs, the total management fee (excluding any performance fee, if any) charged to the Fund and each of the UCITS and/or other UCIs in which it invests, shall not exceed the following percentages of the relevant net assets under management, as per Art. 46(3) of the amended Law of December 17, 2010 relating to Undertakings for Collective Investment:

Sub-Fund	Percentage of the NAV
CompAM FUND: Balanced Portfolio	4,025%
CompAM FUND: Equity Africa & Middle East	4,450%
CompAM FUND: Conservative Portfolio	4,025%
CompAM FUND: SB Equity	5,000%
CompAM FUND: SB Flexible	4,600%
CompAM FUND: SB Bond	4,100%
CompAM FUND: Global Equity Portfolio	4,100%

Note 2 - Investment Management fees (continued)

Total amount of any rebates of the management commissions applied on underlying UCITS or UCI managed by third companies are transferred to the Sub-Fund on a quarterly basis and registered in the Statement of Operations and Changes in Net Assets under the heading "Other income".

With regard to the investments within the same umbrella structure, there is no duplication of management/subscription or repurchase fees.

As a remuneration for its advisory services, the Investment Adviser will be paid an investment advisory fee out of the investment management fee received by the Investment Manager.

Note 3 - Management Company fees

The Management Company is entitled to receive an annual Management company fee payable quarterly and calculated on the quarterly average Net Assets of the previous quarter as follows:

- 0,07% per year for Total Net Assets up to €250 million
- 0,06% per year for Total Net Assets between €250 million and €500 million
- 0,05% per year for Total Net Assets between €500 million and €1 billion
- 0,04% per year for Total Net Assets above €1 billion.

The Management Company will be entitled to a minimum fee of €120,000 per year.

Note 4 - Performance fees

The Investment Manager is entitled to receive an annual performance fee, calculated on a daily basis and representing per share the below mentioned rate of the annual performance of the Net Asset Value per share of the relevant Sub-Fund:

Sub-Funds	Share classes
CompAM FUND: Active Emerging Credit	Classes A, B, D, M and Y: 10% Class Z: none
CompAM FUND: Active European Equity	Classes A, B, M, Q and Y: 10% Class Z: none
CompAM FUND: Active Liquid Bond	Classes A, B, D, M and Y: 10% Class Z: none
CompAM FUND: Active European Credit	Classes A, B, D, M and Y: 10% Class Z: none
CompAM FUND: Active Dollar Bond	Classes A, E, M and Y: 10% Class Z: none
CompAM FUND: Balanced Portfolio	Classes A, B and M: 5% Class Z: none
CompAM FUND: Equity Africa & Middle East	Classes A, B and M: 5% Class Z: none
CompAM FUND: Conservative Portfolio	Classes A, B and M: 5% Class Z: none
CompAM FUND: SB Equity	Classes I, Q and M: 8% Classes B and D: 12%

Note 4 - Performance fees (continued)

CompAM FUND: SB Flexible	Classes I,Q and M: 8% Classes B and D: 12%
CompAM FUND: SB Bond	Classes I,Q and M: 8% Classes B and D: 12%
CompAM FUND: Active Bond Plus	Class B and I: 20%
CompAM FUND: ML Opportunity	Classes A and M: 10%
CompAM FUND: Global Diversified	Classes A and M: 10% Class Z: none
CompAM FUND: Active Equity Selection	Class A, B, M,Q and Y : 10% Class Z: none
CompAM FUND: Global Equity Portfolio	Class A, B and M: 5% Class Z: none
CompAM FUND: Active Market Neutral	Class A, B, M, Q, S and Y : 10%
CompAM FUND: Cadence Strategic Asia	Class A, B, M and Y : 10%

The detailed calculation method of the performance fee is described in the current Prospectus.

Note 5 - Subscription Tax (« Taxe d'abonnement »)

The Fund is governed by Luxembourg Laws.

Pursuant to the 2010 Law, the Fund is subject to an annual subscription tax (“*taxe d'abonnement*”) of 0,05% which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

A reduced tax rate of 0.01% per annum of the net assets will be applicable to classes of Shares which are only sold to and held by Institutional Investors as well as to certain Sub-Funds investing exclusively in money market instruments which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

Pursuant to Article 175 (a) of the amended Law of 17 December 2010, the Net Assets invested in Undertakings for Collective Investments already subject to the “*taxe d'abonnement*” are exempt from this tax.

Note 6 - Transaction Costs

For the period ended 31 December 2015, the Fund incurred transaction costs which are included in the acquisition cost (composed of broker fees and stamp duties) relating to purchases or sales of investment securities and/or other eligible assets. Custodian transaction fees are recorded in the Statement of Operations and Changes in Net Assets under the caption "Custodian transaction fees".

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange contracts and other derivative contracts, transaction costs are included in the purchase or sales price and are not separately disclosed.

The transaction costs recorded by the Fund for the financial period from 1 January 2015 until 31 December 2015 amount to the following:

Sub-Fund	Currency	Custodian transaction fees	Brokerage charges	Total transaction costs
CompAM FUND: Active Emerging Credit	EUR	21 713,85	317,95	22 031,80
CompAM FUND: Active European Equity	EUR	3,65	45 341,75	45 345,40
CompAM FUND: Active Liquid Bond	EUR	5 095,40	27,20	5 122,60
