## REPORT OF THE REVISEUR D'ENTREPRISES AGREE

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of CompAM FUND (the “Fund”) and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at 31 December 2021, and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at December 31, 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### Basis for Opinion

We conducted our audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the EU Regulation N° 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “réviseur d'entreprises agréé” for the Audit of the Financial statements” section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Emphasis of matter

We draw attention to Note 14 in the financial statements describing management’s evaluation of the actual or potential impact of the effects of the military conflict between Ukraine and Russia on the entity. Our opinion is not modified in respect of this matter.

## Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "*réviseur d'entreprises agréé*" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report this fact. We have nothing to report in this regard.

## **Responsibilities of the Board of Directors of the Fund for the Financial Statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

## **Responsibilities of the "*réviseur d'entreprises agréé*" for the Audit of the Financial Statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "*réviseur d'entreprises agréé*" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation N°537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# Deloitte.

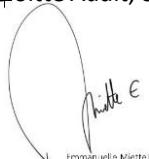

As part of an audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "*réviseur d'entreprises agréé*" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "*réviseur d'entreprises agréé*". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## **Board of Directors Report**

In hindsight, in a scenario of economic recovery from the slowdown caused by the outbreak of the Covid-19 pandemic, 2021 was characterized by strong markets for risk assets in the developed world and mixed performance for fixed income instruments in the government and/or investment grade area and emerging market exposures.

The year just passed was characterized by 1) an economic recovery from the worst moments of Covid-19 pandemic in spite of fears of new variants of the virus 2) a further push of monetary stimulus from the developed markets central banks and a continuation of strong fiscal spending around the world 3) positive equity markets driven by the cyclical/value segment in the first half and then by the growth segment, especially from the Mega Cap in technology stocks in the US, in the latter part of the year 4) volatility in China due to refinancing problems in the real estate sector and to government intervention regulating the tech industry under the aim of reaching common prosperity for all citizens 5) the issue of supply chain bottlenecks in the semiconductor industry that hindered the speed of the recovery in strategic segments such as autos and consumer discretionary items. 6) a continuous rebound in commodity prices 7) a stronger dollar in an environment of rising inflation.

Central Banks in Japan and Europe continued their quantitative easing, this time together with strong fiscal stimuli and a coordinated “recovery plan” at European level to restart the economy pushing towards a greener and more digital future for the region. Global equities had excellent performances with the MSCI Global Index in USD at +22.38% YTD. In the US most indices closed the year just passed at historical record levels. The S&P500 ended the year with a substantial +28.68%. Japan underperformed with the Nikkei 225 +6.66% YTD. Europe had an excellent year thanks to the positive performance of value/cyclical/banking stocks with the DJ Stoxx600 at +25.82% YTD. MSCI Emerging Markets had a negative year due to generalized weakness in China and a stronger USD with the index at -2.32% YTD in USD. Despite accommodative monetary policy, fixed income investments had a volatile year, especially in the latter part of 2021 when the inflation readings showed more persistent price pressures than expected and curves had a bear flattening move. The end-of-the-year numbers are in the negative territory for investment grade bonds with the Bloomberg Barclays Global Agg Corp in USD at -4.71% YTD. We observed a similar trend in EM fixed income with the Bloomberg Barclays EM Hard Currency Index at -2.57% YTD. Riskier segments of the corporate fixed income market performed better; the Bloomberg Barclays European High Yield Index ended the year at +4.21% YTD.

The 10y Treasuries ended the year at +1.512% (0.916% at the beginning of 2021 and with a high of +1.742% in March) while the 10y Bund closed at -0.177% (-0.569% at the beginning of the year and a high of -0.106% in October). Italian 10y BTPs followed the general widening in yields and ended 2021 at +1.17% (+ 0.543% at the beginning of the year).

Commodities had another positive year with the recovery in the price of oil and the Bloomberg Commodity Index had a strong second first half and +27.05% YTD. In an environment of negative real rates and stronger dollar, Gold had a lackluster year with a performance of -3.43% in USD.

