CompAM FUND

Organisation and administration

*As part of the acquisition of Degroof Petercam by CA Indosuez Wealth Management, a subsidiary of Crédit Agricole S.A., a series of restructurings carried out within the group, including the merger of CA Indosuez Wealth (Asset Management) with Degroof Petercam Asset Services S.A. on June 1, 2025.

The merger was structured in such a way that Degroof Petercam Asset Services S.A. absorbed CA Indosuez Wealth (Asset Management) and, at the same time, changed its name to CA Indosuez Fund Solutions S.A..

CompAM FUND

Report of the Board of Directors

Looking back at 2025, annual performance data highlight a broadly constructive year across both developed and emerging equity markets, with equities clearly outperforming fixed income. Among developed markets, performance was robust and relatively well distributed. The DAX led major developed indices with a gain of +23.01%, followed by the MSCI World at +21.63% and the Nasdaq at +21.17%, confirming continued strength in global large caps and technology. The S&P 500 delivered a solid +17.86%, slightly lagging broader global benchmarks, suggesting that performance was not exclusively driven by US mega-caps. European equities were particularly strong, with the DJ Stoxx Europe 600 up +20.65% and Italy's FTSE MIB standing out at +37.37%, reflecting a powerful re-rating of select Southern European markets. Japan also posted an impressive +28.65% (Nikkei 225), confirming sustained investor interest in structural reform and corporate governance improvements. Emerging Markets outperformed most developed peers, with MSCI EM up +34.32%, indicating renewed capital flows into higher-growth regions and improved macro stability relative to prior years.

In fixed income, returns were positive but more modest. Global Corporate Bonds (USD) rose +8.17%, while EUR Corporate Bonds gained +1.25%, highlighting currency and spread dynamics. High Yield performed comparatively well: US HY returned +8.62% and European HY +4.92%, reflecting resilient credit fundamentals and limited default pressures. Emerging Markets Hard Currency bonds delivered +12.16%, benefiting from spread compression and improved risk appetite.

Commodities had a strong year overall. The CRB Index rose, driven by a strong run in precious metals. Gold had an exceptional year, benefiting from increased demand as a hedge against inflation and geopolitical risks. WTI crude oil prices lost ground despite supply constraints and continued geopolitical disruptions. Industrial metals showed mixed performance. The USD weakened notably against the EUR, reversing last year's appreciation.

Index	Performance	Currency	Description
MSCI World	+21.63%	USD	Global Equities DM

Active Emerging Credit

In 2025, the Sub-fund's Class M Share delivered a net return of +6.73%.

The Active Emerging Credit Sub-fund is an unconstrained and well diversified portfolio which invests primarily in fixed income securities issued by corporate based and operating in emerging economies. The Sub-fund can also invest in emerging market government bonds, as local currency government and corporate bonds and local currency denominated supranational (such as World Bank and European Investment Bank) issues.

The Active Emerging Credit Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Active Emerging Credit Sub-Fund's portfolio, subject to the stated specific investment policy and restrictions.

Since the beginning of the year, assets under management decreased by EUR 9.94 mln reaching a total Net Asset Value equal to EUR 51.86 mln at the end of 2025.

Active Liquid Strategy

The Sub-fund aims to seek a consistent absolute return while placing emphasis on the preservation of capital in the medium term.

The allocation of the portfolio between the different asset classes (equities, convertible bonds, other corporate bonds, government bonds and money market instruments) may vary according to the Investment Manager's expectations.

Furthermore, the Sub-fund may make considerable use of derivative financial instruments (derivatives), or hedging purposes, in the interests of efficient portfolio management and as an active investment in securities and money market instruments and for currency hedging purposes. The range of possible derivatives includes both exchange-traded and OTC instruments and in particular call and put options, futures, forwards, warrants, contracts for difference and swaps (such as total return swaps, credit default swaps, credit spread swaps, interest-rate swaps, index swaps) on securities, interest rates and currencies as well as on other derivative financial instruments and financial indices.

The Sub-fund's total risk exposure (including the risk exposure through using financial derivatives) amounts to a maximum of 200%. The Sub-fund will seek to have an exposure to equities up to 105%.

Since the beginning of the year, assets under management increased by EUR 7.26 mln reaching a total Net Asset Value equal to EUR 17.40 mln at the end of 2025.

In 2025, the Sub-fund Class M Share gained +9.05%.

The Investment Manager relies on Kaleidoscope as Investment Adviser for the management of the Sub-fund.

CompAM FUND

Active European Credit

The Active European Credit Sub-fund is an unconstrained and diversified portfolio, investing mainly in debt securities of issuers domiciled in or deriving a significant part of their revenue from Europe.

