The difference between the different classes of ordinary Shares relates to the dividend payment, minimum investment, investment management fee, performance fee and the placing fee which is payable quarterly in arrears to the relevant Placing Agents and the non-base currency and hedging impact.

Certain classes of ordinary Shares may not be offered for subscription by the Fund's Placing Agents in certain countries where the Fund is registered for public distribution. In such case, the investors wishing to subscribe for a class of Shares which is not offered for subscription by the Placing Agent appointed in their country of residence may apply to the Sub-Registrar and Transfer Agent in Luxembourg in order to subscribe for the relevant class of Shares.

The Class C Shares requires the prior approval of the Board of Directors of the Fund.

The Class Q Shares is open to any type of investors, including retail investors, who purchase and sell shares through the ETF plus Market.

The Class Y Shares is reserved to other Sub-Funds of the Fund for cross Sub-Fund Investments.

The Class Z Shares is reserved to the Investment Manager, its employees and their relatives and requires the prior approval of the Board of Directors of the Fund.

The Fund's financial year begins on 1 January and ends on 31 December of the same year.

Copies of the agreements, the Articles of Incorporation of the Fund, the current Prospectus, the Key Investor Information Document (KIID), the schedule of each investment portfolio activity for the year, and the latest financial reports may be obtained free of charge during normal office hours at the registered office of the Fund in Luxembourg.

REPORT OF THE *RÉVISEUR D'ENTREPRISES AGRÉÉ*

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of CompAM Fund (the "Fund") and of each of its Sub-Funds, which comprise the statement of net assets, the portfolios, the commitments on futures contracts, the forward foreign exchange contracts and the contracts for differences as at 31 December 2017 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of CompAM Fund and of each of its Sub-Funds as at 31 December 2017, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier* (CSSF). Our responsibilities under those Regulation, Law and standards are further described in the "Responsibilities of the *Réviseur d'entreprises agréé* for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of *Réviseur d'entreprises agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we concluded that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regards.

Responsibilities of the Board of Directors of the Fund and Those Charged with Governance for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the *Réviseur d'entreprises agréé* for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of *Réviseur d'entreprises agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation N°537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of *Réviseur d'entreprises agréé* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of *Réviseur d'entreprises agréé*. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

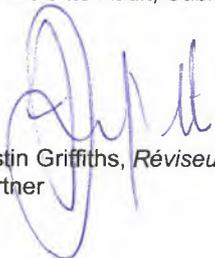

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

We have been appointed as *Réviseur d'entreprises agréé* by the General Meeting of the Shareholders on 10 May 2017 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is thirteen years.

We confirm that no prohibited non-audit services referred to in the EU Regulation N° 537/2014, on the audit profession, were not provided during the year and that we remain independent of the Fund in conducting the audit.

Board of Directors report

Year 2017 was characterized very solid results for most risky asset classes in an environment of subdued volatility and a generally weaker US dollar. Once again, flows into almost all investment classes were concentrated into passive instruments (ETF, index funds) creating a challenging environment for active investors. During the year, US main indices did not have any negative monthly performance close and registered several new record highs. Towards the end of the year, this positive momentum was reinforced by the passage of the Tax reform. The S&P ended the year with an impressive +21.82%. Technology and FANG stocks had again a positive impact (the NASDAQ COMP index closed the year at +29.73%).

In Europe we had two electoral events, the French and German elections. The former brought more uncertainty for a little while with some weaknesses in equity markets ahead of the results. However the Macron's victory gave green light to investors to reconsider investing in European risky assets. The latter's outcome this fall was well anticipated by political experts and did not bring any surprises. The DJ Stoxx600 had another positive year (+11.22%) helped by a return of earnings growth after several years of negative revisions. Japan performed better with the Nikkei 225 closing the year at +21.29%. Alongside the continuation of QE, there are positive dynamics in the Japanese economy and international investors returned to the country pouring significant amounts of money. The best performance of the year was recorded by EM equities. The MSCI EM index in USD closed at +37.51%, a very significant yearly performance helped by global growth, strong earnings revisions and weaker USD. Among the pack, Asian countries performed extremely well.

In fixed income, Central Banks in Europe and Japan continued their quantitative easing while the Fed continued its moderate path of rising rates and started a mild reduction of its balance sheet. Overall it was another strong year of inflows in bond land with over 2 trillion of assets bought by the main central banks. Admittedly, some slightly higher inflation reading and a general benign outlook for growth pushed government bonds yield somewhat higher.

The 10 year Treasury ended the year at 2.406 (monthly low of 2.118 in August) while the 10y Bund closed at 0.427% (monthly low of 0.208% in February). Italian 10y BTPs showed some weakness at the end of the year ahead of the next election this spring closing at 1.747% (monthly lows of 1.483% in November). In spite of this, the movement was very gradual and did not derail the corporate sector (the Barclays Global Agg Corp in EUR at +3.66% YTD) even on the higher risk spectrum (the Barclays European High Yield at +6.24% YTD in EUR, the Barclays US Corp HY +7.50% in USD). We observed a similar trend in EM fixed income with the Barclays EM Hard Currency Index at 8.65%.

The 10 year Treasury ended the year at a yield of 2.445% (monthly low of a yield of 1.454% in July) while the 10y Bund closed at 0.208% (monthly low of -0.13% in June).

After a good year 2016, commodities had a flat year: The Bloomberg Commodity Index gained 0.75%. Its main component, Oil, was +3.80% in the year. In spite of higher rates, Gold had another decent year with a performance of +13.30% in USD.

CompAM Fund - Active Conservative Bond

The Active Conservative Bond Sub-Fund invests in bonds or fixed income transferable securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB).

The Sub-Fund will invest at least 50% of its assets in government or supranational bonds or AAA rated bonds and no more than 15% in non-investment grade or bonds without a rating.