## Active Emerging Credit

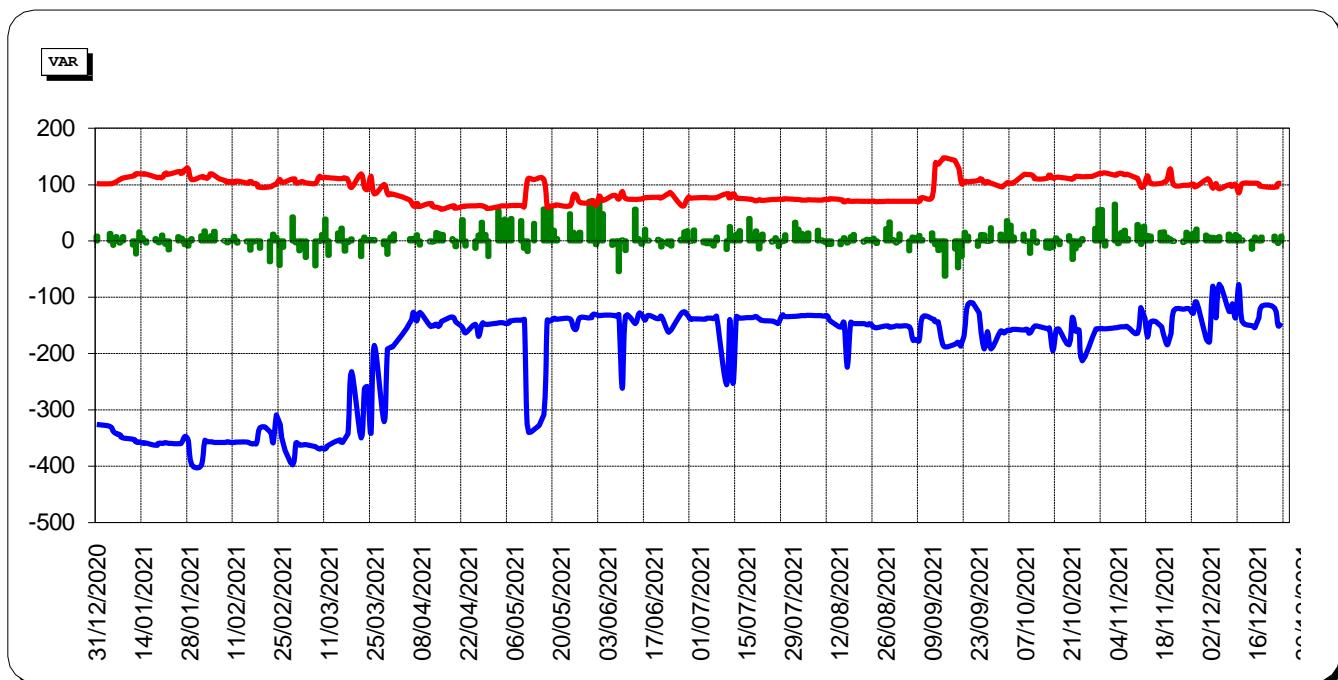

The Active Emerging Credit Sub-fund is an unconstrained and well diversified portfolio which invests primarily in fixed income securities issued by corporate based and operating in emerging economies. The Sub-fund can also invest in emerging market government bonds, as local currency government and corporate bonds and local currency denominated supranational (such us World Bank and European Investment Bank) issues.

In 2021 the Sub-fund Class M Share finished the year basically flat at -0.08%.

It was a tough year for the asset class which experienced negative returns (the BBG Barclays EM Hard Currency index returned -2.66%). Against this unfavorable backdrop, the Sub-Fund managed to avoid losses achieving its goal of capital preservation. This over-performance versus both the index and many of the Sub-fund's peers was obtained mainly thanx to both the zero exposure towards the Chinese HY corporate sector (which performed extremely poorly) and the below benchmark duration.

The average portfolio rating was between the BB and BBB brackets throughout the year, duration was kept constant at around 5 years and the countries with the main allocation where Mexico, Brazil.

The following chart reports the VAR model of the Sub-fund, showing the maximum expected daily loss (red line), gain (blue line) and the actual performance (green columns).