The Active European Credit Sub-Fund will invest mainly in bonds or other fixed income transferable securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB) domiciled in or deriving a significant part of their revenues from Europe.

The Active European Credit Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Active European Credit Sub-Fund's portfolio, subject to the stated specific investment policy and restrictions.

During the year, the Sub-fund delivered a positive return of +3.60% (Class M Share).

In 2025, the sub-fund's AuM went from EUR 132.25 mln to EUR 147.51 mln, increasing by EUR 15.26 mln.

Active Dollar Bond

The portfolio of the Sub-fund, denominated in dollars, has been invested mainly in corporate bonds, predominantly in emerging markets and in European high yield.

Investments in bonds shall be made without limitation in duration and rating, as for example in variable or fixed rate domestic bonds or Euro-bonds, convertible bonds, warrant bonds, certificates of deposit, Treasury bonds, zero coupons, strips or any other transferable securities.

Investment shall be made without any geographical or economic restriction.

The Active Dollar Bond Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Active Dollar Bond Sub-Fund's portfolio, subject to the stated specific investment policy and restrictions.

During the year, the Sub-fund delivered a positive return of +7.69% (Class M Share).

In 2025, the sub-fund's AuM went from USD 42.22 mln to USD 37.94 mln, decreasing by USD 4.29 mln.

Global Diversified

The Sub-fund invests a percentage between 20% and 100% of its assets in debt securities issued by corporations, by countries' treasuries and/or government agencies and/or by supranational organizations (such as EBRD or World Bank or the EIB) of any country of issuance even Emerging Markets, even low and not rated. More specifically, the Global Diversified Sub-fund may invest up to 10% of its assets in not rated bonds. The investment of the Global Diversified Sub-fund in not rated together with low rated bonds will in no case exceed 30% of its assets. In addition the Global Diversified Sub-fund may invest up to 40% in UCITS and/or other UCIs. The Global Diversified Sub-fund may also invest up to 50% of its net assets in listed equities or equities related securities worldwide (such as certificates representative of equities or equity indices). The Global Diversified Sub-fund may, on an exceptional and temporary basis, hold up to 100% of its assets in cash and cash equivalents.

In 2025, the Sub-fund returned a positive performance of +1.91% for the Class A Share.

Asset Value equal to EUR 14.88 mln at the end of 2025.

The Investment Manager relies on Amaranto Investment SIM S.p.A. as Investment Adviser for the management of the Sub-fund.

Efficient Global Equities

The Efficient Global Equities Sub-Fund aims to obtain long-term gains and will seek to have exposure to global developed market equities that will range between 95% and 100% of its net assets by using financial derivative instruments listed in regulated markets domiciled in developed countries. For cash management purposes, the main part of the net assets will be invested in bonds issued by governments of the Euro Zone member countries, the European Union or the European Investment Bank with residual maturity up to twenty-four (24) months and must have a rating from at least one of the following rating agencies: BB (S&P, Fitch) or Ba2 (Moody's). The Sub-Fund will maintain a currency exposure to the Euro of at least 95% of its net assets, using hedging techniques where necessary. The Efficient Global Equities Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Efficient Global Equities Sub-Fund's portfolio, subject to the stated specific investment policy and restrictions.

During 2025, the Sub-fund delivered a positive performance of +15.01% (Class M Shares) for the year.

AUM stood at EUR 29.59 million as of year-end.

CompAM FUND

Report of the Board of Directors

Board of Directors Report- Outlook for 2026

With inflation receding and economic activity remaining low, central banks shifted from a “wait and see” approach to cutting interest rates. This presents an opportunity to invest in bonds (government and investment grade at or above A rating) with maturities of 3-5 years. High-quality bonds (both government and corporate) and specific sectors (senior financials and selected emerging markets exposure) with medium durations (despite trading at low spreads on an historical context) still provide investors with enough total yield compensation to wait for better conditions.

Regarding corporate credit, selective investments in riskier bonds (BBB being ideal) are possible but valuations look stretched. The nominal yields (or “carry”) are still high enough to absorb potential losses from further inflation pressures, although credit spreads trade at close to historical lows. After the normalization of short-term interest rates, we now anticipate a normalization of the yield curve with a steepening in the 2-year to 10-year segment. Therefore, we keep recommending having credit and duration risks in check. At the margin, Compass prefers allocating capital to real return fixed income strategies such as inflation linked bonds.

The outlook for equities is very challenging to predict, but it is reasonable to adopt a less constructive stance. Tariff announcements by the US Administration brought high uncertainty about which scenario will unfold in the coming months and what new world order we will witness in the years to come. Sentiment and retail participation in US are on high levels. This could be followed by some return of volatility in the coming months. We will strive to capitalize on the opportunities if they will arise. In the meantime, we recommend a gradual shift in allocation towards equity risk favouring active investing at the expense of passive instruments carrying significant concentration risks on the “winners” of current cycle (US, Mag7 and AI stocks).