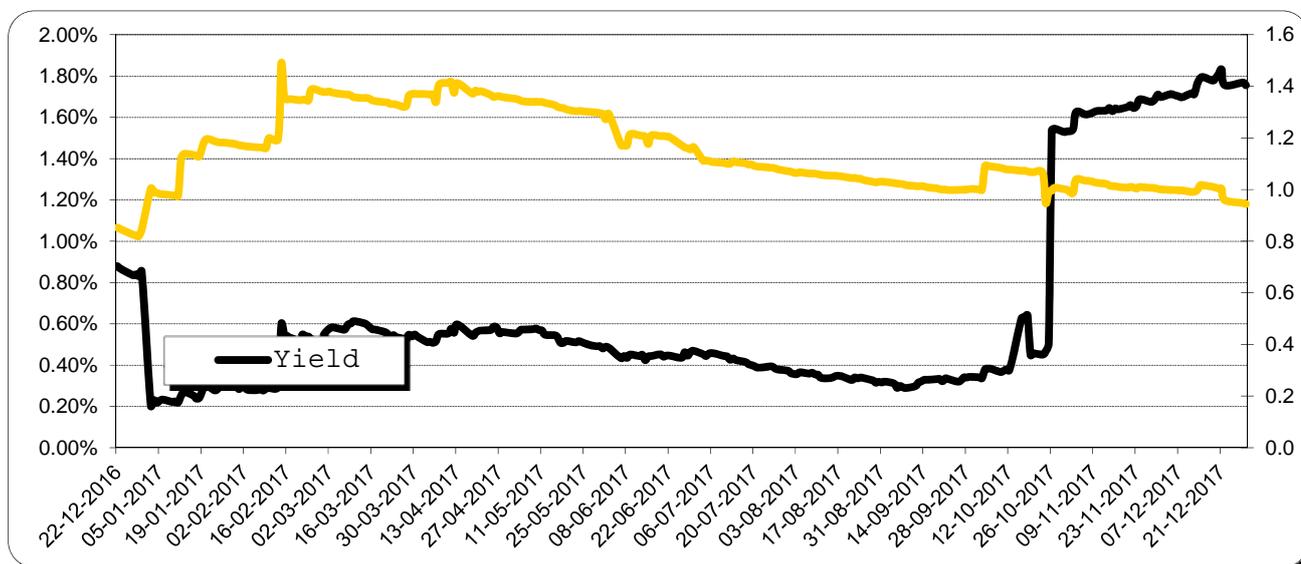

With a recommended investment time horizon of 1 to 2Y, the purpose of the Sub-Fund is to achieve average yearly returns in line with Euro money market rates.

In year 2017, the Sub-Fund's Class M Share lost 0.64%.

This negative return is entirely attributable to the mostly prevailing negative yields among short-term dated government and highly rated corporate bonds in Europe.

The first chart shows the evolution of the portfolio average Duration and Yield to Maturity (net of hedging costs) during 2017.

The second chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

CompAM Fund - Active European Credit

The Active European Credit Sub-Fund is an unconstrained and concentrated portfolio, investing primarily in European High yield securities and targeting higher net returns to investors with respect to the Conservative Bond Sub-Fund, albeit with a longer time horizon and higher volatility of returns.

In year 2017, the Sub-Fund's Class M Share gained 4.86%.

Portfolio positioning throughout the year was similar to the previous year: we kept our barbell approach consisting of between 40% and 50% of cash and cash equivalent (defined as bonds with less than 3Y maturity and a rating equal or above BBB+) while the balance was deployed to credits where we think there is a reasonable balance between risk and expected returns. Following this approach we were able to deliver returns in line or little below the Euro HY asset class, with lower volatility and an IG average portfolio rating.

The first chart shows the evolution of the portfolio average Duration and Yield to Maturity (net of hedging costs) during 2017.