## **Active Global Long/Short**

In 2021, its third full year as Active Global Long/Short, the Sub-fund's Class M Share delivered a net return of +3.41%.

The Sub-fund has an investment objective with the aim of achieving above-average long-term capital growth while respecting adequate diversification. For this purpose, the Sub-fund mainly invests in the following assets: shares and other equity related instruments of companies listed on stock exchanges worldwide; fixed interest and floating-rate securities, debt securities with a minimum average rating of BBB- or claims as well as other interest-bearing investments (including money-market instruments and, in particular, convertible bonds with warrants); sight deposits and deposits repayable on demand. The Sub-fund's short exposure to the above assets is achieved via contract for differences ("CFDs") and investment in listed index derivatives. No more than 10% of the Sub-fund's assets may be invested in other UCITS eligible funds. The Active Global Long/Short Sub-fund may invest up to 15% of its net assets in American depositary receipts and/or global depositary receipts. Furthermore the Sub-fund may make considerable use of financial derivative instruments, for efficient portfolio management purposes, hedging purposes including currency hedging, and investment purposes, via active investment providing exposure to securities and money-market instruments. The range of possible derivatives includes both exchange-traded and OTC instruments and in particular call and put options, futures, forwards, warrants, contracts for difference and swaps (such as total return swaps, credit default swaps, credit spread swaps, interest-rate swaps, index swaps) on securities, interest rates and currencies as well as on other financial derivative instruments and financial indices. Based on the commitment approach, the Sub-fund's risk exposure (including the risk exposure through the use of financial derivative instruments) amounts to a maximum of 210%.

Since the beginning of the year, assets under management increased by +23.2% reaching a total Net Asset Value equal to 18.45 mln Eur at the end of 2021.

## **Active Liquid Strategy**

The Sub-fund aims to seek a consistent absolute return while placing emphasis on the preservation of capital in the medium term.

The allocation of the portfolio between the different asset classes (equities, convertible bonds, other corporate bonds, government bonds and money market instruments) may vary according to the Investment Manager's expectations.

Furthermore, the Sub-fund may make considerable use of derivative financial instruments (derivatives), or hedging purposes, in the interests of efficient portfolio management and as an active investment in securities and money market instruments and for currency hedging purposes. The range of possible derivatives includes both exchange-traded and OTC instruments and in particular call and put options, futures, forwards, warrants, contracts for difference and swaps (such as total return swaps, credit default swaps, credit spread swaps, interest-rate swaps, index swaps ) on securities, interest rates and currencies as well as on other derivative financial instruments and financial indices.

## Board of Directors Report- Outlook for 2022

Looking backwards at the year just passed, we can say that 2021 was a challenging year characterized by strong positive returns for riskier asset classes in an environment of high uncertainty due to Covid-19, accommodative central banks, government spending to support the economy, economic expansion and rising inflation fears amid higher global growth and a stronger US dollar.

Notwithstanding a deceleration in the progression of economic activity after a peak of recovery in April/May 2021, risks of a recession are mitigated by enormous stimuli, both monetary and fiscal, and better prospects for a normalization at the end of the pandemic in 2022, also thanks to vaccines and less severe impacts from Omicron variant. It is too early to call the end of the economic cycle. There is a lot of demand that could not be fulfilled this year due to supply chain issues. This is an add on for 2022 growth expectations, especially for the first half of the year.