Maintaining prudent exposure to commodities and miners is advisable. The rationale is that geopolitical events indicate that markets cannot endure excessive stress from tighter monetary policies. Thus, we expect an era of financial repression to continue for years. Recognizing that markets move in cycles, a structural long position in gold (currently averaging 5% of portfolios, due to rebalancing) is one of the few viable strategies. In the last few months, this positioning has become a more consensual one and we believe some consolidation is due. Having said that, this would not alter the benefits of investing in real assets in an environment of global currency debasement. We are also positive on industrial commodities linked to the energy transition, particularly copper.

In terms of currencies, Compass has adopted a neutral stance on the EUR/USD exchange rate. In our minds, the Short USD trade against the EURO is on an extended level and positioning of financial markets looks extreme. Some rebound in the USD currency is possible to clear up the market. Should that happen, we would use the rebound to lighten some more USD exposure.

While we are looking forward to continue our efforts in 2025, we wish to thank here all the personnel at Compass Asset Management S.A., CA Indosuez Fund Solutions S.A., CACEIS Bank Luxembourg branch, Waystone Management Company (Lux) SA, PricewaterhouseCoopers Assurance, société cooperative, Arendt & Medernach S.A. and, of course, all the distributors and investors in the Fund for their support and cooperation.

Audit report

To the Shareholders of
CompAM FUND

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of CompAM FUND (the “Fund”) and of each of its sub-funds as at 31 December 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2025;
- the combined statement of operations and changes in net assets for the Fund and the statement of operations and changes in net assets for each of the sub-funds for the year then ended;
- the securities portfolio as at 31 December 2025;
- the notes to the financial statements - schedule of derivative instruments as at 31 December 2025; and
- the other notes to the financial statements, which include a summary of significant accounting policies.

PricewaterhouseCoopers Assurance, Société coopérative,
2 rue Gerhard Mercator, L-2182 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;
- conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

CompAM FUND

Other notes to the financial statements

1 - General information

CompAM FUND (the "Fund") is an investment company organised as a "Société d'Investissement à Capital Variable" ("SICAV") under the laws of the Grand Duchy of Luxembourg.

The Fund incorporated on February 28, 2003 in Luxembourg for an unlimited period is governed by the amended Luxembourg Law of 10 August 1915 on commercial companies and by the Part I of the amended Law of December 17, 2010 on Undertakings for Collective Investment (the "2010 Law").

The management of the Fund has been delegated to Waystone Management Company (Lux) S.A., a société anonyme, incorporated and subject to the laws of the Grand-Duchy of Luxembourg and duly authorized by the CSSF as a management company within the meaning of Chapter 15 of the 2010 Law.

The Articles of Incorporation were published in the Mémorial C, Recueil des Sociétés et Associations (the "Mémorial") on 4 April 2003, were last modified on September 15, 2015, and published in the "Mémorial" on November 26, 2015.

As at December 31, 2025, the following Sub-Funds are open for subscription:

CompAM FUND - Active Emerging Credit expressed in EUR
CompAM FUND - Active Liquid Strategy expressed in EUR
CompAM FUND - Active European Credit expressed in EUR
CompAM FUND - Active Dollar Bond expressed in USD
CompAM FUND - Global Diversified expressed in EUR
CompAM FUND - Efficient Global Equities expressed in EUR

For each Sub-Fund, the Fund is entitled to issue Shares of different classes, as described in more details in the Prospectus. For the time being, seventeen classes of ordinary Shares are offered by the Fund, i.e. Class A Shares, Class B Shares, Class C Shares, Class C USD Shares, Class D Shares, Class E Shares, Class I Shares, Class I USD Shares, Class L USD Shares, Class M Shares, Class M CHF Hedged, Class M USD Shares, Class Q Shares, Class S Shares, Class S CHF Hedged, Class Y Shares, Class Z Shares.

Investment in Class A, Class A (USD), Class B, Class C (USD), Class D, Class E, Class I, Class I (USD), Class L (USD), Class M, Class M (CHF hedged), Class M (USD), Class S and Class S (CHF hedged) is open to any investors, including retail investors.

The Class Q is open to any type of investors, including retail investors, who purchase and sell shares through the ATFund Market.

The Class Y is reserved to other Sub-Funds of the Fund for cross Sub-Fund Investments.