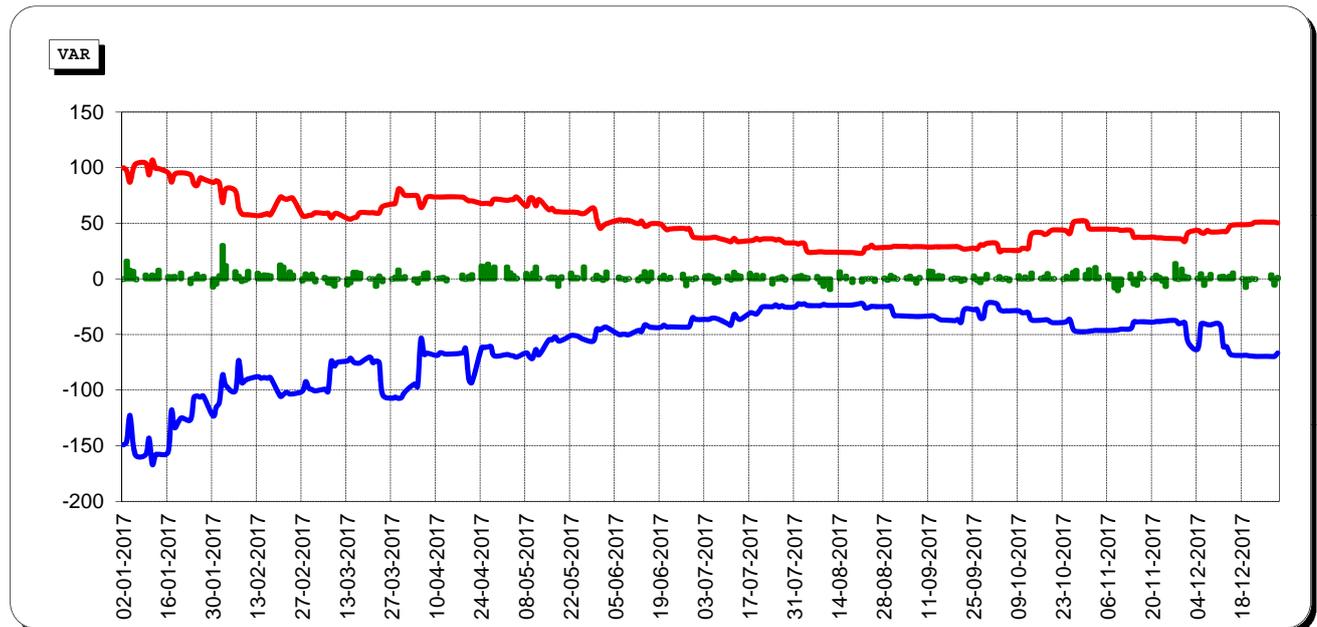

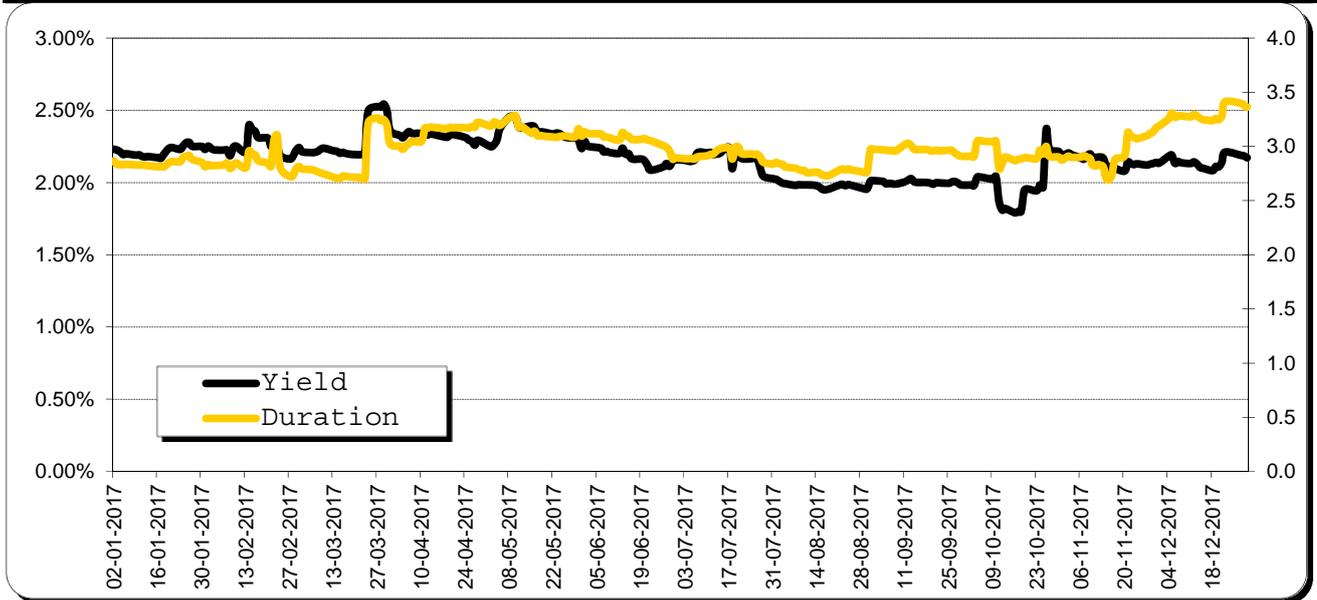

The second chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

CompAM Fund - Active Emerging Credit

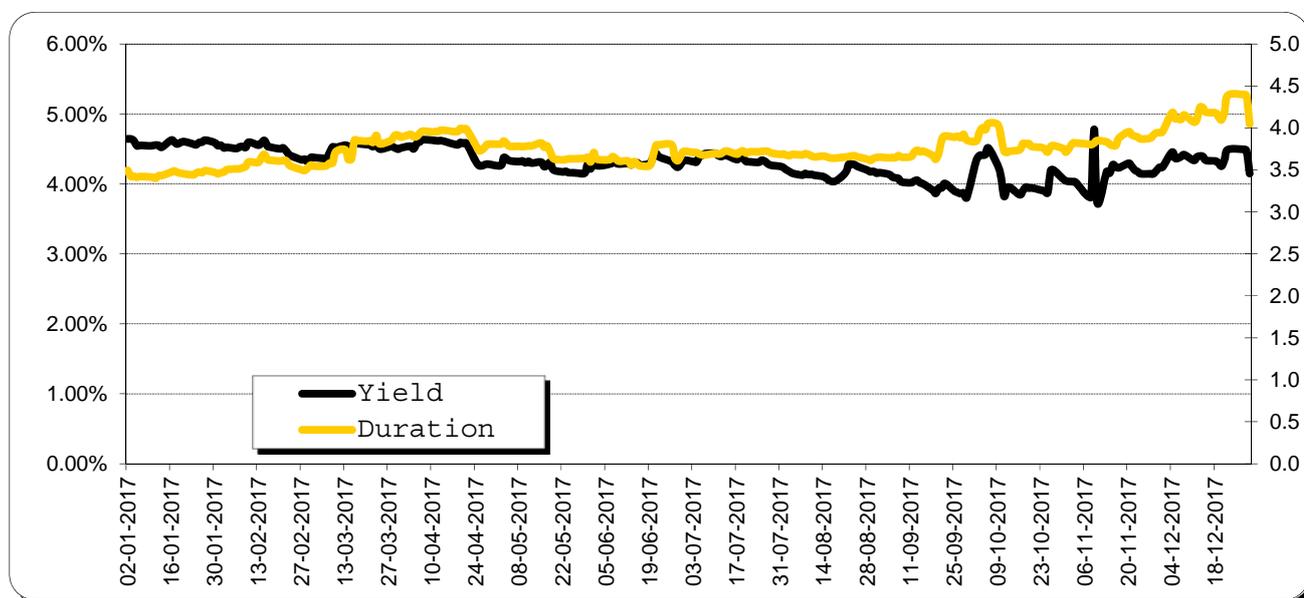

Active Emerging Credit Sub-Fund is an unconstrained and well diversified portfolio which invests primarily in fixed income securities issued by corporate based and operating in emerging economies. The Sub-Fund can also invest in emerging market government bonds, as local currency government and corporate bonds and local currency denominated supranational (such as World Bank and European Investment Bank) issues.