Having said that, since the Fed's June 2021 meeting, markets have been more difficult to read with fast internal rotations and frequent repositioning. Compass believes this uncertainty will linger into 2022. On equities, the market breath has deteriorated. On a global basis, the only outperforming strategy has been an overweight in US megacap tech stocks. Outside of a handful of stocks, everything else was left behind both on a regional and sector level. Importantly, "concept stocks" that were very fashionable turned into a significant drag. The same can be said for "value" stocks. During 2021, the outperformance of the first 6 months of 2021 of the cyclical and reopening theme was completely reversed. The relative cheapness of EM, especially Asia, compared to DM makes us feel more constructive on EM equities for the coming year, especially should the commodities prices consolidate their rally and some USD resume. On fixed income, we had some widening of credit spreads in the developed world and a change in the shape of the curves. In US, bond investors expect some tightening into next year (4/5 hikes in interest rates by the Fed and the end of QE) and then a very flat expectations for increase in rates. This implies a consensus view that some intervention from the Fed will be sufficient to calm down inflation and economic growth to positive but more manageable levels. However, the market narrative supports the view that a) monetary and fiscal policy will still be at our back, b) the rising global level of debt would not be an issue given that fixed income investors will accept rising inflation as long as the Fed engineers a "soft landing". With all this information in mind, it seems markets are transitioning from a "mid cycle" environment to a "mid to late cycle" environment. Since the pandemic, this last market cycle had extremely quick "phases" and this next one should not be an exception. We could move into a more fluid and volatile risk environment. We believe that keeping short durations is still a valid strategy in the current environment.

As far as credit markets are concerned, we are still constructive on global investment grade but selectively so. European and US high yield market reached very tight levels while emerging market debt present a more diverse scenario with some areas which look decently attractive to us, although selectively, mainly based on valuations.

On GDX, we believe that current volatility in real rates does increase the uncertainty regarding the short-term outlook for the sector. Therefore, we are trimming some exposure to the segment while maintaining a constructive view long term as one of the few hedges against financial repression.

As diversification tools, we continue to have a positive outlook for Gold, the Swiss Franc, the RMB and some pro-cyclical currencies, while being neutral on the Dollar against the major developed currencies.

**Notes to the financial statements**

**Note1- Accounting Policies**

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment ("UCIs") and generally accepted accounting principles in Luxembourg.

b) Valuation of securities

- The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.

- The value of assets dealt in on any regulated market is based on the last available price.

- In the event that any assets are not listed or dealt in on any stock exchange or on any other regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or other regulated market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.

- The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other regulated markets is based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular future or forward foreign exchange contracts are traded by the Fund; provided that if a future or forward foreign exchange contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.

- Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.

- The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

- The value of any cash on hand or deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true thereof.

- All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.

c) Conversion of the acquisition cost of securities in the portfolio

For securities expressed in currencies other than the reference currency of the Sub-Fund, the conversion of the acquisition cost is calculated based on the closing exchange rates of the day of purchase.

**Notes to the financial statements (continued)****Note1- Accounting Policies (continued)**

- d) Net realised profit/(loss) on sale of investments

Net realised profits or losses made on the sales of investments are calculated according to the average cost method.

- e) Investment income

A dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes.

Interest income is recorded on an accrual basis.

- f) Conversion of foreign currencies

Cash at banks, other net assets and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing as at 31 December 2021. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of Operations and Changes in Net Assets under the heading net realised profit/(loss) on currencies.

- g) Combined financial statements

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of Net Assets is presented in euros (“EUR”).

The combined statements correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at 31 December 2021. The differences of exchange rates between 31/12/2020 and 31/12/2021 are recorded in Statement of Operations and Changes in Net Assets under the caption Conversion difference.

The Sub-Funds CompAM FUND - Active Bond Plus, CompAM FUND - Equilibrium and CompAM FUND - SB Bond held investments in various Sub-Funds of CompAM FUND at year end.

As at 31 December 2021, the total of cross Sub-Fund investments amounted to EUR 4 376 896,69 and therefore the combined net asset value at the level of the Fund at year end without cross-investments would amount to EUR 587 034 825,01.

## h) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contract. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on forward foreign exchange contracts are recorded in the Statement of Operations and Changes in Net Assets. The unrealised profit/loss is recorded in the Statement of Net Assets.

## i) Futures contracts

Futures contracts are valued at their last known traded price on the stock exchanges or regulated markets on which they are traded. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on futures contracts are recorded in the Statement of Operations and Changes in Net Assets. The unrealised profit/loss is recorded in the Statement of Net Assets.