The Class Z is reserved to the Investment Manager, its employees and their relatives and requires the prior approval of the Board of Directors of the Fund. In addition to the Investment Manager, its employees and their relatives, the Board of Directors can also allow other types of investors at its discretion.

The difference between the different classes of ordinary Shares relates to the dividend payment, minimum investment, investment management fee, performance fee and the non-base currency and hedging impact.

Certain classes of ordinary Shares may not be offered for subscription by the Fund's Placing Agents in certain countries where the Fund is registered for public distribution. In such case, the investors wishing to subscribe for a class of Shares which is not offered for subscription by the Placing Agent appointed in their country of residence may apply to the Sub-Registrar and Transfer Agent in Luxembourg in order to subscribe for the relevant class of Shares.

The Fund's financial year begins on January 1 and ends on December 31 of the same year.

Copies of the agreements, the Articles of Incorporation of the Fund, the current Prospectus, the Key Investor Information Document (KIID), the schedule of each investment portfolio activity for the year, and the latest financial reports may be obtained free of charge during normal office hours at the registered office of the Fund in Luxembourg.

2 - Principal accounting policies

2.1 - Presentation of the financial statements

The Financial Statements of CompAM FUND have been prepared on a going concern basis of accounting in accordance with the generally accepted legal and regulatory requirements and accounting principles in Luxembourg based on official NAV per share as at December 31, 2025 for all Sub-Funds.

The significant accounting policies used by the SICAV are as follows:

CompAM FUND

Other notes to the financial statements

2 - Principal accounting policies

2.2 - Portfolio valuation

a) Valuation of investments

- The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.
- The value of assets dealt in on any regulated market is based on the last available price.
- In the event that any assets are not listed or dealt in on any stock exchange or on any other regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or other regulated market as aforesaid, the price as determined pursuant to sub-paragraphs here above is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Fund.
- The liquidating value of futures or forward foreign exchange contracts and warrants traded on exchanges or on other regulated markets is based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular future or forward foreign exchange contracts are traded by the Fund; provided that if a future or forward foreign exchange contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Fund may deem fair and reasonable.
- Units or shares of open-ended UCI are valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the Fund on a fair and equitable basis. Units or shares of a closed-ended UCI are valued at their last available stock market value.
- The market value of the contracts for difference is determined by the traded price on the exchange on which the underlying securities or assets are traded or admitted for trading less the financing costs attributable to the relevant contract. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.
- The value of any cash on hand or deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true thereof.
- All other securities and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the Fund or a committee appointed to that effect by the Board of Directors of the Fund.

b) Conversion of the acquisition cost of securities in portfolio

For securities expressed in currencies other than the reference currency of the Sub-Fund, the conversion of the acquisition cost is calculated based on the closing exchange rates of the day of purchase.

2.3 - Net realised profit or loss on sales of investments

Net realised profit/loss made on the sales of investments are calculated according to the average cost method.

2.4 - Foreign currency translation

Cash at banks, other net assets and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing as at December 31, 2025.

Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the Statement of operations and changes in net assets under the heading net realised profit/(loss) on currencies.

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of net assets is presented in euros ("EUR").

The combined statements of Net Assets correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at December 31, 2025.

At the date of the financial statements, the exchange rate used for the combined financial statements is the following:

1 EUR = 1,704.77595	ARS	1 EUR = 1.7612	AUD	1 EUR = 6.4357	BRL
1 EUR = 1.6099	CAD	1 EUR = 0.9305	CHF	1 EUR = 4,436.62645	COP
1 EUR = 7.469	DKK	1 EUR = 0.87315	GBP	1 EUR = 9.1413	HKD
1 EUR = 19,583.9545	IDR	1 EUR = 184.08915	JPY	1 EUR = 1,691.854	KRW
1 EUR = 21.11605	MXN	1 EUR = 2.2037	NLG	1 EUR = 11.8465	NOK
1 EUR = 92.89915	RUB	1 EUR = 1.51035	SGD	1 EUR = 50.4591	TRY
1 EUR = 1.17445	USD	1 EUR = 19.4606	ZAR		

CompAM FUND

Other notes to the financial statements

2 - Principal accounting policies

2.5 - Combined financial statements

The accounting records of each Sub-Fund are kept in the reference currency of the Sub-Fund and the Combined Statement of net assets is presented in euros ("EUR").

The combined statements correspond to the sum of the statements of each Sub-Fund which, where applicable, are converted in EUR with the exchange rate as at December 31, 2025.

The differences of exchange rates between December 31, 2024 and December 31, 2025 are recorded in Statement of operations and changes in net assets under the caption Revaluation difference.

The figures presented in the financial statements tables may in some cases show non-significant differences due to the use of rounding. These differences do not affect in any way the fair view of the financial statements of the Fund.