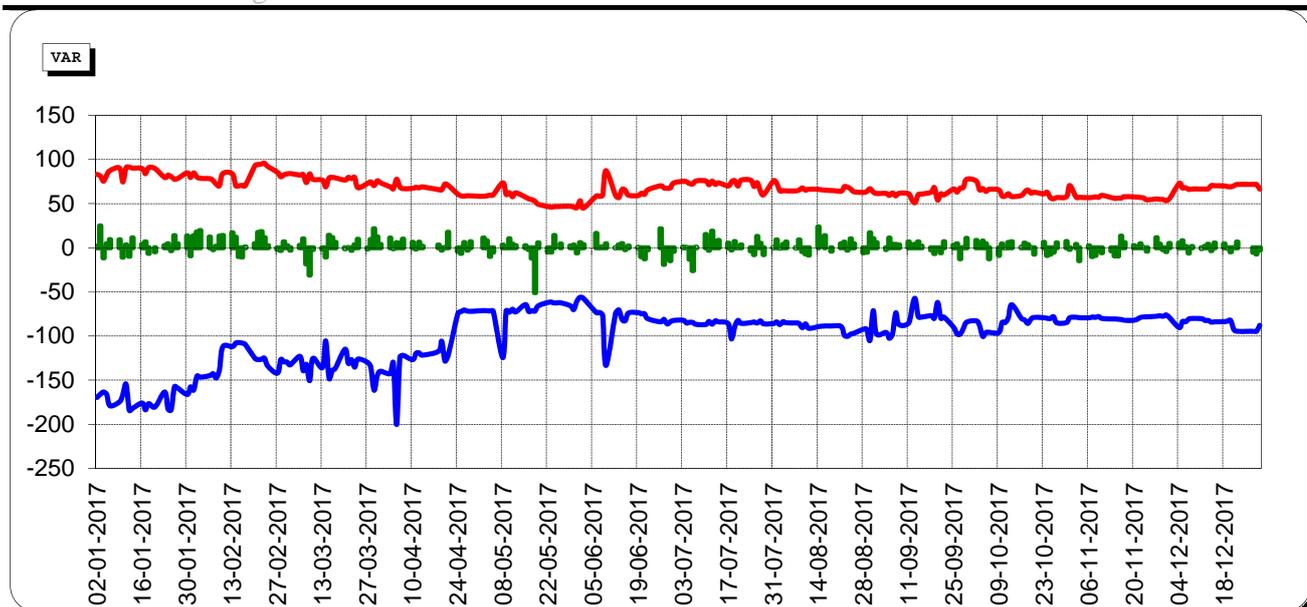

In year 2017, the Sub-Fund's Class M Share gained 4.48%.

With the constant compression in yields and spreads experienced in the previous years, 2017 was mainly a story of returns coming from carry rather than price appreciation. Therefore, returns were lower compared to 2016 but still in line with the asset class and the peers. The average portfolio rating was IG throughout the year, duration was kept constant at around 4 years and the countries with the main allocation were Argentina, Brazil, Russia and Mexico.

The first chart shows the evolution of the portfolio average Duration and Yield to Maturity (net of hedging costs) during 2017.

The second chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

CompAM Fund - Active European Equity

The Active European Equity Sub-Fund invests primarily in equities listed or issued in the European Union with a bottom-up approach to stock selection and a portfolio risk management carried out with a discretionary hedging. The purpose of this Sub-Fund is to achieve returns similar to the long run returns available in the equity markets, with reasonable volatility and a limited drawdown risk. A portfolio of carefully selected equities can be partially hedged with futures and options on equity indexes.

In 2017, the Sub-Fund's Class M Share delivered a net return of 0.30%.

Since the beginning of the year, assets under management increased by 5.11% reaching a total Net Asset Value equal to 36.74 mln EUR at the end of 2017.

The Sub-Fund has been actively managed throughout the year with a conservative stance. We maintained this approach through the year just passed. By doing so, we did not capitalize in full the positive market dynamics following the French elections. Our stock selection proved of value in the first half of the year but then detracted from the result in the remainder of 2017 given the preference of the market for cyclical and financial sector. We hope investors appreciate our efforts and commitment to deliver consistent risk adjusted returns. Getting a reasonable share of market upside while being focused on reducing the impact of potential negative moves still remains our main goal going into 2018.

The first chart below, drawn from data gathered by Compass Asset Management S.A., shows the portfolio net exposure during the year.

