

CompAM Fund Sicav

Cadence Strategic Asia

28 February 2023

Fund Overview

The Sub-Fund's objective is to target returns in excess of nominal Asian GDP growth (gross domestic product) over the medium to long term. It will do so by investing in a concentrated portfolio of companies capable of sustaining high economic returns and which are undervalued in relation to their future cash generating ability.

The Sub-Fund's investment strategy will be unconstrained by any benchmark index and it will be focused on achieving absolute returns over the longer term. The unconstrained and concentrated nature of the Sub-Fund means that over shorter time periods, its returns are likely to diverge meaningfully from the performance of conventional benchmark indices.

Investment Manager

Compass AM is the investment manager of the fund. Compass AM bases its investment decisions on three solid pillars: a deep fundamental analysis, the prudence derived from investing our own assets alongside those of our clients and the wealth of financial market experience shared by our managers and advisors.