As at closing date, the total of cross Sub-Funds' investments amounts to EUR 6,900,906.39 and therefore total consolidated net asset value at the level of the Fund at the end of the year without cross-investments would amount to EUR 459,604,450.93.

2.6 - Valuation of options contracts

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on option contracts are recorded in the Statement of operations and changes in net assets.

Financial derivative instruments, in particular options and futures, including equivalent cash-settled instruments, dealt in on a Regulated Market or on an Other Regulated Market, and/or financial derivative instruments dealt in over-the-counter ("OTC derivatives").

2.7 - Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contract. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on forward foreign exchange contracts are recorded in the Statement of operations and changes in net assets. The unrealised profit/loss is recorded in the Statement of net assets.

2.8 - Valuation of futures contracts

Futures contracts are valued at their last known traded price on the stock exchanges or regulated markets on which they are traded. Net realised profit / (loss) and change in unrealised appreciation / (depreciation) on futures contracts are recorded in the Statement of operations and changes in net assets. The unrealised profit/loss is recorded in the Statement of net assets.

2.9 - Dividend and interest income

A dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes.

Interest income is recorded on an accrual basis.

2.10 - Transaction fees

For the year ended December 31, 2025, the Fund incurred transaction costs which are included in the acquisition cost (composed of broker fees and stamp duties) relating to purchases or sales of investment securities and/or other eligible assets. Depository transaction fees are recorded in the Statement of operations and changes in net assets under the caption "Depository transaction fees".

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange contracts and other derivative contracts, transaction costs are included in the purchase or sales price and are not separately disclosed.

The transaction costs recorded by the Fund for the financial period from January 1, 2025 until December 31, 2025 are presented in the Statement of operations and changes in net assets.

CompAM FUND

Other notes to the financial statements

3 - Management Company fees

The Management Company is entitled to receive an annual Management Company fee payable quarterly and calculated on the quarterly average Net Assets of the respective Sub-Fund of the previous quarter as follows:

- 0.07% per year for Total Net Assets up to €250 million;
- 0.06% per year for Total Net Assets between €250 million and €500 million;
- 0.05% per year for Total Net Assets between €500 million and €1 billion;
- 0.04% per year for Total Net Assets above €1 billion.

The Management Company is entitled to a minimum fee of €120,000 per year.

Moreover, for the compliance monitoring services provided, the Management Company will be entitled to an annual fee of €1,000.00/Sub-Fund, subject to a fixed based fee of €20,000.00 per year.

In addition, the Management Company shall be entitled to receive from the Fund reimbursement for its reasonable cash disbursements, included but not limited to reasonable out-of-pocket expenses incurred in the performance of its duties.

4 - Investment Management fees

A shareholder service fee per annum for each Sub-Fund is payable to the Investment Manager in compensation of the services related to addressing shareholders' queries regarding the investment strategy and other information related to the relevant Sub-Fund. The shareholder service fee is payable out of the assets of the relevant Sub-Fund monthly in arrears and calculated as a percentage of the average Net Asset Value per class of Shares which have been subscribed. The shareholder service fee are available in the Prospectus.

With regard to the investments within the same umbrella structure, there is no duplication of management/subscription or repurchase fees.

As a remuneration for its advisory services, the Investment Adviser is paid an investment advisory fee out of the investment management fee received by the Investment Manager.

In remuneration for its services, the Investment Manager is entitled to receive an annual investment management fee payable monthly and calculated on the average net assets of each Sub-Fund during the relevant month.

As at December 31, 2025 the management fees are described below:

Sub-funds	Share class	ISIN	Management fee (effective rate)

Other notes to the financial statements

5 - Performance fees

In addition, for each Performance Period, the Investment Manager is entitled to receive out of the assets of each Share Class of the below-mentioned Sub-Funds a performance Fee equal to a rate of the increase in the Net Asset Value per Share above the Highwatermark as follow :
Active Emerging Credit, Active European Credit Sub-Funds : 12%
Active Liquid Strategy and Global Diversified Sub-Funds : 15%

The highwatermark (the "Highwatermark") is a performance measure that is used to ensure that a Performance Fee is only charged where the Net Asset Value has increased over the previous Highwatermark during the performance reference period (as defined below). The first Highwatermark shall be the subscription price at the time of the issue of the relevant Share Class.

The Performance Reference Period is the time horizon over which the Performance is measured and compared with that of the Highwatermark. The Performance Reference Period is equal to the course of the life of the Sub-Fund and does not reset.

The Performance Fee is payable if the Net Asset Value exceeds the Highwatermark. Such Net Asset Value becomes the new Highwatermark.