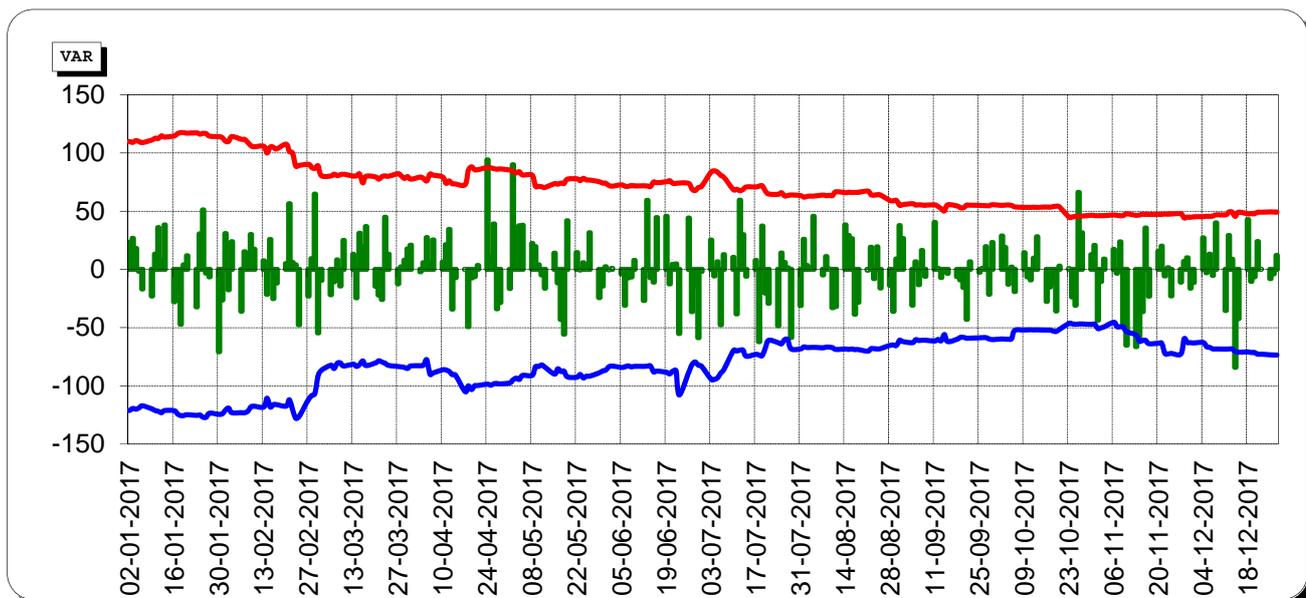

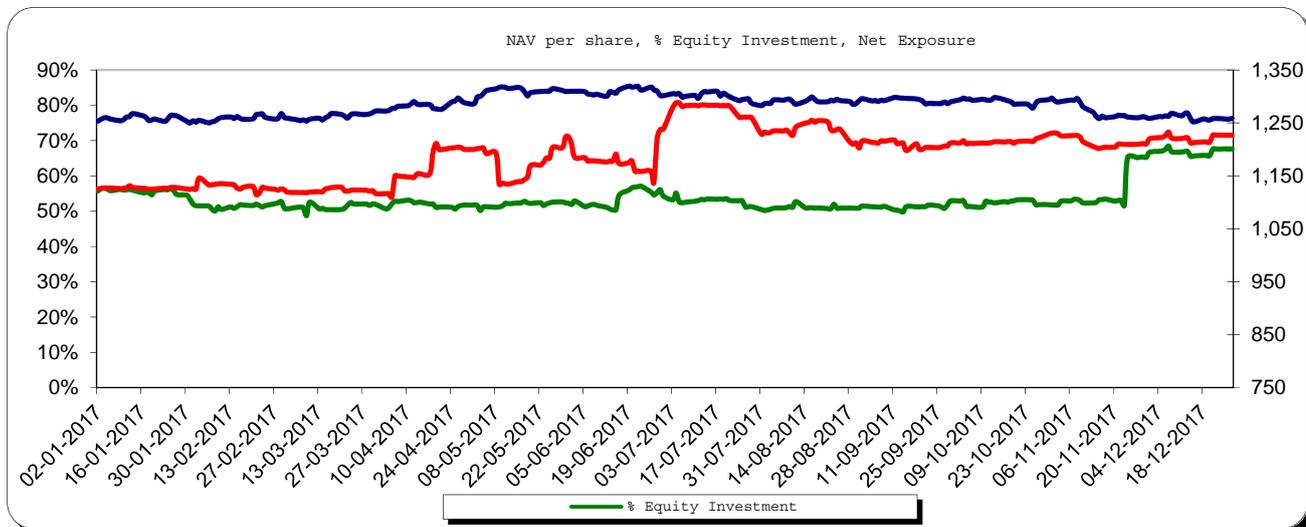

The second chart reports the VAR model of the Sub-Fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

CompAM Fund - Active Equity Selection

The Active Equity Selection Sub-Fund invests primarily in financial derivatives and a concentrated number of equities listed or issued in the European Union with a bottom-up approach to stock selection.

The Active Equity Selection Sub-Fund will seek to have an exposure to the above mentioned European equities or equity-related securities that will range between 75% and 100% of its net assets by using mainly, although not exclusively, financial derivative instruments. Financial derivatives instruments used for such purposes will mainly, but not exclusively, consist of futures on Eurostoxx 50, futures on Eurostoxx 600, ETFs replicating the performance of Eurostoxx 50 and Eurostoxx 600. The Sub-Fund does not hedge currency risk for equities denominated in currencies other than the Euro.

In 2017, the Sub-Fund's Class M Share delivered a net return of 10.29%. It was the second full year with the current investment strategy. The Sub-Fund outperformed its benchmark for the second full year in a row, the EURO STOXX 50 Net Return EUR, by 114 basis points.

Since the beginning the year, assets under management increased by 30.83% reaching a total Net Asset Value equal to 23.87 mln Eur at the end of 2017.

CompAM Fund - Active Market Neutral

2017 was the second full-year of activity for our market neutral strategy. The Active Market Neutral Sub-Fund invests primarily in equities listed or issued in the European Union actively managing directional exposure to the equity market via portfolio risk management techniques carried out with discretionary hedging. The purpose of this Sub-Fund is to achieve returns similar to the long run returns available in the equity markets, with reasonable volatility and a limited drawdown risk.

During the year the Sub-Fund delivered -0.34% (Class M Share) in an environment that proved to be challenging for active investors, especially long/short and market neutral strategies across the developed markets.

Assets under management at the end of 2017 stood at 17.45 mln EUR.

CompAM Fund - Active Dollar Bond

The portfolio, denominated in dollars, has been invested mainly in corporate bonds, predominantly in emerging markets and in European high yield.

In year 2017, the Sub-Fund's Class M Share gained 7.64%.

The Sub-fund good performance was mainly achieved thanks to a selective exposure to Emerging sovereign and corporate bonds and to a restricted number of European financial and corporate issues.

CompAM Fund

CompAM Fund - Active Bond Plus

The Active Bond Plus Sub-Fund mainly invests (directly or indirectly) in debt securities of any country of issuance even low rated and invests up to 20% of its net assets in listed equities worldwide. The Sub-Fund may also use, for the purpose of efficient portfolio management and proxy hedging, currency forwards and options, as well as listed futures (and related options) on government bonds, equities, interest rates and currencies.

In year 2017, the Sub-Fund's Class I Share gained 3.09%.

The bond portion of the Sub-Fund contributed approximately 83.26% to the 2017 performance, while the equity portion of it delivered the remaining 16.73%.

CompAM Fund - Active Liquid Strategy

The Sub-Fund aims to seek a consistent absolute return while placing emphasis on the preservation of capital in the medium term.

The allocation of the portfolio between the different asset classes (equities, convertible bonds, other corporate bonds, government bonds and money market instruments) may vary according to the Investment Manager's expectations.

Furthermore the Sub-Fund may make considerable use of derivative financial instruments (derivatives), or hedging purposes, in the interests of efficient portfolio management and as an active investment in securities and money market instruments and for currency hedging purposes. The range of possible derivatives includes both exchange-traded and OTC instruments and in particular call and put options, futures, forwards, warrants, contracts for difference and swaps (such as total return swaps, credit default swaps, credit spread swaps, interest-rate swaps, index swaps) on securities, interest rates and currencies as well as on other derivative financial instruments and financial indices.