## j) Contracts for difference (CFD)

In a contract for difference, two parties commit to exchange payments, which replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference are valued at the closing price of the underlying instrument less the financing costs attributable to the relevant contract. When a contract for difference is concluded, the Sub-Fund may be required to deposit an amount (“initial margin”) that corresponds to a pre-agreed

**Note 6 - Subscription Tax**

The Fund is governed by Luxembourg Laws.

Pursuant to the 2010 Law, the Fund is subject to an annual subscription tax ("taxe d'abonnement") of 0,05% which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

A reduced tax rate of 0,01% per annum of the Net Assets is applicable to classes of Shares which are only sold to and held by Institutional Investors as well as to certain Sub-Funds investing exclusively in money market instruments which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

Pursuant to Article 175 (a) of the amended Law of 17 December 2010, the Net Assets invested in Undertakings for Collective Investment already subject to the "taxe d'abonnement" are exempt from this tax.

**Note 7 - Transaction Costs**

For the year ended 31 December 2021, the Fund incurred transaction costs which are included in the acquisition cost (composed of broker fees and stamp duties) relating to purchases or sales of investment securities and/or other eligible assets. Depositary transaction fees are recorded in the Statement of Operations and Changes in Net Assets under the caption "Depositary transaction fees".

The caption "Other charges and taxes" is mainly composed of administration fees, legal fees, miscellaneous fees and other professional fees.

**Notes to the financial statements (continued)**

**Note 13 - Events occurred during the year**

The expansion of COVID-19 affects economic activity worldwide significantly. The Board of Directors of the Fund is monitoring the situation actively as well as its potential side effects on the Fund activities which have been minimal so far.

All the Sub-funds are managed accordingly to their investment policy and the prospectus. The published unaudited Sub-funds' net assets values and financial information are available on [www.compamfund.com](http://www.compamfund.com).

MDO Management Company SA has changed the name to Waystone Management Company (Lux) S.A. with effective date as of 3 February 2021.

On 3 April 2020 the Board of Directors of the Fund decided to put the Sub-Fund CompAM FUND - Ginga Long/Short Japan into dormancy. The Board of Directors decided to not reactivate the Sub-Fund CompAM FUND - Ginga Long/Short Japan and it has been removed from last prospectus dated September 2021.

On 22 June 2021 the Board of Directors of the Fund decided to place the Sub-Fund CompAM FUND - Adventis Pan-Africa Equity into liquidation. 80% of the liquidation proceeds have been paid to shareholders in July 2021, remaining 20% of the liquidation proceeds have been paid in November 2021, at the closure of the liquidation.

On 22 June 2021 the Board of Directors of the Fund decided to place the Sub-Fund CompAM FUND - Active Equity Selection into liquidation.

On 18 May 2021 the Sub-Fund CompAM FUND - Acoro Global Equity Long-Only was launched.

**Note 14 - Subsequent Events**

On 29 November 2021, the Board of Directors of the Fund decided to merge the Sub-Funds CompAM FUND - Active Bond Plus, CompAM FUND - European High Yield Bond and CompAM FUND - Equilibrium (the Absorbed Sub-Funds) into CompAM - Active European Credit (the Absorbing Sub-Fund). Effective Date of the Merger is 14 January 2022.

Rising tensions in Eastern Europe led to unprecedented worsening of geopolitical risk affecting the whole area as of year-end 2021 with still unpredictable consequences.

In this respect, as at 31 December 2021, the exposure for Sub fund CompAM FUND - Active Emerging Credit was 10% and for CompAM FUND - Active Dollar Bond was 8%. However, it should also be noted that above mentioned exposures have been then progressively reduced before the coming into force of the sanctions and, as at April 2022, exposure is the following: 4.2% for CompAM-Active Emerging Credit and 2.44% for CompAM FUND - Active Dollar Bond.