In addition, for each Performance Period, the Investment Manager is entitled to receive out of the assets of each Share Class of the Active Dollar Bond Sub-Fund a Performance Fee equal to 12% of the increase, calculated net of all cost but before deduction of any Performance Fee above the High-on-High (HoH) (as defined below), in the Net Asset Value of each Share of each Class outstanding in respect of each Performance Period (as defined below).

The high-on-high (the "High-on-High") is a performance measure that is used to ensure that a Performance Fee is only charged where the Net Asset Value has increased over the previous High-on-High and that only resets if all losses over the Performance Reference Period (as defined below) have been recovered. The first High-on High shall be the respective Net Asset Value per Share of each Class at the launch date.

The calculation of Performance Fee is based on the High-on-High (HoH) principle with a daily performance fee calculation.

The frequency of crystallization is yearly and the Performance Fee is payable on an annual basis on the last Business Day of the financial year (the "Performance Period").

The performance reference period is the time horizon over which the Performance is measured and compared with that of the High-on-High at the end of which the mechanism for the compensation for past underperformance (or negative performance) can be reset (the "Performance Reference Period"). The Performance Reference Period is equal to a maximum of five (5) years on a rolling basis, meaning that the performance is measured against the High-on-High that resets when a payment of performance fees has been recorded or all losses over the Performance Reference Period have been recovered.

Any underperformance or loss previously incurred during the Performance Reference Period should be recovered before a performance fee becomes payable.

The Performance Fee is payable if the Net Asset Value exceeds the High-on-High. Such Net Asset Value becomes the new High-on-High.

The High-on-High is not reset on those Dealing Days at which the Performance Fee crystallises following the redemption or switch of Shares.

The calculation of performance fees is based on the Net Asset Value calculated net of all costs but before deduction of any Performance Fee.

The highwatermark (the "Highwatermark") is a performance measure that is used to ensure that a Performance Fee is only charged where the Net Asset Value has increased over the previous Highwatermark during the performance reference period (as defined below). The first Highwatermark shall be the subscription price at the time of the issue of the relevant Share Class.

CompAM FUND

Other notes to the financial statements

5 - Performance fees

The Performance Fee is crystallised daily and payable on the last Business Day of every second month being respectively (February, April, June, August, October and December for all the Share Classes that levy Performance Fee.

For all Sub-Funds :

The calculation of Performance Fee is based on the Highwatermark principle with a daily performance fee calculation.

The Performance Fee is calculated daily and, if any, accrued on each Valuation Day.

The Performance Fee is crystallised daily and payable on the last Business Day of every second month being respectively February, April, June, August, October and December for all the Share Classes that levy Performance Fee.

The performance fee will be calculated considering the number of Shares of a given Class in issue on the relevant Valuation Day, adjusted in case of subscriptions and redemptions.

In addition if, before the end of the Performance Period, (i) a Shareholder redeems or switches all or part of their Shares, (ii) the dissolution or liquidation of the Fund intervenes, (iii) the closure of the Sub-Funds and/or classes intervenes or (iv) the merger of the Fund or of the Sub-Funds intervenes, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day respectively of the redemption or switch, of the dissolution or liquidation of the Fund, the closure of the Sub-Funds and/or classes or the merger of the Fund or of the Sub-Funds and will then become payable.

However, in case the Fund or the s Sub-Funds merge with a newly established new UCITS or new Sub-Fund with no performance history and having an investment policy not substantially different from that of the Sub-Funds, the Performance Period will continue to apply in the new UCITS or new Sub-Fund.

It should be noted that, as the Net Asset Value per Share may differ between Share Classes, separate Performance Fee calculations will be carried out for separate Share Classes within the Fund, which therefore may become subject to different amounts of Performance Fee. A Share Class Performance Fee is accrued on each Business Day, on the basis of the difference between the Net Asset Value per Share on the preceding Business Day (before deduction of any provision for the Performance Fee) and the High-on-High, multiplied by the number of Shares in issue on that Business Day.

In application of the ESMA Guidelines on performance fees (ESMA34-39-992) and Circular CSSF 20/764, the table below displays the actual amount of performance fees charged by each relevant Class of units and the percentage of these fees based on the Class of units Net Asset Value ("NAV"). Only the Classes of units for which performance fees have been charged are shown below.

Sub-funds	Class of units	ISIN Code	Sub-fund currency	Amount of performance fees as at 31/12/2025 (in Sub-fund currency)	Average NAV of the Class of units (in Sub-fund currency)	% in the Class of units average NAV

6 - Depositary fees

The Depositary is entitled to charge out of the assets of each Sub-Fund, a depositary fee payable at the end of each quarter at a maximum annual rate of 2.75 basis points of the total net assets of each Sub-Fund. Such fee is payable quarterly in arrears and calculated on the average net assets of each Sub-Fund for the relevant quarter.