The Sub-Fund's total risk exposure (including the risk exposure through using financial derivatives) amounts to a maximum of 200%. The Sub-Fund will seek to have an exposure to equities up to 105%.

2017 was the first full-year of activity for Active Liquid Strategy. During the year, the Sub-Fund delivered 1.32% (Class M Share). Assets under management at the end of 2017 stood at 73.05 mln EUR.

CompAM Fund - Conservative Portfolio

The Conservative Portfolio Sub-Fund has been launched in July 2008 targeting the investment of the majority of the portfolio into absolute return funds and other similar eligible assets according to the UCIT regulations. During 2016 the Sub-Fund was repositioned with a different investment strategy, aiming to deliver a single fund solution for investors looking for a conservative allocation.

CompAM Fund

Société d'Investissement à Capital Variable

49, Avenue J.F. Kennedy

L-1855 Luxembourg

Under the new investment strategy the portfolio allocation entails on average across time a 20% investment in equities, 20% in alternative strategies, 40% in cash or highly safe bond investments and the balance in European or Emerging credits. Currency diversification away from EURO is targeted at 15%.

During 2017, the Sub-Fund returned 0.40% for the Class M Share.

During the year the alternative and equity components of the portfolio were held at very conservative levels: with highly safe bonds yielding negative returns, only the credit component of the portfolio was able to produce a meaningful positive contribution.

Asset under management (AUM) declined to 5.8 million Euro as of year-end.

CompAM Fund - Balanced Portfolio

The Balanced Portfolio Sub-Fund has been launched in July 2008 for the benefit of the investors who want a balanced profile, with a manager diversification in one single fund.

During 2017 the Sub-Fund returned 3.01% (Class M Share).

The vast majority of performance contribution came from the Equity and Credit component of the portfolio, that were between one quarter and on third each of the portfolio. Exposure to the USD was kept at minimal levels during the year, hence the Sub-Fund did not have any negative impact from its weakening, but it was impacted by the weakening of the Swiss franc where about 15% of AUM were at one point allocated.

AUM at year-end stood at 26.91 million Euro.

CompAM Fund - Global Equity Portfolio

The Global Equity Portfolio Sub-Fund has been launched in April 2014 to invest in a selection of Long Only Equity Managers and ETFs targeting an exposure centered around 85% to the world equity markets. The objective is to keep the USD exposure somewhere in between the local currency exposure and the hedged exposure, which will result in the fund trailing the MSCI World in Euro terms when the USD appreciates relative to the Euro and vice versa.

During 2017, the Sub-Fund delivered a net performance of 4.86% (Class M Shares). The portfolio manager's view that equity markets were too expensive and that further multiple expansion was no longer likely determined a prudent approach during the whole year.

AUM stood at 36.26 million Euro as of year-end.

CompAM Fund - SB Bond

The SB Bond Sub-Fund mainly invests in debt securities of any country of issuance even low rated and may also invest up to 10% of its net assets in listed equities worldwide. The policy is realized mainly by investments in other UCITS.

In year 2017, the Sub-Fund had a positive performance of 0.60% (Class I Share).

The Sub-Fund performance was achieved thanks to a blended exposure to both local currency and hard currency denominated emerging market funds, European credits and third parties fixed income funds.

The Investment Manager relies on Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as Investment Adviser for the management of the Sub-Fund.

CompAM Fund - SB Flexible

The SB Flexible Sub-Fund mainly invests in listed equities worldwide (such assets shall represent, under normal market conditions, between 15% and 60% of the Sub-Fund's net assets) as well as in other eligible assets such as, but not limited to, debt or debt securities, Money Market Instruments and deposits, without any geographical or economic restriction. The policy is realized mainly by investments in other UCITS.

In year 2017, the Sub-Fund returned a positive performance of 2.94% (Class I Share).

The Sub-Fund performance was positively affected by its investments in fixed income. The third party fund component was marginally negative overall. Notwithstanding this, the Sub-Fund managed to deliver positive returns in an environment that proved challenging for active investors.

The Investment Manager relies on Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as Investment Adviser for the management of this Sub-Fund.

CompAM Fund - SB Equity

The SB Equity Sub-Fund mainly invests in listed equities worldwide (such assets shall represent, under normal market conditions, between 30% and 100% of the Sub-Fund's net assets) as well as in other eligible assets such as, but not limited to, debt or debt securities, Money Market Instruments and deposits, without any geographical or economic restriction. The policy is realized mainly by investments in other UCITS.

In 2017 the Sub-Fund returned a positive performance of 7.98% (Class I Share).

CompAM Fund

CompAM Fund - SB Convex

The SB Convex Sub-Fund invests its assets in listed equities worldwide, debt securities, money markets instruments and deposits. Moreover the Sub-Fund may invest up to 20% of its net assets in eligible assets with underlying gold such as but not limited thereto physically-backed exchange traded notes, physically-backed exchange traded commodity.

The Sub-Fund was launched in October 2016 and in the last four months of the year has achieved a negative return of -3.08% for Class I Share. The performance is mainly attributable to its investment in eligible assets with underlying gold, due the good performance of the commodity in the year.

The Investment Manager relies on Alto Adige Banca S.p.A. - SÜDTIROL Bank AG as Investment Adviser for the management of this Sub-Fund.

CompAM Fund - Equity Africa & Middle East

The Equity Africa & Middle East Sub-Fund mainly invests directly in companies listed or getting the majority of their revenues from Middle Eastern and African countries. The Sub-Fund may invest up to 35% of its net assets in UCITS and/or other UCIs focused on Middle Eastern and African countries as well as certificates representative of companies listed in Middle Eastern and African countries or getting the majority of their revenues from Middle Eastern and African countries.

The Equity Africa & Middle East Sub-Fund will be able to invest in Middle Eastern and African Transferable Securities, equity related funds, other equity related eligible assets and/or other eligible assets (Debt Securities, Money Market Instruments, Deposits etc.) other than equity or equity related.

In 2017, the Sub-Fund's Class M Share gained 13.87%, with positive contributions coming from single stocks positions in African equities.

During the year assets under management rose slightly and the Sub-Fund closed 2017 at 5.98 million Euro.