Board of Directors is closely monitoring Fund situation and exposure noting, specifically, the following aspects:

- Overall assets exposure and area country risk has been consistently reduced since 31 December 2021;
- Fund exposure to Russian market is low and does not raise liquidity risk; pricing devaluations have been promptly carried out according to secondary market levels and, moreover, an additional more conservative mark down applied to take account of liquidity disruption of investment lines;

In April 2022, the Fund has notified to the Luxembourg Ministry of Finances and copy for knowledge to CSSF the holding of two listed securities (XS2393688598 and US46630Q2021) issued by Russian banking institutions which, following the fifth package of financial sanctions adopted by the EU Council as of 8 April 2022, have been subject to new restrictive measures and suspended from listing by their respective stock exchanges; in that respect anyway, no suspicion of money laundering or terrorism financing or an associated predicate offence has been identified.

**Notes to the financial statements (continued)**

**Note 14 - Subsequent Events (continued)**

Board of Directors is keeping updated with evolution of above geopolitical situation to promptly take further adequate measures.

## **REMUNERATION POLICY**

The management company has adopted a remuneration policy pursuant to applicable laws and regulations with the objective to ensure that its remuneration structure is in line with its interests and those of the collective investment schemes it manages and to prevent risktaking which is inconsistent with the risk profiles, rules or articles of incorporation or management regulations of the collective investment schemes it manages.

Details of the remuneration policy of the management company, including the persons in charge of determining the fixed and variable remunerations of staff, a description of the key remuneration elements and an overview of how remuneration is determined, is available at <https://www.waystone.com/waystone-policies/>.

With respect to the financial year ended 31 December 2021 (as of that date, the management company had a headcount of 72 employees), the total fixed and variable remuneration paid by the management company to its employees amounted to EUR 6 001 650 and to EUR 768 882 respectively. The total remuneration paid by the management company to senior management and members of its staff whose actions have a material impact on the risk profile of the collective investment schemes managed amounted to EUR 3 383 679.

The remuneration committee of the management company has reviewed the implementation of the remuneration policy and has not identified any deficiency in that respect. Moreover, the current version of the remuneration policy was updated and approved by the Board of Directors of the Management Company in the course of the financial year ended 31 December 2021, the current version being dated February 2021.

## **SECURITIES FINANCING TRANSACTIONS REGULATION**

The Securities Financing Transaction Regulation (SFTR) 2015/2365 on transparency of securities financing transactions and of reuse came into force on 12 January 2016 and introduces new disclosure requirements for securities financing transactions and total return swaps.

A securities financing transaction is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement,
- securities or commodities lending and securities or commodities borrowing,
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction.

As at 31 December 2021, the Fund is not impacted by the Securities Financing Transactions Regulation.

## **GLOBAL EXPOSURE**

As part of this risk management process, the global exposure of each Sub-Fund of the Fund is measured and controlled using the commitment approach.

## **SUSTAINABLE FINANCE DISCLOSURE REGULATION (SFDR)**

Pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the “SFDR”), the Fund is required to disclose the manner in which Sustainability Risks are integrated into the investment decision and the results of the assessment of the likely impacts of Sustainability Risks on the returns of the Fund.

---

## **Appendix I (UNAUDITED SECTION)**

---

**(continued)**

### **SUSTAINABLE FINANCE DISCLOSURE REGULATION (SFDR)(CONTINUED)**

The Fund does not actively promote environmental or social characteristics and does not maximize portfolio alignment with Sustainability Factors; however it remains exposed to Sustainability Risks. Such Sustainability Risks will be integrated into the investment decision making and risk monitoring to the extent that they represent a potential or actual material risks and/or opportunities to maximizing the long-term risk-adjusted returns.

The impacts following the occurrence of a Sustainability Risk may be numerous and vary depending on the specific risk, region and asset class. In general, where a Sustainability Risk occurs in respect of an asset, there will be a negative impact on, or entire loss of, its value.

Such assessment of the likely impact must therefore be conducted at Sub-Fund level, further detail and specific information is given in Part B of the Prospectus, in each relevant Sub-Fund's Appendix.

For the time being, except as may be otherwise disclosed at a later stage on its website, the Management Company does not consider adverse impacts of investment decisions on Sustainability Factors. The main reason is actually the lack of information and data available to adequately assess such principal adverse impacts.

Notwithstanding the above, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities, which are determined by the Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, as amended from time to time.