In addition, it is entitled transaction fees ranging from EUR 15.00 to EUR 250.00 per investment transaction and increased by any VAT payable thereon.

The depositary fee does not cover transaction, custody or potential out of pocket fees charged by (prime) brokers, sub-custodians or platforms, if any.

In addition the Depositary is entitled to be reimbursed by the Fund for its reasonable out-of-pocket expenses and disbursements and for the charges of any correspondents.

CompAM FUND

Other notes to the financial statements

7 - Administration fees

The Central Administrative Agent is entitled to receive:

- an administrative fee payable at the end of each quarter at a maximum annual rate of 4.5 basis points of the total net assets of each Sub-Fund, plus value added tax if applicable;
- a registrar and transfer agent fee consisting in :
a fee EUR 1,500.00 per annum and per Sub-Fund, payable quarterly in arrears, plus
a fee of EUR 25.00 per subscription / redemption / conversion request, and
a maximum fee of EUR 110.00 per registry entry for AML / KYC monitoring.

In addition, the Central Administrative Agent is also entitled to receive:

- starting with the ninth active share class in any Sub-Fund, an annual flat-rate fee of EUR 2,000.00 per active share class in any Sub-Fund concerned chargeable to the relevant Sub-Fund, to be split among all the active share classes of the Sub-Fund and pro-ratized to the assets of each share class concerned;
- a maximum annual fee of EUR 3,500.00 per Sub-fund, payable quarterly in arrears for the calculation of the performance fee.

In addition the Paying, Administrative, Registrar and Transfer Agent is entitled to be reimbursed by the Fund for its reasonable out-of-pocket expenses and disbursements and for the charges of any correspondents.

8 - Subscription tax ("Taxe d'abonnement")

The Fund is governed by Luxembourg Laws.

Pursuant to the 2010 Law, the Fund is subject to an annual subscription tax ("taxe d'abonnement") of 0,05% which is payable quarterly and calculated on the basis of the Net Assets of each Sub-Fund on the last day of each quarter.

A reduced tax rate of 0.01% per annum of the net assets will be applicable to:

- undertakings whose exclusive object is the collective investment in Money Market Instruments and the placing of deposits with credit institutions;
- undertakings whose exclusive object is the collective investment in deposits with credit institutions; and
- individual compartments of UCIs with multiple compartments referred to in the UCI Law, as well as for individual classes of securities issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

Pursuant to Article 175 (a) of the amended Law of December 17, 2010, the Net Assets invested in Undertakings for Collective Investment already subject to the "taxe d'abonnement" are exempt from this tax.

9 - Dividend distributions

During the period, the Fund has paid the following dividends:

Sub-funds	Share class	ISIN	Ccy	Dividend	Ex-date	Payment date
CompAM FUND - Active Emerging Credit	D	LU0520491647	EUR	0.437	16/01/25	23/01/25

CompAM FUND

Other notes to the financial statements

12 - Changes in the composition of securities portfolio

A copy of the changes in the securities portfolio for the year ended December 31, 2025 is available free of charge at the registered office of the Fund.

13 - Significant events during the year

For the Global Diversified Sub-Fund, the agreement with Amaranto Investment SIM SpA as investment advisor ended on 28 February 2025.

Perspectives on the Russian-Ukrainian conflict:

The Russian-Ukrainian conflict started in February 2022 still continues with military support of third countries.

Investors must continue to take into account the negative economic consequences of this war when making investment choices.

Although energy prices have fallen since the first years of the conflict, the European economy remains fragile due to its overdependence on oil and gas. Further rises in commodity prices cannot therefore be ruled out, with the attendant risk of further pressure on inflation and interest rates.

Central banks raised interest rates sharply in 2023 to combat the risk of inflation. While monetary tightening is all but complete, investors must continue to assess the risk that rates may not be cut as quickly as the markets had hoped, should a resurgence of inflation occur. This would clearly be a risk for financial markets as a whole.

Russia has isolated itself from Western economies. The negative effects of economic sanctions on Russia have had, however, also consequences on EU countries that are recording weak macroeconomic performances. In fact, Russian oil exports have been redirected towards China and India, which are taking advantage of the situation to obtain oil at reduced prices.

At present, it is not possible to envisage for Russia any regain to its former position in equity or bond indices. This war will leave its mark for a long time to come, and it remains difficult to predict a shorter medium-term scenario. The informed investor will take all these uncertainties into account when considering his investments.

Overall asset exposure to Russian securities and area country risk has been further reduced. All Russian positions have been devalued to zero following Pricing Committee of Waystone Circulatory Resolution and Russian sanction UE.