CompAM Fund - Global Diversified

The Sub-Fund invests a percentage between 20% and 100% of its assets in debt securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB) of any country of issuance even Emerging Markets, even low and not rated. More specifically, the Global Diversified Sub-Fund may invest up to 10% of its assets in not rated bonds. The investment of the Global Diversified Sub-Fund in not rated together with low rated bonds will in no case exceed 30% of its assets. In addition the Global Diversified Sub-Fund may invest up to 40% in UCITS and/or other UCIs. The Global Diversified Sub-Fund may also invest up to 50% of its net assets in listed equities or equities related securities worldwide (such as certificates representative of equities or equity indices). The Global Diversified Sub-Fund may, on an exceptional and temporary basis hold up to 100% of its assets in cash and cash equivalents.

In the year 2017 the Sub-Fund returned a positive performance of 5.72% for the Class M Share.

Assets under management were 44.47 million Euro at year end.

CompAM Fund - Cadence Strategic Asia

2017 was the second full year of activity for our strategy dedicated to Asian equities. The Sub-Fund's objective is to target returns in excess of nominal Asian GDP growth (gross domestic product) over the medium to long term. It will do so by investing in a concentrated portfolio of companies capable of sustaining high economic returns and which are undervalued in relation to their future cash generating ability. The Sub-Fund's investment strategy is unconstrained by any benchmark index and is focused on achieving absolute returns over the longer term. The unconstrained and concentrated nature of the Sub-Fund means that over shorter time periods, its returns are likely to diverge meaningfully from the performance of conventional benchmark indices.

In 2017, the Sub-Fund returned a positive performance of 20.94% (Class M Share).

Assets under management at the end of 2017 stood at 66.48 million Euro.

The Investment Manager relies on Cadence Investment Partners LPP, Edinburgh, acting as Investment Adviser for the management of this Sub-Fund.

CompAM Fund - Equilibrium

The Equilibrium Sub-Fund will invest principally in UCITS and/or other UCIs, including in other Sub-Funds of the Fund or others sub-funds managed by the same investment manager, in accordance with Part A, Section II – "Investment Restrictions". The Equilibrium Sub-Fund will invest its assets, either directly or indirectly, in listed equities (such assets shall represent, under normal market conditions, between

Investment shall be made without any geographical or economic restriction. The maximum management fees that may be charged to both the Sub-Fund and to the UCITS and/or other UCIs in which the Equilibrium Sub-Fund may invest shall not exceed 4.90 % of the Equilibrium Sub-Fund's net assets. In addition the Equilibrium Sub-Fund may invest up to 20% of its net assets in eligible assets with underlying commodities such as but not limited thereto physically-backed exchange traded notes, physically-backed exchange traded commodity.

2017 was the first year of trading for the Equilibrium strategy. In the period between 01/06/2017 and year end the Sub-Fund delivered a positive performance of 0.26% (Class I). At the end of the year assets under management stood at 28.75 mln Eur.

CompAM Fund - Flexible Bond

The Flexible Bond Sub-Fund will mainly invest (directly or indirectly) in debt and/or debt related securities of any country of issuance even low rated. The Flexible Bond Sub-Fund may also invest (directly or indirectly) up to 30% of its net assets in listed equities or listed equity-related securities worldwide and/or in asset-backed securities and/or mortgage-backed securities.

Investments in asset-backed securities and/or mortgage-backed securities will however not represent more than 20% of the assets of the Flexible Bond Sub-Fund. On an ancillary basis, the Flexible Bond Sub-Fund will be able to invest in other eligible assets other than debt or debt related securities such as, but not limited to, time deposits and Money Market Instruments. No more than 10% of the assets of the Flexible Bond Sub-Fund may in aggregate be invested in units or shares of other UCITS and/or UCIs.

2017 was the first full year of trading for the Flexible Bond strategy. The Sub-Fund delivered a positive performance of 0.98%. At the end of the year assets under management stood at 28.15 mln EUR.

Board of Directors report - Outlook for 2018

In hindsight, 2017 was a year characterized by strong positive returns for most risky asset classes in an environment of synchronous global growth and rising earnings. However, these positive results might not give a true picture of the challenges active investors had to face. During the year 2017, we navigated through several political events and surprising outcomes. These could present themselves again in 2018. The current year has a full political agenda in Europe with elections in Italy and in the US with the midterm elections. We will witness the effects of the Trump's administration tax reform and the other packages currently under discussion (i.e. infrastructure spending). At the same time, we will have a drastic reduction in QE's from global central banks. Monetary authorities are taking divergent paths with the Fed in a hawkish attitude (2-3 rate hikes expected) while the ECB and the Bank of Japan should continue their balance sheet expansion through quantitative easing, albeit at a more moderate pace compared to 2017.

It is worth highlighting that in 2017, Developed Market (DM) and Emerging markets (EM) corporate earnings finally matched and, in certain countries, overshoot analysts' expectation at the beginning of the year. As a consequence, after several years, stock indexes performance was mainly attributable to earnings growth than to a re-pricing of P/E multiples. For 2018, analysts forecast rising earnings again. These expectations are based on an outlook of mildly rising inflation and lower corporate taxes in the US.

The relative cheapness of EM, especially Asia, compared to DM makes us feel more constructive on EM equities for the coming year, especially should the commodities prices stabilize at current levels and the USD weakness persist. Nevertheless, the mounting geopolitical issues make differentiation essential when investing in EM. Concerning DM equities, we feel that, the expensive valuations, especially in US, and the reduction of ultra-accommodative monetary policies, will bring again some volatility in the asset class in 2018.

Turning to fixed income assets, as mentioned, government bonds delivered positive returns and it is therefore difficult to envision similar returns in the coming years, especially when rates are negative at the short end of the European government bond yield curve and the FED continues an interest rate hike cycle. At the time of writing, deflationary forces at play around the world seem abating. After over 30 years bull market in rates, we feel that in 2018 the risks in fixed income are skewed on the downside. We believe that shortening duration is still a valid strategy in the current environment.

As far as credit markets are concerned we are cautious on the European and US high yield market and keep being constructive on the emerging market debt, although selectively, mainly based on valuations, which look decently attractive to us in certain geographic areas, Latam in particular.

While we are looking forward to continue our efforts in 2018, we wish to thank here all the personnel at Compass Asset Management S.A., State Street Bank Luxembourg S.C.A., MDO Management Company S.A., Deloitte Audit, Arendt & Medernach S.A. and, of course, all the distributors and investors in the Fund for their support and cooperation.

Notes to the financial statements

Note 1 - Accounting Policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment ("UCIs") and generally accepted accounting principles.

b) Valuation of securities

- The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.

- The value of assets dealt in on any regulated market is based on the last available price.

- In the event that any assets are not listed or dealt in on any stock exchange or on any other regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or other regulated market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.

- The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other regulated markets is based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular future or forward foreign exchange contracts are traded by the Fund; provided that if a future or forward foreign exchange contracts could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.

- Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.

- The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

- All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.

c) Conversion of the acquisition cost of securities in the portfolio

For securities expressed in currencies other than the reference currency of the Sub-Fund, the conversion of the acquisition cost is calculated based on the closing exchange rates of the day of purchase.

d) Net realised profit/(loss) on sale of investments

Net realised profits or losses made on the sales of investments are calculated according to the average cost.

Note 1 - Accounting Policies (continued)

e) Investment income

A dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes. Interest income is recorded on an accrual basis.

f) Conversion of foreign currencies

Cash at banks, other net assets and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing as at 31 December 2017. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of Operations and Changes in Net Assets under the heading net realised profit/(loss) on currencies.

g) Combined financial statements

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of Net Assets is presented in euros ("EUR").

The combined statements correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at 31 December 2017. The differences of exchange rates between 31/12/2016 and 31/12/2017 are recorded in Statement of Operations and Changes in Net Assets under the heading Conversion difference.

The Sub-Funds CompAM FUND - Balanced Portfolio, CompAM FUND - Conservative Portfolio, CompAM FUND - SB Bond, CompAM FUND - Global Equity Portfolio, CompAM FUND - Active Market Neutral and CompAM FUND - Equilibrium held investments in various sub-funds of CompAM Fund at year-end.

As at 31 December 2017, the total of cross sub-fund investments amounted to EUR 33 867 323,46 and therefore the combined net asset value at the level of the SICAV at year-end without cross-investments would amount to EUR 643 273 896,38.

h) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contract. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on forward foreign exchange contracts are recorded in the Statement of Operations and Changes in Net Assets. The unrealised profit/loss is recorded in the Statement of Net Assets.

i) Futures contracts

Futures contracts are valued at their last known traded price on the stock exchanges or regulated markets on which they are traded. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on futures contracts are recorded in the Statement of Operations and Changes in Net Assets. The unrealised profit/loss is recorded in the Statement of Net Assets.

j) Contracts for difference (CFD)

In a contract for difference, two parties commit to exchange payments, which replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference are valued at the closing price of the underlying instrument less the financing costs attributable to the relevant contract. When a contract for difference is concluded, the Sub-Fund may be required to deposit an amount ("initial margin") that corresponds to a pre-agreed percentage of the contract price in cash and/or other assets with the broker. The unrealised profit/loss is recorded in the Statement of Net Assets. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on contracts for difference are recorded in the Statements of Operations and Changes in Net Assets.

k) Option contracts

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on option contracts are recorded in the Statement of Operations and Changes in Net Assets.

CompAM FUND

Note 2 - Investment Management fees

In remuneration for its services, the Investment Manager is entitled to receive an annual management fee payable monthly and calculated on the average net assets of each Sub-Fund during the relevant month.

Note 5 - Subscription Tax (« Taxe d'abonnement »)

The Fund is governed by Luxembourg Laws.

Pursuant to the 2010 Law, the Fund is subject to an annual subscription tax (“*taxe d’abonnement*”) of 0,05% which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

Note 5 - Subscription Tax (« Taxe d'abonnement ») (continued)

A reduced tax rate of 0,01% per annum of the net assets is applicable to classes of Shares which are only sold to and held by Institutional Investors as well as to certain Sub-Funds investing exclusively in money market instruments which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

Pursuant to Article 175 (a) of the amended Law of 17 December 2010, the Net Assets invested in Undertakings for Collective Investment already subject to the “*taxe d'abonnement*” are exempt from this tax.

Note 6 - Transaction Costs

For the year ended 31 December 2017, the Fund incurred transaction costs which are included in the acquisition cost (composed of broker fees and stamp duties) relating to purchases or sales of investment securities and/or other eligible assets. Depository transaction fees are recorded in the Statement of Operations and Changes in Net Assets under the caption "Depository transaction fees".

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange contracts and other derivative contracts, transaction costs are included in the purchase or sales price and are not separately disclosed.

REMUNERATION POLICY

The management company has adopted a remuneration policy pursuant to applicable laws and regulations with the objective to ensure that its remuneration structure is in line with its interests and those of the collective investment schemes it manages and to prevent risktaking which is inconsistent with the risk profiles, rules or articles of incorporation or management regulations of the collective investment schemes it manages.

Details of the remuneration policy of the management company, including the persons in charge of determining the fixed and variable remunerations of staffs, a description of the key remuneration elements and an overview of how remuneration is determined, is available at <http://www.mdo-manco.com/about-us/legal-documents>.

With respect to the financial year ended 31 December 2017 (as of that date, the management company had a headcount of 57 employees), the total fixed and variable remuneration paid by the management company to its employees amounted to EUR 3,966,032 and to EUR 775,776 respectively. The total remuneration paid by the management company to senior management and members of its staff whose actions have a material impact on the risk profile of the collective investment schemes managed amounted to EUR 2,683,915. The remuneration committee of the management company has reviewed the implementation of the remuneration policy and has not identified any deficiency in that respect. Moreover, the remuneration policy updates performed in the course of the financial year ended 31 December 2017 were not material in nature and mainly related to organisational changes.

SECURITIES FINANCING TRANSACTIONS REGULATION

The Securities Financing Transaction Regulation (SFTR) came into force on 12 January 2016 and introduces new disclosure requirements for securities financing transactions and total return swaps.

A securities financing transaction is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement,
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction.

As at 31 December 2017, the Fund is not impacted by the Securities Financing Transactions Regulation.