Geopolitical Tensions – Iran:

Since the end of February 2026, the military escalation between Iran, Israel, and the United States has increased tensions in the Middle East.

The initial strikes and the retaliations that followed have caused disruptions to strategic shipping routes, notably in the Strait of Hormuz, as well as increased volatility in energy markets.

As of the closing date of this report, the direct impact on the portfolio of the SICAV compartments remains limited. The management company and the Manager continue, however, to closely monitor the evolution of the situation and its potential repercussions on financial markets, particularly through energy prices and global supply chains.

Remuneration policy

WMC Lux Remuneration Policy Statement for 2025 (according to CSSF Circular 10/437)

Waystone Management Company (Lux) S.A. (henceforth, "**Waystone**", "**WMC Lux**", or the "**Company**") has adopted a remuneration policy in accordance with the applicable regulatory framework, particularly:

- The ESMA Guidelines on sound remuneration policies under the UCITS Directive of 14 October 2016 (ESMA/2016/575) and the ESMA Guidelines on sound remuneration policies under the AIFMD (ESMA/2013/232, as amended by ESMA/2016/579),
- The Law of 17 December 2010 relating to undertakings for collective investment,
- The Law of 12 July 2013 on alternative investment fund managers,
- The CSSF Circulars 10/437 of 1 February 2010 with guidelines concerning the remuneration policies in the financial sector, and
- The CSSF Circular 18/698 of 23 August 2018, as amended, on the Authorization and organization of investment fund managers incorporated under Luxembourg law.

Through its remuneration policy, and as prescribed by the Sustainable Finance Disclosure Regulation [Regulation (EU) 2019/2088 of 27 November 2019 or the "**SFDR**"], the Company ensures that the structure of its remuneration does not encourage excessive risk taking with respect to sustainability risks when performing its activities as AIFM/Management Company, while it promotes sound and effective risk management with respect to sustainability risks.

Details of Waystone's remuneration policy, including the persons in charge of determining the fixed and variable remunerations of staff, a description of the key remuneration elements, and an overview of how remuneration is determined, is available under <https://www.waystone.com/waystonepolicies/>.

With respect to the financial year ended 31 December 2025 (when, as of that date, WMC Lux had a headcount of 85 employees), the total fixed and variable remuneration paid by the Company to its employees amounted to EUR 7,878,118 and EUR 453,785 respectively.

The total remuneration paid by the Company to senior management and members of its identified staff whose actions have a material impact on the risk profile of the collective investment schemes managed amounted to EUR 3,139,586.

The Company's remuneration committee has reviewed the implementation of the remuneration policy and has not identified any deficiency in that respect.

The current version of the remuneration policy was reviewed and approved by the Board of Directors on 09 September 2024.

Securities Financing Transactions Regulation (SFTR) Disclosures

The Securities Financing Transaction Regulation (SFTR) 2015/2365 on transparency of securities financing transactions and of reuse came into force on January 12, 2016 and introduces new disclosure requirements for securities financing transactions and total return swaps.

A securities financing transaction is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement,
- securities or commodities lending and securities or commodities borrowing,
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction.

As at December 31, 2025, the Fund is not impacted by the Securities Financing Transactions Regulation.

SFDR (Sustainable Finance Disclosure Regulation)

Pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the "SFDR"), the Fund is required to disclose the manner in which Sustainability Risks are integrated into the investment decision and the results of the assessment of the likely impacts of Sustainability Risks on the returns of the Fund.

The Fund does not actively promote environmental or social characteristics and does not maximize portfolio alignment with Sustainability Factors; however it remains exposed to Sustainability Risks. Such Sustainability Risks will be integrated into the investment decision making and risk monitoring to the extent that they represent a potential or actual material risks and/or opportunities to maximizing the long-term risk-adjusted returns.

The impacts following the occurrence of a Sustainability Risk may be numerous and vary depending on the specific risk, region and asset class. In general, where a Sustainability Risk occurs in respect of an asset, there will be a negative impact on, or entire loss of, its value.

Such assessment of the likely impact must therefore be conducted at Sub-Fund level, further detail and specific information is given in Part B of the Prospectus, in each relevant Sub-Fund's Appendix.

For the time being, except as may be otherwise disclosed at a later stage on its website, the Management Company does not consider adverse impacts of investment decisions on Sustainability Factors. The main reason is actually the lack of information and data available to adequately assess such principal adverse impacts.

Notwithstanding the above, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities, which are determined by the Regulation (EU) 2020/852 of the European Parliament and of the Council of June 18, 2020 on the establishment of a framework to facilitate sustainable investment, as amended from time to time.
